Order Accounting in the new world

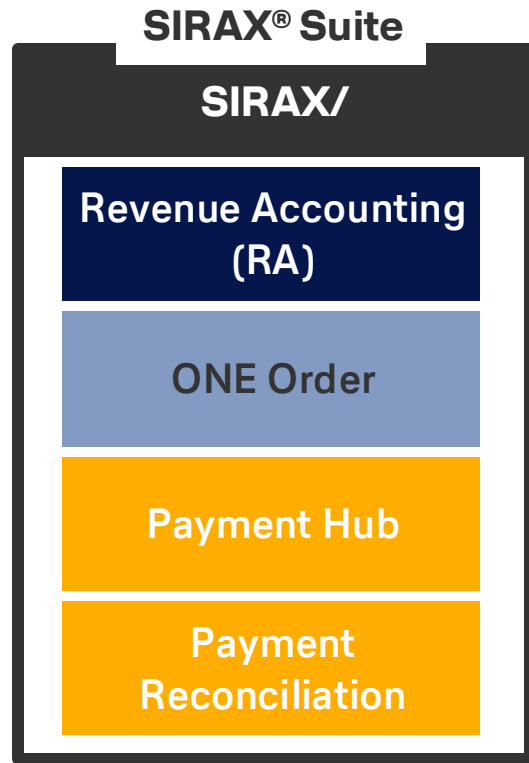

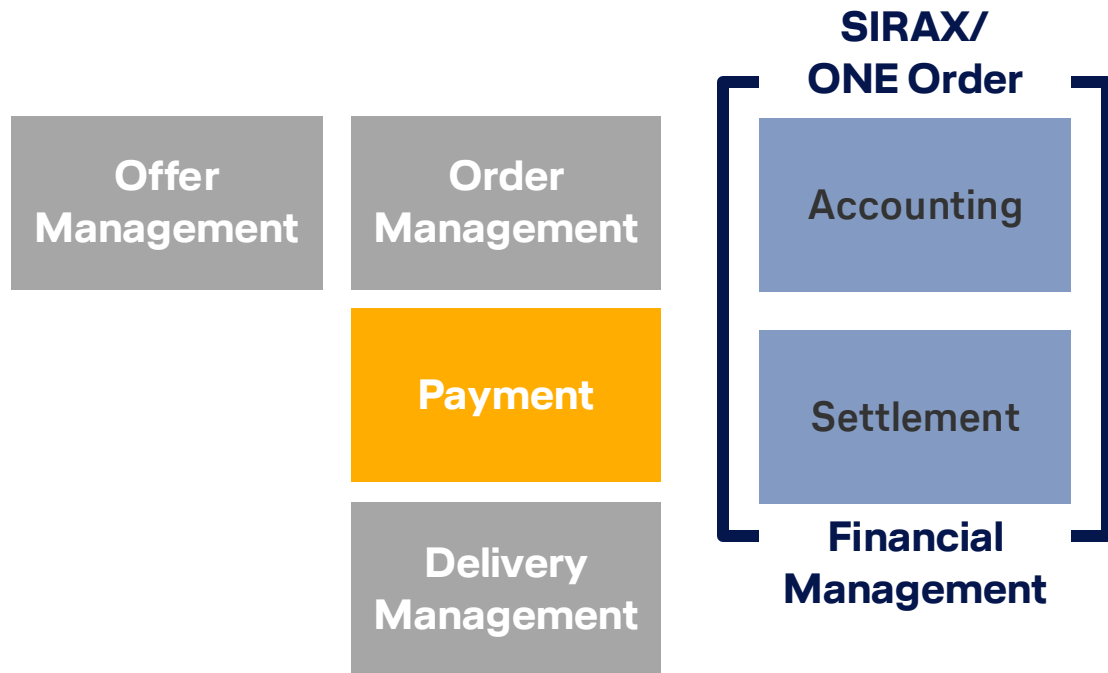

Lufthansa Systems view

SIRAX/ ONE Order

Successful order management requires a high performing Order Accounting & Settlement system

We are directly involved in shaping future industry standards

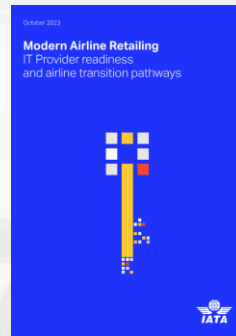

We actively participate in the key IATA working groups for Financial Management.

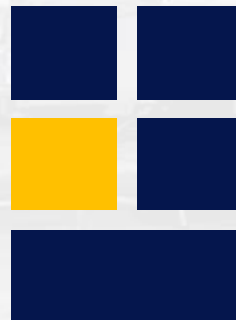

Order
Accounting

Airline Billing and
Settlement

participation in the
Modern Airline Retailing
program

we fully support the
modular approach
coming with the IATA
reference architecture

SIRAX/ONE Order delivers the benefits already today

Simplified finance processes

fully in-line with IATA ONE Order and Settlement with Orders (SwO)

Full coverage of finance processes with accounting, settlement and reporting

Complete chain of transition period with **combined reporting**

Easy integration with any Order Management System (OMS)

Latest technology with cloud-native architecture and platform

UI tier

Platform tier

Runtime tier

Cloud based

SIRAX/ONE Order is ready and available

SIRAX/ONE Order

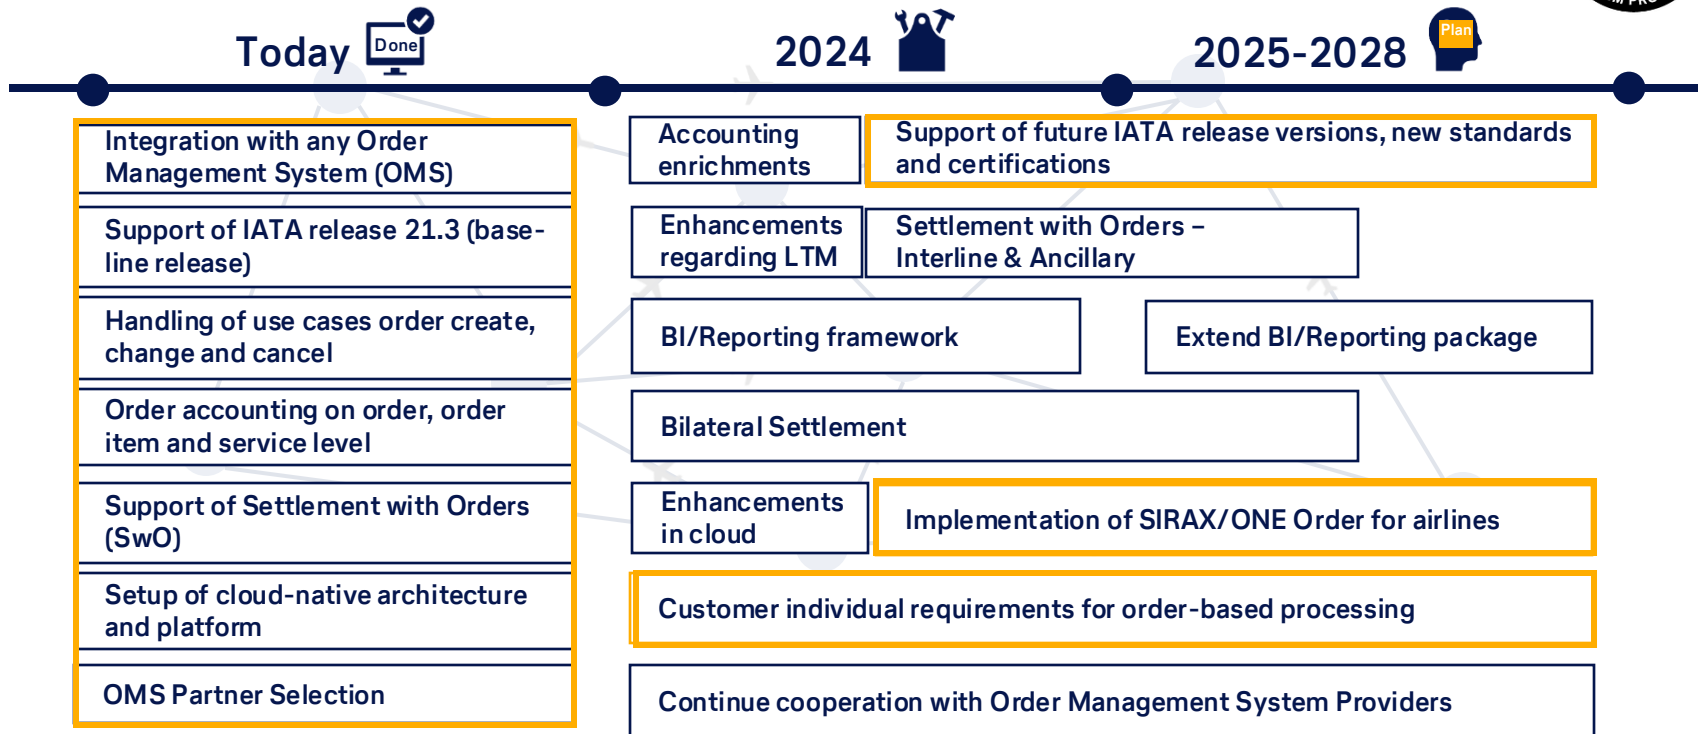

The critical parallel processing during the transition period is solved by the SIRAX/ONE Order integrated accounting technology

Parallel processing of legacy documents and Orders is key during the transition phase

SIRAX/ONE Order

Product Roadmap

SIRAX/ONE Order ONE decision for the future
