

IATA SkyFusion Workshop

Date: Tuesday, 25 April 2017

Time: 1730-1830 / **Location:** TBA

(Seats are limited. Registration is first come, first served)

Target Group	<ul style="list-style-type: none">– Airlines, ANSPs, Airports– Operational Managers, Network Centre Managers
Workshop Objectives	This workshop will provide insight into the current and future developments of the SkyFusion operational services offering, which today is led by IATA and developed through a collaboration with our platform technology partner, Harris Corporation.
Summary	<p>Airlines, airports and ANSPs can exchange operational information across flight information with SkyFusion - our cloud-based platform. The SWIM-configured platform features collaborative decision-making (CDM) tools to drive practical improvements and bottom-line efficiencies.</p> <p>Join this workshop to gain practical operational insight into this, now fully operational, information exchange and extensive SWIM based CDM service. See the value of truly operational SWIM based data sharing and what it can do for your operations.</p> <p>Attendees will:</p> <ul style="list-style-type: none">▪ gain a clear understanding of how SkyFusion can create greater efficiencies for your operations;▪ interact with IATA and our technology partners to provide feedback and inputs on operational needs; and▪ understand how to seamlessly interact with other aviation stakeholders, such as other airlines, airports and ANSPs. <p>We look forward to meeting with you and hearing your feedback!</p>
