[Enhanced Partner Identification Connectivity Platform](#)

Visibility of business & technical requirements from custom/govt. authority is critical for compliance with its Advance Cargo Information (ACI) /Pre-Loading ACI (PLACI) initiative. Better visibility means facilitated compliance. IATA has launched a centralized platform called EPIC that allows to get all information about various ACI and PLACI initiative as well as automates the digital connectivity processes between customs and airlines/freight forwarders. This session demonstrates how customs authorities are using IATA EPIC to roll out their ACI/PLACI initiative as well as the key benefits for customs, airlines and freight forwarders.

**Tahir Syed**, Manager Cargo Technology, IATA

15:25 – 15:30

[Wrap-up](#)

**Gordon Wright**, Head Cargo Border Management, IATA
