Journey

What is Seamless Travel?

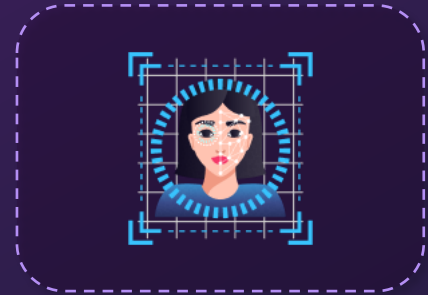

Become
“Ready to Travel” at Home

Self - enabled
Airport Processes

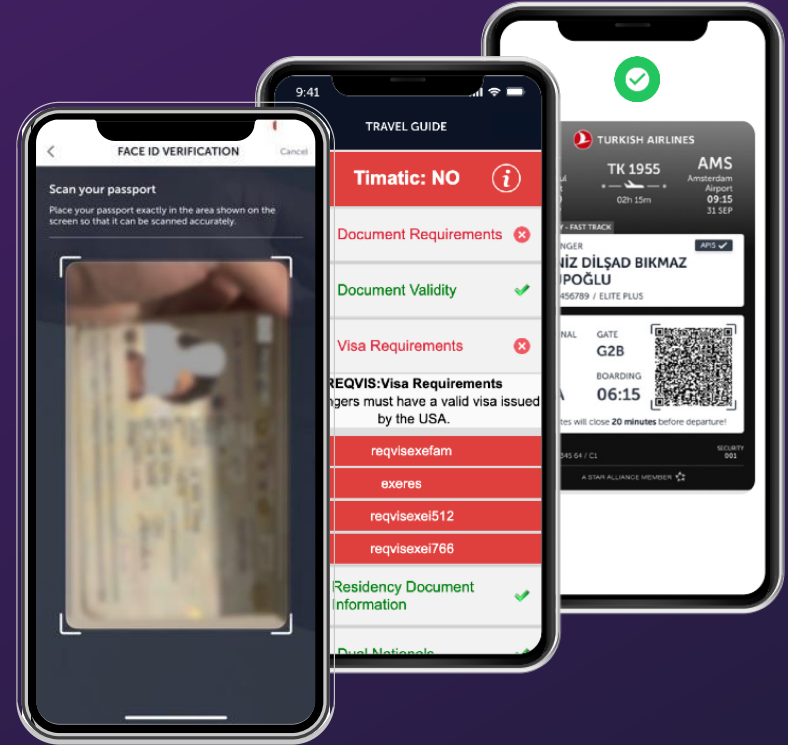

Seamless
Boarding

1. Moving Airport Processes to Home

“Passenger’s can conduct most of the processes at home without having any stress”

- **Secure APIS project**
- **Automated Document Checks & Travel Ready Center**
- **Pre Saved APIS (Wallet)**

2. Seamless Airport Processes & Self Check-in

Self Check-in and Biometrics Initiatives

- Kiosk & Self Bag Drops
 - Kiosks 87 Ports
 - SBD 16 Ports
- Biometric identification for Kiosks and SBDs
- Biometric Lounge Access

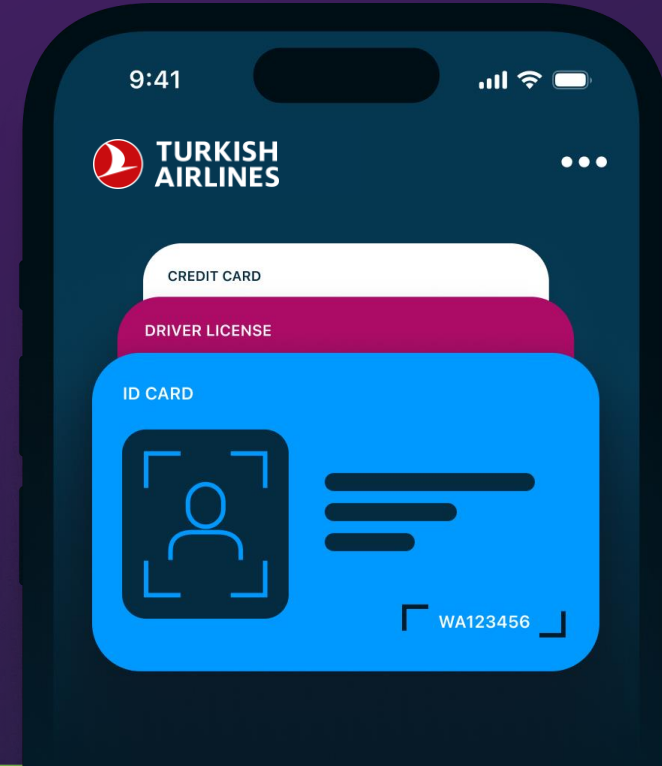

3. Seamless Boarding

- **ADB Trial** → Inhouse solution
- **IST Trial** → Alliance level solution
- **USA Live** → Government backed solution
- **HKG** → ready to go live within contactless directory PoC

Feature Plans

- Enabling processing and usage of government backed digital ID solutions
- Creation of inhouse Digital ID Wallet and possible integrations with Apple & other industry wallets.

THANK YOU!
