# AirPharma Webinar

**Andrea GRUBER**  
Head Special Cargo  
**IATA**

Mrs. Gruber is Head, Special Cargo at the International Air Transport Association (IATA) and is responsible for the regulations related to the transport of live animals, perishables and pharmaceuticals and for delivering international standards and business processes for the air cargo supply chain. She is secretary to the IATA Live Animals and Perishables Board and the Time and Temperature Working Group.

Mrs. Gruber developed and implemented for the industry three Center of Excellence (CEIV) quality audit programs certifying the handling and transport of pharmaceuticals, live animals and perishable products based on IATA, national and international requirements and standards.

Prior to working with IATA Mrs. Gruber worked at the International Road Transport Union (IRU) as head of a division implementing, at the Customs and business level, tools to assist the application of risk management.

**Glyn HUGHES**  
Global Head Cargo  
**IATA**

Glyn Hughes has been involved in Air Cargo for over 30 years having started his career with British Caledonian in the UK. He joined IATA in 1991 and became IATA's Global Head of Cargo in June 2014. He has the overall responsibility to ensure IATA delivers on the agenda agreed by the Cargo Committee to support the Air Cargo industry. Priority areas include safety, security, quality, special cargo, operations, modernization and industry sustainability.

Glyn Hughes is dedicated to working closely with industry stakeholder partners through GACAG and other relationships to foster collaborative solutions. A firm believer in supporting the next generation of industry leaders, Glyn spends a large amount of time on outreach programs with training and other educational establishments.

**Luis ROMAN**  
Vice President Global Deliver Janssen  
**The Janssen Pharmaceutical Companies of Johnson & Johnson**

Currently, Luis is responsible for end-to-end delivery of all Janssen products. He is a member of the Global Deliver Leadership Team and of the Global Janssen Supply Chain Leadership Team. His main focus is on orchestrating end-to-end order and physical flows globally to achieve business alignment, deliver results and enhance the customer experience.

Throughout his career at J&J of approximately 20 years, Luis has held positions of increasing responsibility within Supply Chain across various functions in Manufacturing, Engineering, New Product Introduction and Strategy Development/Deployment, including Vice President Cardiovascular Care and Specialty Solutions (CSS) with supply chain end-to-end responsibility of finished goods and services for the franchises: Acclarent, Cerenovus, Biosense Webster, Mentor and Advance Sterilization Products. Luis, also held the position as Vice President, Global Surgery Manufacturing with responsibility for all finished goods manufacturing sites in Juarez, Miami Lakes and Albuquerque, Vice President, Ethicon Manufacturing Americas responsible for all finished goods manufacturing sites, served as Worldwide Director of Sustaining Engineering responsible for technical teams supporting internal and external manufacturing for Cordis, Ethicon Endo Surgery and Biosense Webster.

# AirPharma Webinar

Luis focuses on delivering outcomes that drive customer value and enhances the customer experience. In these roles, his organizations delivered a strong track record of improving key operational performance and fulfilled various key accomplishments in stabilizing product supply elements while delivering enhancements in all phases of the business that have been recognized both internally and externally.

Luis is a strong developer of talent, an advocate for Diversity & Inclusion and a strong believer of social justice. Throughout his tenure, he has been known for his active participation and sponsorship of Employee Relationship Groups (HOLA / Open & Out). Luis' passion for a healthy lifestyle energizes his teams and peers as he resembles the true Corporate Athlete with his ability to balance healthy lifestyle while bringing value to Johnson and Johnson.

Luis earned his Bachelor of Science degree in Industrial Engineering from Purdue University and a M.B.A degree from the University of Texas. He is certified as a Six-Sigma Black Belt, Lean Green Belt and FPX (Flawless Project Execution). Additionally, he is an active member of the Institute of Industrial Engineers (IIE), Society of Manufacturing Engineers (SME), and American Society of Quality (ASQ).
