
Fire Side Chat with Dr. Chula Sukmanop, Secretary-General of the Eastern Economic Corridor Office of Thailand (EEC)

I. The airlines industry is currently exposed to a plethora of taxes. What are the general trends in taxation that you are witnessing across the globe and in your country for the airline sector ?

II. Transition to net-zero: Should Governments tax airlines or incentivize them to achieve the transition to net zero ? How do we balance this ?

III. Has your Government introduced measures / will introduce measures that will promote the aviation sector's growth while also ensuring environmental and social responsibilities are met?

IV. How important is mutual understanding and cooperation between governments and the airline industry when shaping fiscal policies that aim for long-term financial sustainability for the airline sector?
