Seamless travel is not science fiction, it's now

David Trastour, Head of Product, Amadeus Traveler ID

How was your trip to Chicago...?

Where is my passport?

Do I need a visa?

Is my passport still valid?

Will I get an ESTA – even if I was in Cuba lately?

Do I have everything I need to travel?

When should I leave home?

Digital identity promise: relaxed travelers

Seamless experience

Personalized experience

Contactless experience

No stress

No queues

Relaxed travelers along the travel journey

Seamless travel. It's now.

Industry

50+ airlines with biometric projects

300+ airports with biometric equipment

Governments

Many initiatives. Some selected examples:

- DigiYatra in India
- TSA with Apple/Google in USA
- Greek government wallet (facilitates boarding)

Travelers

Digitalization acceleration through Covid

Digital identity wallets

Acceptation of biometrics (75% travelers)

**But it's still
fragmented.**

Amadeus. It's how travel works better.

Our goal?

To guarantee a seamless
traveler experience
door-to-door

How?

Through an open ecosystem
of partnerships

Airlines

Hotels

Wallet Providers

Airport Providers

Governments

What does it mean for you?

Which?

When?

How?

Who?

Where?

Why?

Let's talk!
