Air Cargo Security Track

Technology Innovation to support air cargo secure supply chains:

Through interactive, in-depth discussions between regulators and industry experts, this track will examine the current regulatory framework and will develop proposals for procedural and technological innovations to streamline air cargo screening.

14:00 – 14:10	Welcome address & opening remarks
14:10 – 15:00	IEDs in cargo and available detection technology: what is appropriate and what should evolve?
15:00 - 15:30	Why another PEDs situation should not happen in cargo: security methods, protection of the supply chain & information sharing
15:30 - 16:15	Networking Break
16:15 - 17:20	<p>Interactive workshop</p> <ul style="list-style-type: none"> • Technology of the future: should we be visionaries? <ul style="list-style-type: none"> ○ A view to robots and automation ○ Can technologies enhance human capabilities? • Technology, training and human factor: can one go without the others? <ul style="list-style-type: none"> ○ Lessons learnt from SMART security ○ K-9 technology ○ Training needs ○ Human factors & Insiders ○ Risk-based approach
17:20 – 17:30	Closing remarks
