INTRODUCING  
**IATA InvoiceWorks**

Reducing costs and driving efficiency in the  
Purchase-to-Pay cycle through electronic  
invoicing - elnvoicing - has enabled many  
companies to generate dramatic cost savings.

**Cost reduction** of 50% to 60%...  
**Efficiency gain** of up to 80% per invoice...  
**Return on investment** of +200%...  
**Payback** in 5 months...

These are just some of the benefits stated by  
the companies that have adopted elnvoicing.

Established by the International Air Transport  
Association (IATA) and powered by Bearing-  
Point, IATA InvoiceWorks provides an electronic  
invoicing service that enables airlines and their  
trading partners to realise these benefits.

## WHAT DOES IT DO?

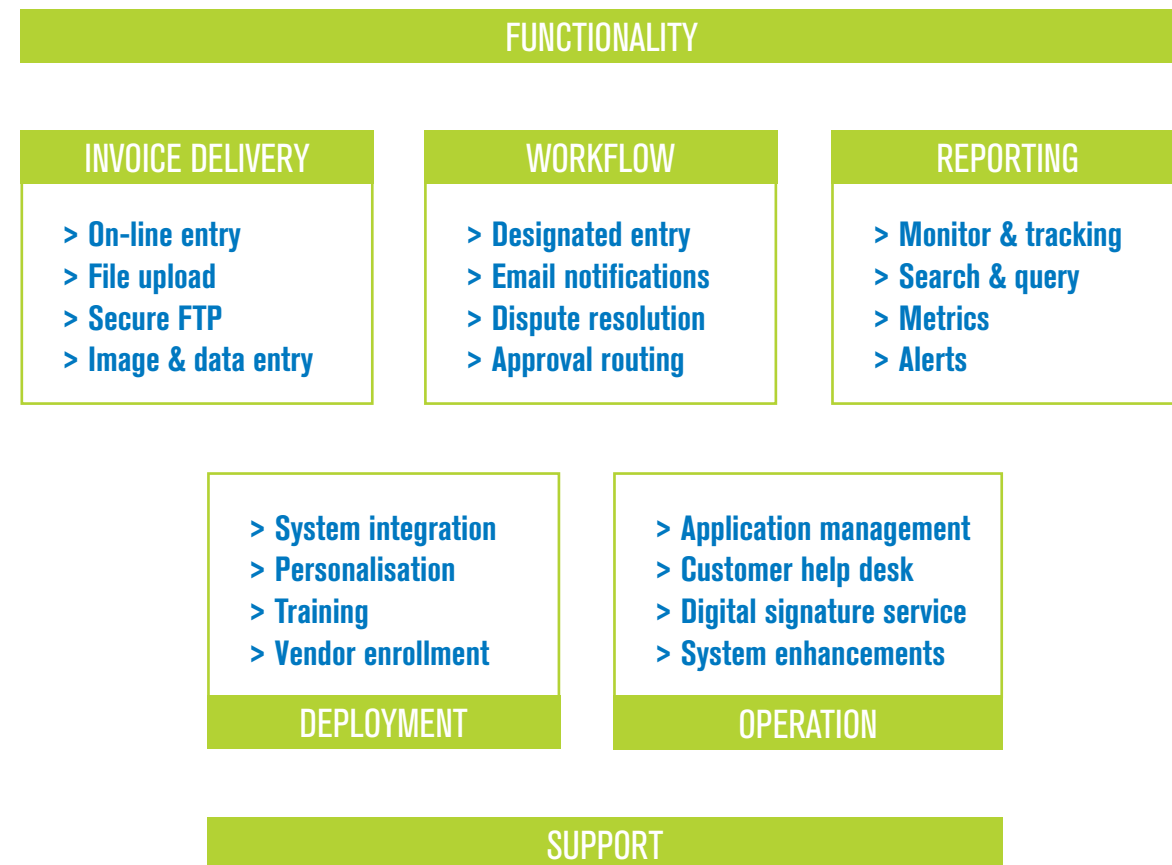

IATA InvoiceWorks is a web-based service for the aviation industry.

Designed to complement existing systems IATA InvoiceWorks provides a solution for companies to receive and send electronic invoices, resolve disputes, route invoices for approval using workflow, integrate with their accounts payable/receivable systems, review and track invoice status and reconcile activity without any hardware or software requirements.

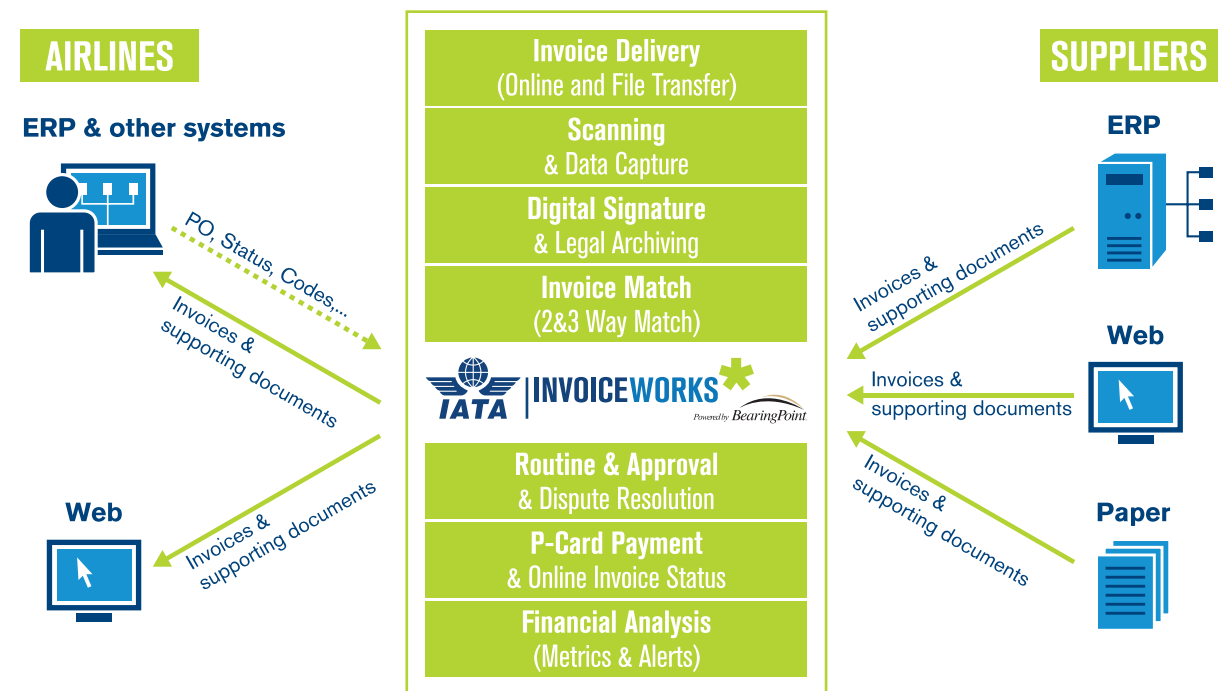

IATA InvoiceWorks offers a flexible, comprehensive electronic invoice presentation and payment service for airlines and their trading partners.

There are three main functionalities, all supported by best-in-class deployment and operation services:

- 1 Invoice Delivery
- 2 Workflow
- 3 Reporting

## SERVICE OFFERING

## KEY BENEFITS

Airlines and suppliers who are using IATA InvoiceWorks have achieved a range of proven benefits, including:

### Key Benefits to Airlines:

- Reduced invoice processing costs by eliminating paper
- Increased capture of supplier discounts
- Better control over invoice workflow and approval
- Strengthened supplier relationships through online invoice status reporting and issues management
- Elimination of manual data entry with higher data quality

### Key Benefits to Suppliers:

- Reduce printing, handling, postage and mailing costs
- Improved ability to manage cashflow with fewer payment delays
- Visibility of all invoices and payments with up to date status information
- Improved customer relationships through online responses to queries and issues

### Key Benefits to both airlines and suppliers:

- A unique central hub replacing many to many supplier-customer connections
- More efficient communication with improved transparency
- Strengthened audit and regulatory compliance
- Elimination of mail float as well as lost and misplaced invoices
- Simplified and more efficient invoice reconciliation
- Reduced labor costs and increased staff productivity
- Optimised working capital management
- Improved service and strengthened trading relationships

**A well-managed invoicing process improves financial performance, enforces internal controls and streamlines the order-to-pay cycle.**

Leading companies understand that invoicing is a strategic process.

Established by the International Air Transport Association and powered by BearingPoint, IATA InvoiceWorks is the electronic invoicing service for the aviation industry that provides access, through a single channel, to an established and growing community of more than 260 airlines and thousands of suppliers with shared interests and objectives.

That is why IATA InvoiceWorks is the preferred invoicing method for many of the world's leading airlines and aviation suppliers, including:

Air France | American Airlines | American Eagle | Atlas Air | BAA | British Airways | Cargolux | Delta Air Lines | Dublin Airport Authority | EL AL Israel Airlines | Finnair | Fraport | Icelandair | JetBlue Airways | Northwest Airlines | OneAero | Ryanair | Sama | SouthWest | Statoil | Thales | TAP | US Airways
