↗ Location ID Campaign

The SIS Operations Team has embarked on a member location ID campaign that is meant to close the gap between the existing location IDs created in your SIS member profile and all locations in which your airline currently operates. The purpose of this campaign is to provide your e-invoicing partners, suppliers and service providers the option to submit invoices to your local stations and meet compliance requirements, where applicable.

As the SIS community continues to expand, members are strongly encouraged to create new SIS location IDs based on your organization's priority and relationships with your existing suppliers and service providers.

Kind regards,

SIS OPERATIONS TEAM
