

# IATA E-FREIGHT MIP PARTICIPANTS LIST

October 2009

R22

The Message Improvement Programme is an IATA e-freight initiative to improve the Cargo-IMP EDI messaging performance and quality between airlines and freight forwarders for cargo operations. Participation is free of charges for airlines and freight forwarders. Participating airlines are required to provide monthly data about shipments and messages processed for Air Waybills (FWBs) and House Manifests (FHLs). All participants receive monthly customised reports that allow them to identify areas for improvement. The list below shows the airlines and freight forwarders who are participating in the programme and are committed to improve their performance. Participation in MIP is required for joining IATA's e-freight programme.
