

CANADA

Known measures adopted following the A (H1N1) Flu outbreak

Updated 20-May-2009 15:30 CET

	Available Information	Information Validation
FACILITATION		
Affects:	Passengers arriving from affected countries	
Measures:	Implementation of “passive screening” at border control checkpoints (airport and other) – essentially agents are checking for signs of infection through visual assessment and more intensified questioning especially for passengers arriving from affected countries.
