Digital Identity – 2024 and Beyond

Olivier Hours

Head Distribution Strategy, IATA

Gabriel Marquie

Senior Manager Digital Identity,
IATA

#IATAWFS #IATAWPS #IATAWFSWPS

Digital identification of citizens refers to...

... the online representation of an individual's identity, which includes personal information and unique identifiers that facilitate access to digital services (e.g. banking, government etc).

Digital identification will change the way we consume airline content

Flight Booking

Digital identification complements IATA standards

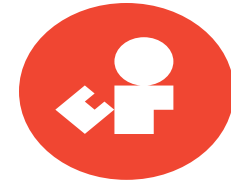

Shop

Order

Pay / Settle

Travel

NDC

One Id

Product Management

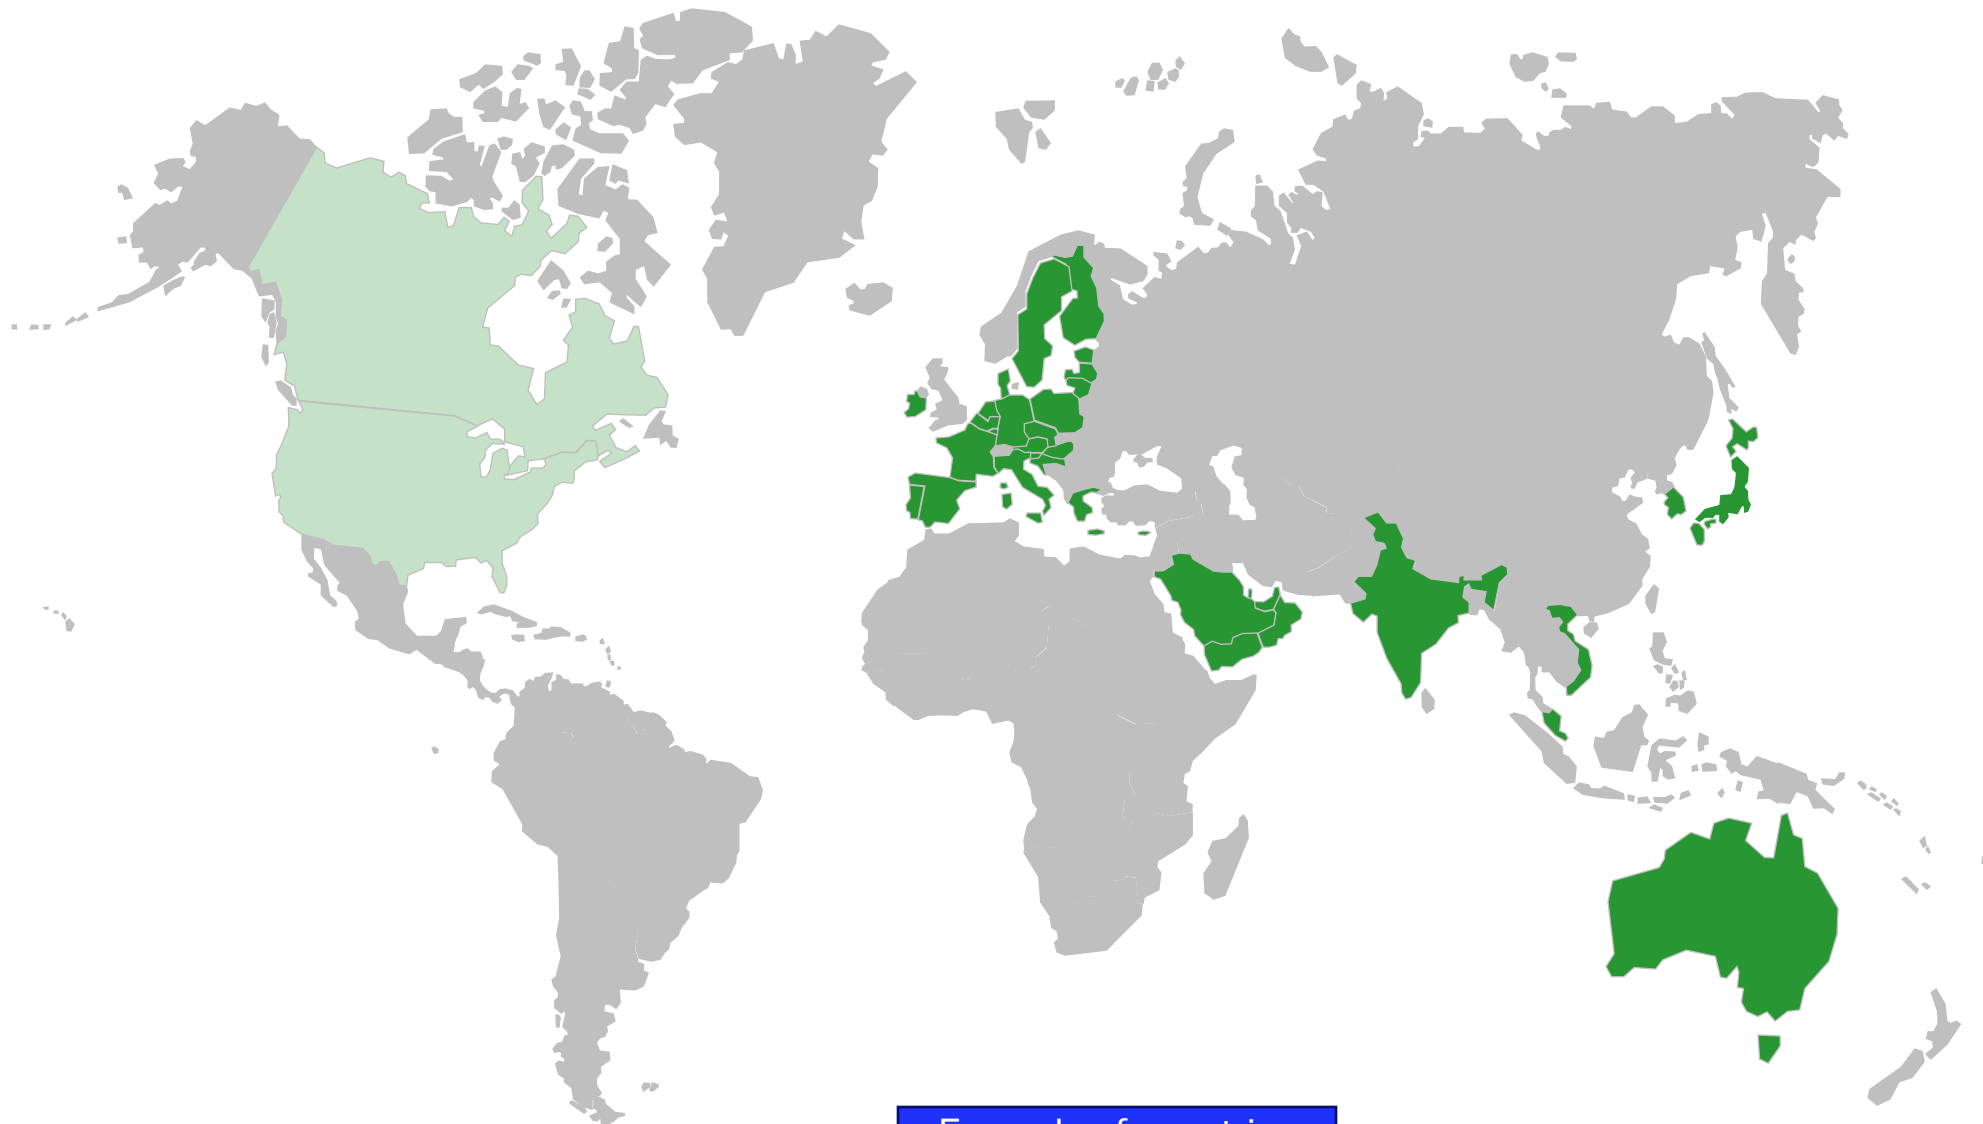

One Order

Business Architecture

SRSIA

By 2026, over 500 million people will regularly use a digital wallet.

Example of countries

Digital identification is already deployed in other transport verticals

Some industries
already fully use
digital wallets and
show the way
