Processors

MEMBERSHIP

Through a collaborative approach  
***Licence free and royalty free***

Building Blocks that are  
modular and interoperable

# Facts about nexo standards

## 109

International Members  
(as of October 2025)

## 21,909

Downloads from  
Nexo Standards  
Website  
(since August 2018)

ALMOST

## 5bn

**Payment Transactions**  
powered by nexo every year  
(based on member testimony)

Deployments in **31**  
countries in every continent  
(as of June 2024)

## Hundreds of ,000s

**Payment Devices**  
run nexo standards  
applications  
(based on member testimony)

## 1

Single ISO 20022  
version worldwide

## 104

countries collected nexo  
standards specifications  
and protocols

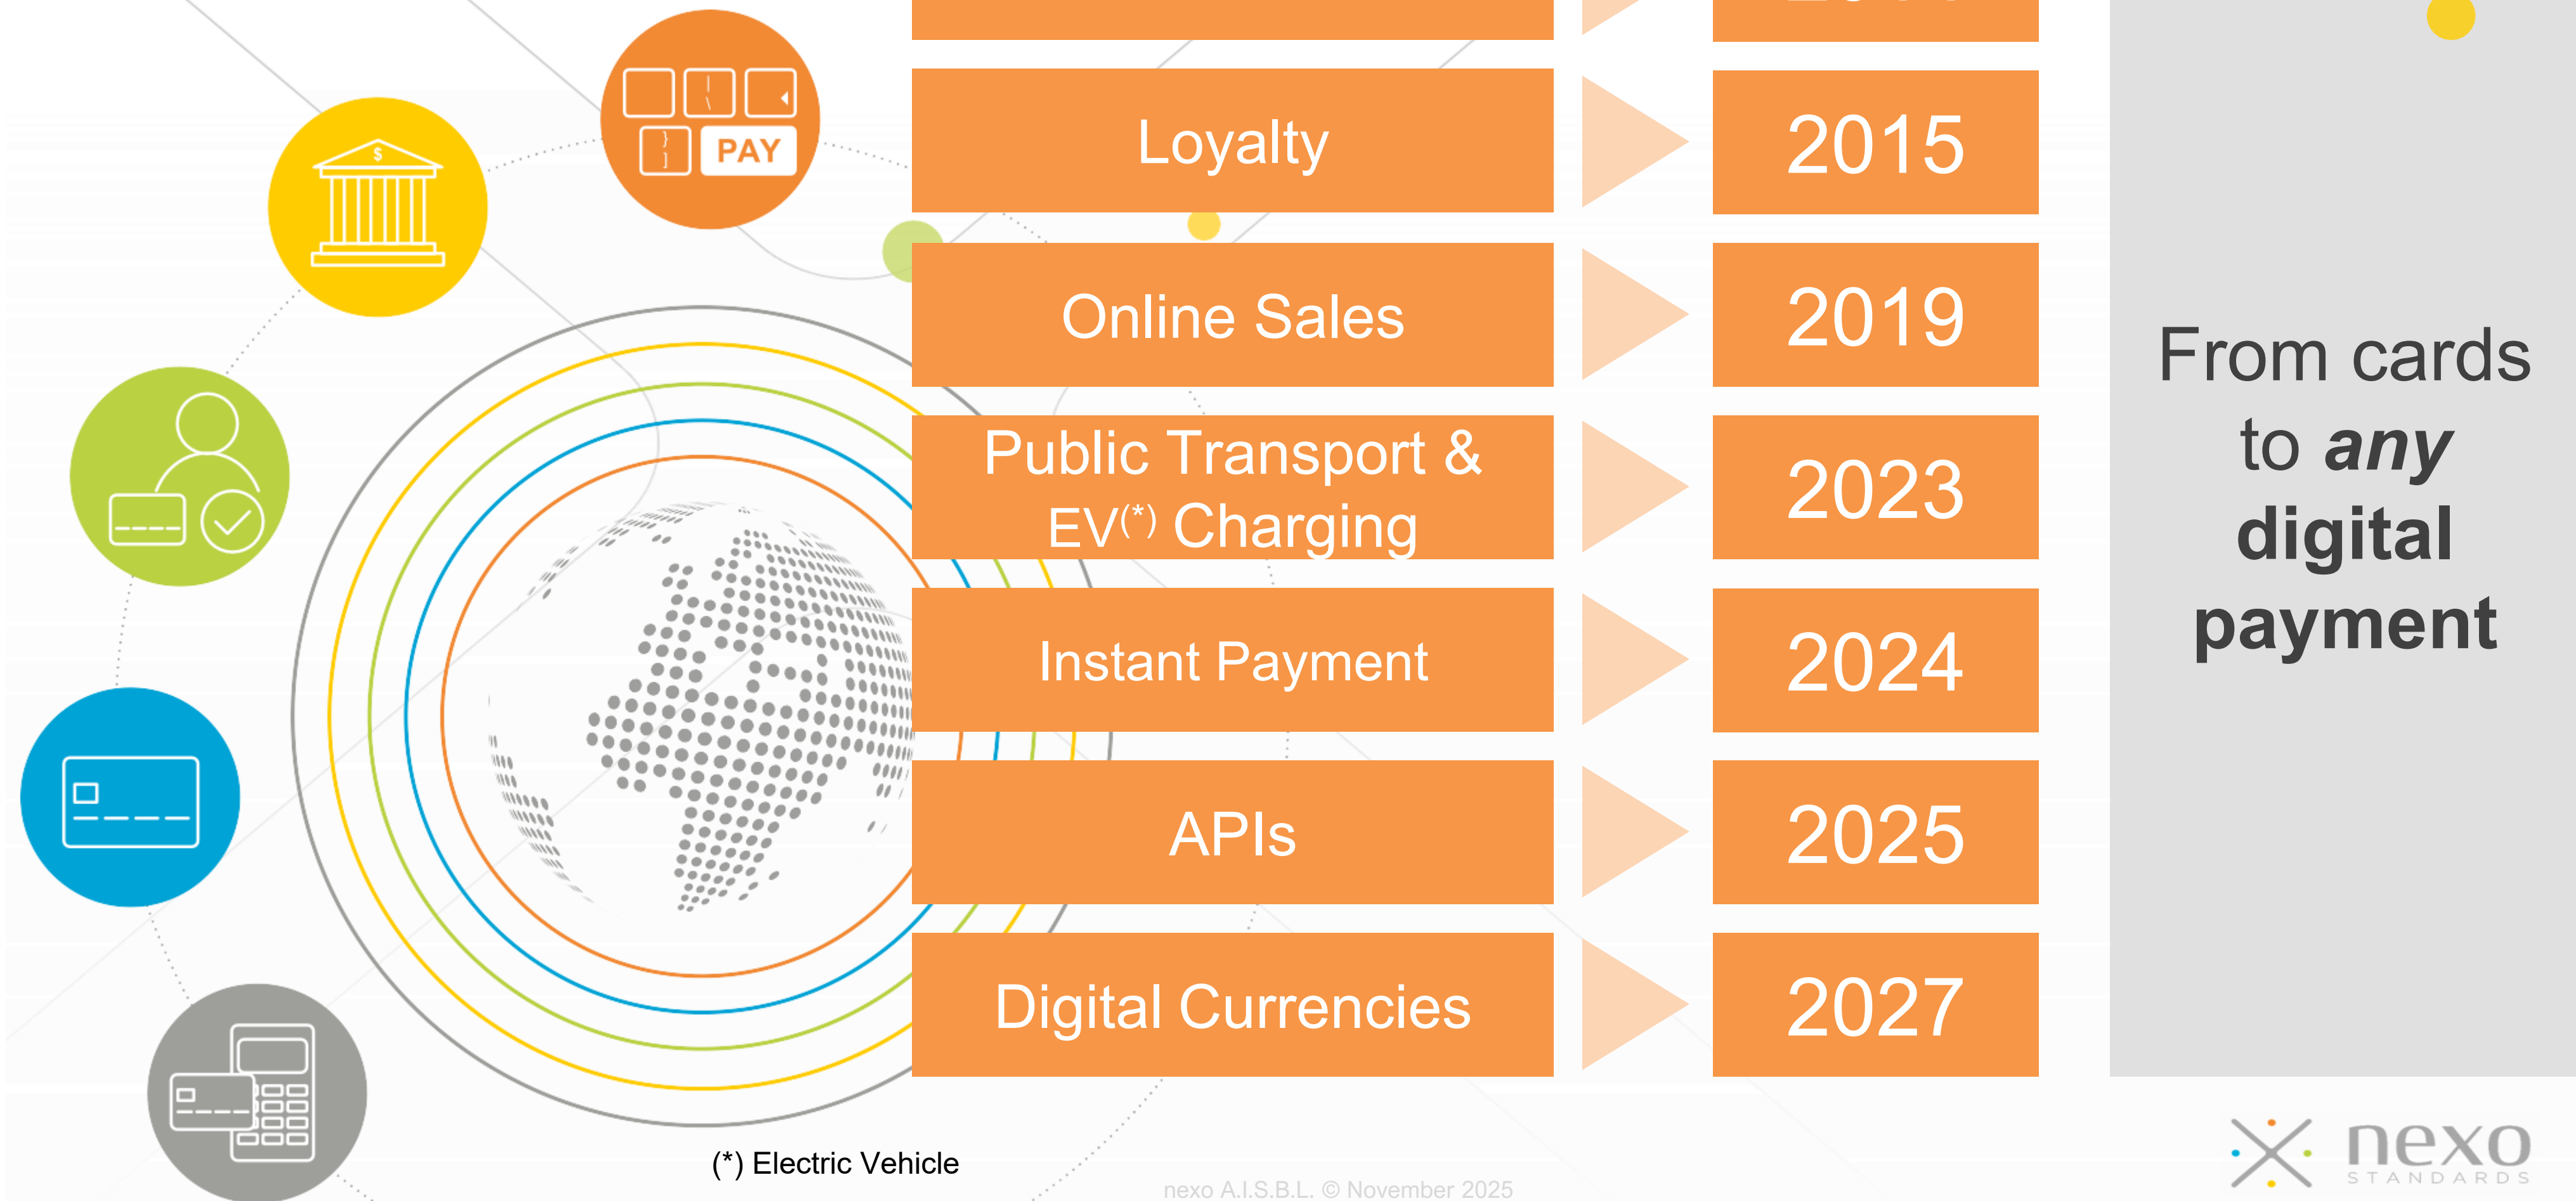

# ISO 20022 and nexo standards

ISO 20022	nexo standards
Global standard for financial messaging	Focus on <b>acceptance for any digital payment</b>
Multiple Submitting Organisations	<b>Only payment <i>acceptance</i></b> <b>ISO Submitting Organisation</b> since 2014
Defines structure; not deployment	Provides 4 protocols and 1 payment specification <b>ready to implement</b>

# Scope timeline
