## 1 CMP 669 - CSV listings for MISC Invoices/Credit Notes

This document aims to provide guidance and principles for members to benefit from “[SIS CSV listings for MISC Invoices/Credit Notes](#)” feature (deployed in Release 1.11).

This feature provides a Listing in CSV format in addition to the existing ‘PDF listing’ for Miscellaneous Invoices/Credit Notes.

The purpose of this feature is to allow any billing parties to receive a file from SIS in addition to the ‘Invoice PDF’ and ‘PDF listing’ as to facilitate some automation for invoices reconciliation.

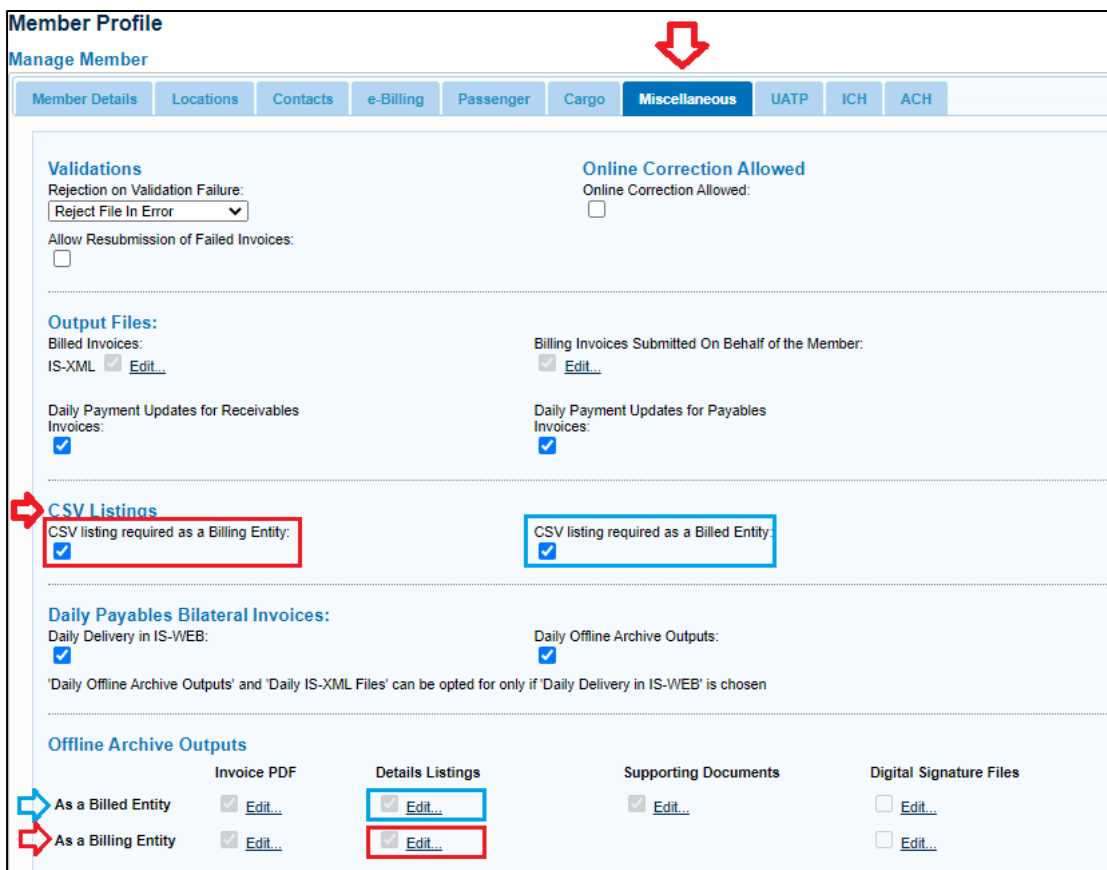

The ‘[CSV listing](#)’ has a standardized format and structure for all charge categories or type of billings allowing Members to import such information locally (e.g. into a spreadsheet) and perform semi-automated reconciliation, sorting of fields per flight or per service as required, for instance.

Also, all participants can use the ‘[CSV listing](#)’ to raise a dispute against a MISC Original invoice by creating an input Dispute CSV file (MDMF). For more information, refer to [CMP 656 - Miscellaneous Invoice Dispute Management](#) (zip) .

## 2 Setup ‘CSV Listings’ option in the ‘Member Profile’

Perform following steps to enable ‘[CSV Listings](#)’ as a part of Receivables or Payables OARs:

**Step 1)** Navigate to ‘[Profile and User Management](#)’ → ‘[Manage Member Profile](#)’ → ‘[Miscellaneous](#)’ tab

The screenshot shows the 'Member Profile' page with the 'Miscellaneous' tab selected. A red arrow points to the 'Miscellaneous' tab. The 'CSV Listings' section is highlighted with a red box and a red arrow. The 'CSV listing required as a Billing Entity' checkbox is checked and highlighted with a red box. The 'CSV listing required as a Billed Entity' checkbox is also checked and highlighted with a blue box. The 'Details Listings' section has two 'Edit...' buttons, one of which is highlighted with a red box. The 'Invoice PDF' section has two 'Edit...' buttons, one of which is highlighted with a red box. The 'Supporting Documents' section has one 'Edit...' button. The 'Digital Signature Files' section has one 'Edit...' button.

**Step 2)** CSV listing will be included in **Payables OAR** only when:

- 'CSV listing required as a Billed Entity' is 'Checked'
- 'Details Listing' as a Billed Entity is 'Checked'

**Step 3)** CSV listing will be included in **Receivables OAR** only when:

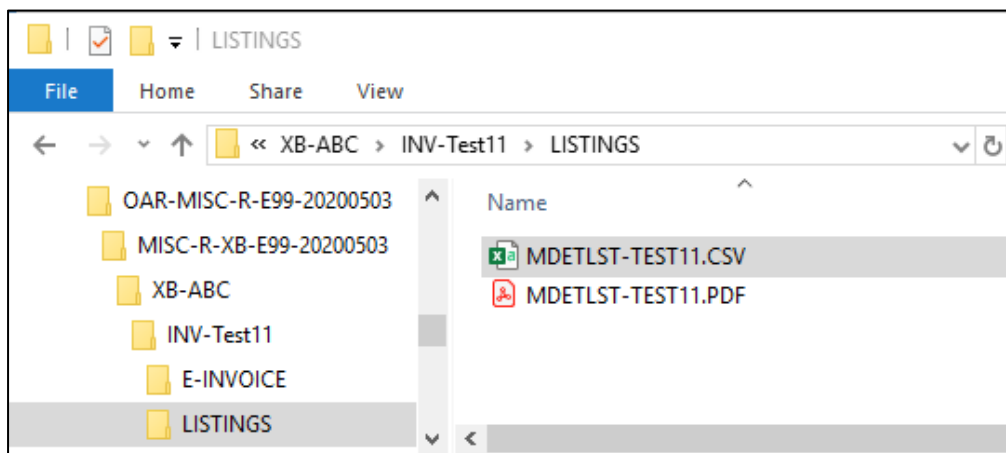

- 'CSV listing required as a Billed Entity' is 'Checked'
- 'Details Listing' as a Billed Entity is 'Checked'

**Step 4)** Click on 'Save Miscellaneous Details' in 'Miscellaneous' tab to save the changes.

When SIS generates the OAR file, if the 'CSV Listings' option is opted in the 'Member Profile', then it will be included the 'Listing' folder in addition of 'PDF listing' for the following MISC OARs:

- 'MISC Receivables Weekly Non-Location Specific OAR'
- 'MISC Payables Weekly Non-Location Specific OAR'
- 'MISC Receivables Weekly Location Specific OAR'
- 'MISC Payables Weekly Location Specific OAR'
- 'MISC Payables Daily Bilateral OAR- Location Specific'
- 'MISC Payables Daily Bilateral OAR Non-Location Specific'

**Example:** 'MISC Receivables Weekly Non- Location Specific OAR':

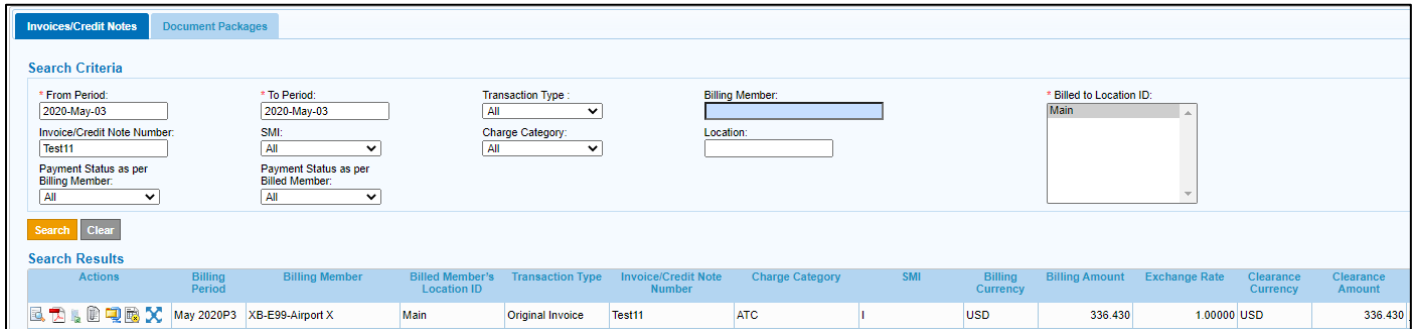

### 3 Download the 'CSV Listing'

#### 3.1 Directly through IS-WEB

Perform following steps to download of 'CSV listing' via IS-WEB:

1. Search the invoice:
  - For a Receivable invoice: [Miscellaneous](#) → [Receivables](#) → [Manage Invoice / Document Package](#)
  - For a Payable invoice: [Miscellaneous](#) → [Payables](#) → [Manage Invoice / Document Package](#)

The screenshot shows the 'Invoices/Credit Notes' section with a 'Document Packages' sub-tab. Under 'Search Criteria', the following fields are visible:

- From Period: 2020-May-03
- To Period: 2020-May-03
- Transaction Type: All
- Billing Member: [Empty]
- Billed to Location ID: Main
- Invoice/Credit Note Number: Test11
- SMI: All
- Charge Category: All
- Location: [Empty]
- Payment Status as per Billing Member: All
- Payment Status as per Billed Member: All

Buttons for 'Search' and 'Clear' are present. Below the search criteria, the 'Search Results' table is displayed with the following data:

Actions	Billing Period	Billing Member	Billed Member's Location ID	Transaction Type	Invoice/Credit Note Number	Charge Category	SMI	Billing Currency	Billing Amount	Exchange Rate	Clearance Currency	Clearance Amount
[Icons]	May 2020P3	XB-E99-Airport X	Main	Original Invoice	Test11	ATC	I	USD	336.430	1.00000	USD	336.430

2. Click on Listing action button .

3. The Listing download will begin automatically.

### 3.2 As a part of OAR through IS-WEB

Performs following steps to download of 'CSV listing' as a part of OAR via IS-WEB:

1. In the 'Search Criteria':
  - Select Billing Month/period for the related OAR,
  - Select 'Offline Archive Files' as 'File Type'.

**Download File**

**Search Criteria**

Billing Month From: May	Billing Period From: 3	Billing Month To: May	Billing Period To: 3	Billing Year: 2020
File Type: Offline archive files	Location ID: Main			

---

**Search Criteria for Daily MISC Bilateral Files to Billed Members/Document Package Files to Sending or Receiving Members:**

* Delivery Date From: 28-Jun-20	* Delivery Date To: 28-Jun-20	File Type: All	* Location ID: Main
------------------------------------	----------------------------------	-------------------	------------------------

---

**Search Results**

File Generated On	Billing Month	Billing Period	File Name	File Type	Location ID	Action
6/1/2020 12:08:09 AM	05-2020	3	OAR-MISC-P-ABC-20200503.ZIP	Offline archive files		

2. In the 'Search Results':
  - Click on Zip action button  to download the OAR including the 'CSV Listing'

The 'CSV Listing' file contains all fields for all MISC Charge Categories and its format / structure for all the Charge Categories is standardized and identical. Refer to [Appendix A: List of Fields in the CSV Listing](#).

## 4 Appendix A: List of Fields in the CSV Listing

The following table defines the fields that are included in the MISC CSV Listing. It also shows the mapping of CSV field/attribute with the corresponding IS-XML field/attribute.

The fields from number **16** to **23** are blank in the CSV Listing is generated for an Original invoice. These fields can be used **Only** for a dispute against a MISC Original invoice by creating an input Dispute CSV file (MDMF). For more information, refer to [CMP 656 - Miscellaneous Invoice Dispute Management](#) (zip) .

#	CSV Column / Field Name	Occ. In CSV	Mapping with IS-XML				Comments
			Level	Line Item Detail Group	Field	Maps With
