↗ SIS Planned Switchover Activity – February 25th, 2017

As mentioned in SIS Bulletin 6/2016, one of the key benefits of the SIS migration to the new infrastructure in April 2016 was to have a stronger Disaster Recovery (DR) solution in place, to assist SIS Operations in running alternatively from Primary to Secondary (DR) site.

While the first SIS switchover to Secondary site was successfully completed on June 18th 2016 it is time now to re-do the exercise and return to the Primary site as per SOC 2 audit requirements.

Therefore the next SIS switchover is scheduled for Saturday, February 25th from 01:30AM EST (06:30AM UTC) with an expected downtime of approximately 5 hours.

While IS-Web will be unavailable during this time, all files submitted via iiNET will be held and processed after the switchover has been completed.

Kind regards,

SIS OPERATIONS TEAM
