

IATA Live Animals Regulations (LAR) 46th Edition (English)

Effective 1 January 2020 – 31 December 2020

ADDENDUM I

Posted March 11, 2020

Users of the IATA Live Animals Regulations (LAR) are asked to note the following amendment and corrections to the 46th Edition, effective January 1st, 2020.

To help identify the insertion, change or amendment to the existing text, where appropriate, these have been highlighted in blue and/or red in PDF or grey in hardcopy:

- (Inserted text is underlined in blue)
- ~~(Deleted text is strike in red).~~

The Addendum I to the LAR consists of the following amendments:

LAR Chapter 3 – Carrier Regulations

- Section 3.1.1 Carriage of Domestic Pets in Passenger Cabins as Accompanied Baggage
- Section 3.2 Specific Airline Variations
 - Amendments to AF – Air France
 - Changes from JJ – Tam Airlines to LA – LATAM Airlines Group S.A
 - Amendments to LO - LOT-POLISH AIRLINES
 - Creation of PR – Philippine Airlines
 - Creation of VA – Virgin Australia

LAR Chapter 6 – Listing, Description and Sizes of Species

- Section 6.2 Alphabetical List of Animals—Common and Scientific Names, Container Requirements and CITES Protected Species

LAR Chapter 8 – Container Requirements

- CONTAINER REQUIREMENT 51
- CONTAINER REQUIREMENT 82

LAR Chapter 11 – Convention on International Trade in Endangered Species of Wild Fauna and Flora

- Section 11.5.1 Decisions Resulting from the Conference of Parties

IATA Live Animals Regulations (LAR) 46th Edition (English)

Effective 1 January 2020 – 31 December 2020

ADDENDUM I

Posted March 11, 2020

LAR Chapter 3 – Carrier Regulations

Section 3.1.1 Carriage of Domestic Pets in Passenger Cabins as Accompanied Baggage

OPERATOR VARIATIONS: AY-02

The following airlines will not accept animals for carriage in passenger cabins as accompanied baggage, although some make an exception for seeing-eye, hearing-ear and service dogs accompanying a blind, deaf or physically impaired person. Carriers *not* listed may carry animals in passenger cabins under special conditions, as accompanied baggage. Advance arrangements must be made for their carriage on all segments of the journey.

Note:

Also refer to the carrier regulations section in 3.2

Aer Lingus
Aerolineas Argentinas
Air Botswana
Air Guinee
Air Mauritius
Air New Zealand
Air Niugini
Air Tanzania
Air U.K.
Australian Airlines
British Airways
Cargolux
Cathay Pacific Airways Limited
Cubana
Cyprus Airways
Garuda Indonesia
Icelandair
Iran Air
Jamahiriya Libyan Arab Airlines

Mount Cook Airlines
Philippine Airlines
Polynesian Airlines
Qantas Airways
Royal Jordanian
Singapore Airlines
South African Airways (into, or wholly within, the Republic of South Africa)
SriLankan Airlines
Syrian Arab Airlines

Note:

See also Variations GBG-01, OMG-01, ZAG-01 and EU variation in chapter 2.

IATA Live Animals Regulations (LAR) 46th Edition (English)

Effective 1 January 2020 – 31 December 2020

ADDENDUM I

Posted March 11, 2020

Section 3.2 – Specific Airline Variations

Note:

Operator variations are identified by an alpha-numerical code. The first two characters designate the operator, as applicable in civil aviation and separated from the numerical sequence by a dash. The following operators have variations on file:

OPERATOR	CODE
[...]	
TAM AIRLINES LATAM Airlines Group S.A	JJ LA
[...]	
PHILIPPINE AIRLINES	PR
[...]	
VIRGIN AUSTRALIA	VA
[...]	

AF— AIR France

AF-01 All Cats and dogs from third countries with final destination France must be identified and vaccinated against rabies. Always check the country regulations of final destination in the TACT RULES chapter 7.3. The minimum age of puppies and kittens must be minimum 10 weeks when travelling ex or within the EU.

~~Snub nosed Cats and Dogs~~

When rigid containers are used, at least 2 cable ties must be attached to the top and the bottom of the door to prevent escape and ensure the door does not open during handling.

Note:

Applicable to CR1, CR11, CR12, CR15, CR18, CR20, CR21, CR23, CR31, CR74, CR75, CR77, CR78, CR79, CR82, CR83

Snub nosed Cats and Dogs

The following snub nosed breeds (and their crossed breeds) will not be accepted for carriage:

- English Bulldog
- French Bulldog
- Boston Terrier
- Pugs

Exceptions may be granted by AF live animals department.

IATA Live Animals Regulations (LAR) 46th Edition (English)

Effective 1 January 2020 – 31 December 2020

ADDENDUM I

Posted March 11, 2020

Other snub nosed breeds, except the four mentioned above, can be accepted but the kennel must be one size larger than normally required.

Although all the snub-nosed dogs/cats are prone to breathing issues, we still accept others breeds, except the four mentioned above, but the kennel must be one size larger than normally required.

~~JJ-TAM AIRLINES~~  ~~LA-LATAM Airlines Group S.A~~ 

~~JJLA-01~~ ~~TAM~~[LATAM Airlines Group](#) will not be liable for any loss or expenses arising from death of animals due to natural causes or death or injury cause by the conduct of the animal itself.

~~JJLA -02~~ ~~TAM~~[LATAM Airlines Group](#) will not accept animals intended for laboratory and/or experimentation and/or exploitation purposes. In exceptional circumstances, where conservation and/or breeding is concerned, acceptance may be granted subject to request and prior approval of ~~TAM~~[LATAM Airlines Group](#).

~~JJLA -03~~ Advance arrangement is required for all shipments of live animals, by booking the shipment at least 24 hours before presenting it for transport. Additional information can be obtained through the Reservation Office of ~~TAM~~[LATAM Airlines Group](#).

~~JJLA-04~~ Live fish must be packed with waterproof materials, covered with an additional plastic bag or sheet. An absorbent pad will be used and charged to each shipment at origin.

~~JJLA-05~~ Only Dogs and Cats will be accepted as Baggage. All other live animals must be shipped as Cargo.

- Assist dogs in service to passengers with disabilities could be carried in the passenger cabin only with prior approval.
- The maximum amount of animals that can be transported per flight varies according the type of aircraft and service class available, limited to Business and Economy Class, as applicable.
- The maximum acceptable dimensions for animals containers in cabin (PETC) are 36 x 33 x 25 cm (W x L x H).
- The maximum animal weight acceptable as Checked Baggage is:
 - Flights to/from Europe: 32 kg
 - Flights to/from North/South America: 45 kg
 - Domestic flights: 60 kg

~~JJLA-06~~ Restrictions for acceptance and transportation of dogs and cats:

- ~~TAM~~[LATAM Airlines Group](#) will not accept dog and cat less than 3 months of age.
- Brachycephalic animals (snub nosed), pure or cross breeds: due the fact that these animals are susceptible to the effects of temperature and ventilation variations (when exposed to stress or temperatures above 21°C), demonstrating breathing difficulties, heat stroke symptoms (hyperthermia) or travel fatigue, it is required a kennel one (01) size larger than the normally required for the animal standard, and ventilation openings on the four (04) sides of the container.

IATA Live Animals Regulations (LAR) 46th Edition (English)

Effective 1 January 2020 – 31 December 2020

ADDENDUM I

Posted March 11, 2020

We strongly recommend to shippers to provide a proper animal acclimatization of these animals at the kennel before offering for transportation.

- Aggressive breeds: ~~TAM~~[LATAM Airlines Group](#) will refuse any animal that is offensive or shows aggressive behavior during acceptance and/or loading procedures.
- Except for small animals acceptable for cabin carriage (PETC), Dogs and/or Cats will only be accepted with a safe lock in non-collapsible containers. A rigid structure container equipped with a metallic door and metallic ventilation bars is compulsory.

~~JJ~~[LA-07](#) Pregnant animals will not be accepted for transportation.

LO —LOT-POLISH AIRLINES

LO-01 Advanced arrangements are required for all shipments of live animals. Contact carrier for full details, worldwide LOT phones and email contacts are available on <http://www.lot.com/cargo>

LO-02 Wild caught birds will not be accepted for carriage on LOT network, unless shipper certifies on shipper's letter that birds are being shipped from/to a zoo or preserve.

LO-03 Primates intended for laboratory purposes will not be accepted for carriage on LOT network.

LO-04 [All Mammals declared to be pregnant will not be accepted for carriage unless accompanied by a veterinary health certificate certifying that the animal is fit to travel.](#)

LO-05 [All air-waybills issued for the transport of live animals must be included the following information:](#)

- ["Carrier not responsible for mortality due to natural causes"](#)
- ["24 hours emergency phone number"](#)

LO-06 [Brachycephalic Animals \(snub nosed\)](#)

[List of breeds:](#)

Dogs

- [Affenpinscher](#)
- [Bulldogs- all breeds](#)
- [Boston Terrier](#)
- [Boxer](#)
- [Brussels Griffon](#)
- [Chinese Pug](#)
- [Chow-chow](#)
- [Dutch Pug](#)
- [English Toy Spaniel](#)
- [Japanese Chin](#)
- [Japanese Pug](#)
- [Lhasa Apso](#)
- [Pekingese](#)
- [Pug](#)
- [Shih Tzu](#)
- [Share Pei](#)
- [Tibetan Spaniel](#)

IATA Live Animals Regulations (LAR) 46th Edition (English)

Effective 1 January 2020 – 31 December 2020

ADDENDUM I

Posted March 11, 2020

Cats

- [Persian](#)
- [Himalayan](#)
- [Exotic Shorthair](#)

Snub-nosed dogs can only be accepted for carriage on LO flights under below mentioned conditions:

- [The cage must be one size larger than size stated on cage instructions \(Traveling in a larger kennel reduces the risk of breathing problems\)](#)
- [The cage must have ventilation areas on four sides of it](#)
- [The temperature at the origin, transit and destination point must be below 27 °C](#)

LO-07 Dangerous Dogs

The following dangerous breeds of dog will be accepted for carriage according to CR82 container requirements

- [American Pit Bull](#)
- [Japanese Tosa](#)
- [Pit Bull Terrier](#)
- [Dogo Argentinos](#)
- [American Staffordshire Terrier](#)

*Puppies between 2 -6 months can be accepted for carriage in accordance with the CR1 container requirements.

LO-08 Animals contaminated with infectious diseases will not be accepted for carriage.

LO-09 Endangered species listed under CITES Appendix I in chapter 6 will not be accepted for carriage. This also applies to product and parts thereof.

Exceptions:

- [If the shipper or shipper's agent certifies in writing that the animals are born and bred in captivity.](#)
- [Consigned to a zoological garden, a national park/reserve, a government wildlife agency or an approved animal care center.](#)
- [Transported within the scope of a wildlife conservation program.](#)

LO-10 LOT Polish Airlines may introduce an embargo for reasons other than those described above.

IATA Live Animals Regulations (LAR) 46th Edition (English)

Effective 1 January 2020 – 31 December 2020

ADDENDUM I

PR — PHILIPPINE AIRLINES

PR-01 BRACHYCEPHALIC / SNUB NOSED DOGS

1. All breeds of Brachycephalic or mixed breeds of snub-nosed dogs are not accepted for transport as cargo and as checked baggage on PR domestic and international flights.
2. List of Brachycephalic dog breeds including its cross breeds as follows:
 - Affenpinscher
 - Boerboel
 - Boston Terrier
 - Boxer
 - Brussels Griffon
 - Bulldog
 - Bullmastiff
 - Cane Corso
 - Cavalier King Charles
 - Chihuahua (Apple Head)
 - Chow-chow
 - Doque de Bordeaux
 - English Toy
 - French Bulldog
 - Griffon Brexellois
 - Japanese Chin
 - King Charles Spaniel
 - Lhasa Apso
 - Mastiff (all breeds)
 - Pekingese
 - Pug (all breeds)
 - Rottweiler
 - Share Pei
 - Shih Tzu
 - Staffordshire Bull Terrier
 - Tibetan Spaniel
 - Tosa
 - Valley Bulldog
 - Yorshire Terrier
3. Only dogs excluded from the list will be accepted for carriage on PR domestic and international flights.
4. This restriction does not apply to service and emotional support dogs with passenger in the cabin

PR-02 PIGS

1. Live Pig is not accepted for carriage on PR domestic and international flights.
2. Obnoxious animal, known to produce offensive odor.

PR-03 MONKEYS

1. Monkey intended/used for laboratory research, experimentation, and exploitation purposes is not accepted on PR domestic and international flights.
2. Monkey will only be accepted for carriage for the purposes of conservation and/or breeding or when it is being shipped from or to a zoo sanctuary, preserve or rehabilitation center.

IATA Live Animals Regulations (LAR) 46th Edition (English)

Effective 1 January 2020 – 31 December 2020

ADDENDUM I

Posted March 11, 2020

-
3. [Booking for the entire air transportation, including any connecting flight must have been confirmed before the shipment is accepted for carriage.](#)

VA — VIRGIN AUSTRALIA

[VA-01 Breeds of dog prohibited for import into Australia under "The Customs \(prohibited imports\) Regulations 1956", including crossbreeds, will not be accepted. The breeds include, but are not limited to:](#)

- [Fila Brasileiro](#)
- [Japanese Tosa](#)
- [Dogo Argentino](#)
- [American Pit Bull and Pit Bull Breeds](#)
- [Perro de Presa Canario or Presa Canario](#)

[Domestic/non domestic hybrids \(e.g. dog-wolf crosses\) are also prohibited under the "Environment Protection and Biodiversity Conservation Act 1999". This includes, but is not limited to:](#)

- [Czechoslovakian wolfdog or Czechoslovakian Vlcak](#)
- [Saarloos wolfdog or Saarloos wolfhound](#)
- [Lupo Italiano or Italian wolfdog](#)
- [Kunming wolfdog or Kunming dog.](#)

[VA-02 Aggressive or highly agitated animals or animals that exhibit aggressive behaviours, excessive chewing and/or cage destruction are to be shipped in cages that are stronger in design such as a CR82 or approved guard dog cage – this includes but is not limited to American Staffordshire Terriers.](#)

[VA-03 Brachycephalic or snub-nosed dog and cat breeds, including crossbreeds, are more likely to suffer from respiratory distress and heat stress, placing them at significant risk during air travel. It is recommended that the shipper checks with their vet about the suitability of air travel for these breeds.](#)

[To minimise the risk of heat stress during air transport, Virgin Australia strongly recommends customers look to book flights that will take place when the temperature and humidity is lower, for example:](#)

- [Avoid flying when it is hot](#)
- [Avoid flights departing and/or landing during the hotter hours of the day.](#)

[If the temperature will be high on the day of your departure, rescheduling the flight to another, cooler day is recommended.](#)

[Virgin Australia recommends customers wishing to transport their animals review the RSPCA website \(\[www.RSPCA.org.au\]\(http://www.RSPCA.org.au\)\) for guidance on important considerations when transporting your animal by air, domestically and/or internationally.](#)

IATA Live Animals Regulations (LAR) 46th Edition (English)

Effective 1 January 2020 – 31 December 2020

ADDENDUM I

Posted March 11, 2020

These breed (including cross breeds) types include, but are not limited to:

- | | | |
|--|--|--|
| <ul style="list-style-type: none">• Affenpinscher• American Staffordshire Terrier (Staffies)• Boston Terrier• Bulldogs (all breeds)• Boxer• Brussels Griffon• Cane Corso• Pekingese• Pugs (all breeds)• Tibetan Spaniel | <ul style="list-style-type: none">• Chihuahua (Apple Head)• Dogue de Bordeaux• English Mastiff• Japanese Spaniel• King Charles Spaniel• Lhasa Apso• Neapolitan Mastiff• Shar-Pei• Shih Tzu | <ul style="list-style-type: none">• Exotic Shorthair• British Shorthair• Scottish Fold• Himalayan Cat• Persian Cat |
|--|--|--|

For all Brachycephalic or snub-nosed breeds (including cross breeds) 5 years or older, Virgin Australia strongly recommends they are NOT presented for travel due to welfare concerns.

VA-04 All Zoo animals are to be approved by Virgin Australia prior to booking. Applicable CITES and Australian Government Regulations apply for all zoo/sanctuary animal movements.

VA-05 A Veterinary Certificate (dated within 2 weeks of travel dates) is to be obtained and presented at time of lodgement by the shipper confirming that the animal is fit for air travel when the animal is:

- Pregnant or has given birth within 48 hours of the planned departure time
- Over 12 years of age
- Between 8 and 12 weeks old
- Sick, injured or recovering from surgery.

This is a restriction that applies on all Virgin Australia flights.

VA-06 All two part rigid plastic containers must have the top and bottom or side parts secured by screws or nuts and bolts (not plastic clips) to prevent the escape of the animal and due to the potential of the plastic clips breaking and/or being dislodged during handling.

VA-07 A water bowl/receptacle is to be affixed on the inside of all containers for dogs and cats (CR1 and CR82 type containers). Other animal(s) also may have this requirement – See the IATA LARs for further guidance.

The shipper must declare to the operating carrier at time of acceptance the AVI can be given water during the flight.

VA-08 All frozen, live seafood/fish must be transported in appropriate packaging methods so as to ensure nil leakage or spills occur during transport.

LAR Chapter 8 – Container Requirements

CONTAINER REQUIREMENT 51

The illustrations shown in this Container Requirement are examples only. Containers that conform to the principle of written guidelines but look slightly different will still meet the IATA standards.

Applicable to:

- Aquatic Amphibians
- [Aquatic Crustaceans \(see also CR57\)](#)
- [Aquatic Hermit Crabs](#)
- Cui-ui
- Fish, n.o.s. (unless arrangements are made for specialized packing)
- Goldfish
- Jellyfish*
- Lionfish**
- Octopus***
- Seahorses
- Tropical fish
- Water snail
- Small sharks and rays (see also CR52A)

CONTAINER REQUIREMENT 82

The illustrations shown in this Container Requirement are examples only. Containers that conform to the principle of written guidelines but look slightly different will still meet the IATA standards.

Applicable to:

- Aardwolf
- Andean Mountain cat
- Asiatic wild dog
- Badger species
- Bobcat
- Bush dog
- Caracal
- Coyote
- Dhole
- [Dingo](#)
- Dog, bush wild
- Dog, hunting wild
- Fox species
- Hyena species
- Jackal
- Jaguarundi
- Lynx species
- Maned wolf
- Ocelot
- Otter species (except giant otter, see CR80)
- Panda (lesser or red)
- Wild cat species (small)
- Wolf
- Wolverine

LAR Chapter 11 – Convention on International Trade in Endangered Species of Wild Fauna and Flora

Section 11.5.1 Decisions Resulting from the Conference of Parties

COP ~~17~~18 ~~Johannesburg (South Africa), 24 September–4 October 2016~~ Geneva, Switzerland, from 17 to 28 August 2019.

At its ~~17~~18th meeting, the Conference of the Parties took the following decisions (the abbreviation 'spp.' is used to denote all species of a higher taxon):

As a consequence of the adoption by the Conference of the Parties of a revised Annex to Resolution Conf. 12.11 (Rev. CoP~~16~~17) on *Standard nomenclature*, containing taxonomic and nomenclature references for species included in the Appendices, some orthographic and name changes have been introduced in the revised version of Appendices I, II and III, in addition to those mentioned in the lists below.

In accordance with past practice, the Secretariat has updated the references to the Resolutions mentioned in annotation 2 relating to the populations of *Loxodonta africana* in Botswana, Namibia, South Africa and Zimbabwe.

Additional information can be obtained from the following internet site of CITES:
<https://cites.org/eng/app/appendices.php>

11.5.1.1 Description of changes in regard to FAUNA

a) The following taxa are transferred from Appendix I to Appendix II of the Convention:

FAUNA
CHORDATA
MAMMALIA
ARTIODACTYLA

Camelidae *Vicugna vicugna* [population of the Province of Salta (Argentina) with annotation 1]

RODENTIA

Muridae *Leporillus conditor*
Pseudomys fieldi (Previously listed as *Pseudomys fieldi praecornis* in Appendix I.)
Xeromys myoides
Zyzomys pedunculatus

AVES
PASSERIFORMES

IATA Live Animals Regulations (LAR) 46th Edition (English)

Effective 1 January 2020 – 31 December 2020

ADDENDUM I

Posted March 11, 2020

Muscicapidae *Dasyornis broadbenti litoralis*
Dasyornis longirostris

REPTILIA

CROCODYLIA

Crocodylidae *Crocodylus acutus* (population of Mexico with a zero export quota for wild specimens for commercial purposes)

b) The following taxa are transferred from Appendix II to Appendix I of the Convention:

FAUNA

CHORDATA

MAMMALIA

CARNIVORA

Mustelidae *Aonyx cinerea*

Lutrogale perspicillata

AVES

GRUIFORMES

Gruidae *Balearica pavonina*

REPTILIA

TESTUDINES

Geoemydidae *Cuora bourreti*

Cuora picturata

Mauremys annamensis

Testudinidae *Geochelone elegans*

Malacochersus tornieri

c) The following taxa are included in Appendix I of the Convention:

FAUNA

CHORDATA

REPTILIA

SAURIA

Agamidae *Ceratophora erdeleni*

Ceratophora karu

Ceratophora tennentii

Cophotis ceylanica

Cophotis dumbara

Gekkonidae *Gonatodes daudini*

ARTHROPODA

INSECTA

LEPIDOPTERA

IATA Live Animals Regulations (LAR) 46th Edition (English)

Effective 1 January 2020 – 31 December 2020

ADDENDUM I

Posted March 11, 2020

Papilionidae *Achillides chikae hermeli*
Parides burchellanus

d) The following taxa are included in Appendix II of the Convention:

FAUNA

CHORDATA

MAMMALIA

ARTIODACTYLA

Giraffidae *Giraffa camelopardalis*

AVES

GALLIFORMES

Phasianidae *Syrnaticus reevesii*

REPTILIA

SAURIA

Agamidae *Ceratophora aspera* (zero quota for wild specimens for commercial purposes)

Ceratophora stoddartii (zero quota for wild specimens for commercial purposes)

Lyricephalus scutatus (zero quota for wild specimens for commercial purposes)

Eublepharidae *Goniurosaurus* spp. (except the species native to Japan)

Gekkonidae *Gekko gecko*

Paroedura androyensis

Iguanidae *Ctenosaura* spp.

SERPENTES

Viperidae *Pseudocerastes urarachnoides*

AMPHIBIA

CAUDATA

Salamandridae *Echinotriton chinhaiensis*

RHINOPRISTIFORMES

Glaucostegidae *Glaucostegus* spp.

Rhinidae Rhinidae spp.

ECHINODERMATA

HOLOTHUROIDEA

ASPIDOCHIROTIDA

Holothuriidae *Holothuria fuscogilva* (entry into effect delayed by 12 months, i.e. until 28 August 2020)

Holothuria nobilis (entry into effect delayed by 12 months, i.e. until 28 August 2020)

Holothuria whitmaei (entry into effect delayed by 12 months, i.e. until 28 August 2020)

ARTHROPODA

ARACHNIDA

ARANEAE

Theraphosidae *Poecilotheria* spp.

e) The following decisions were taken with regard to annotations:

FAUNA

CHORDATA

MAMMALIA

ARTIODACTYLA

Bovidae *Saiga borealis* and *Saiga tatarica*

The following annotation (a zero export quota for wild specimens traded for commercial purposes) was included.

Camelidae *Vicugna vicugna*

The name of the population of Chile was amended from "population of the Primera Región" to "populations of the region of Tarapacá and of the region of Arica and Parinacota"

IATA Live Animals Regulations
46th Edition (English)
Effective 1 January 2020 – 31 December 2020

Addendum I

Posted February 11, 2020

f) The following decisions were taken with regard to the interpretation section:

Paragraph 7 was amended as follows:

When a species is included in one of the Appendices, the whole, live or dead, animal or plant is included. In addition, for animal species listed in Appendix III and plant species listed in Appendix II or III, all parts and derivatives of the species are also included in the same Appendix unless the species is annotated to indicate that only specific parts and derivatives are included. The symbol # followed by a number placed against the name of a species or higher taxon included in Appendix II or III refers to a footnote that indicates the parts or derivatives of animals or plants that are designated as 'specimens' subject to the provisions of the Convention in accordance with Article I, paragraph (b), subparagraph (ii) or (iii).

Paragraph 8 was amended to include the following definitions:

Finished musical instruments

A musical instrument (as referenced by the Harmonized System of the World Customs Organization, Chapter 92; musical instruments, parts and accessories of such articles) that is ready to play or needs only the installation of parts to make it playable. This term includes antique instruments (as defined by the Harmonized System codes 97.05 and 97.06; Works of art, collectors' pieces and antiques).

Finished musical instrument accessories

A musical instrument accessory (as referenced by the Harmonized System of the World Customs Organization, Chapter 92; musical instruments, parts and accessories of such articles) that is separate from the musical instrument, and is specifically designed or shaped to be used explicitly in association with an instrument, and that requires no further modification to be used.

Finished musical instrument parts

A part (as referenced by the Harmonized System of the World Customs Organization, Chapter 92; musical instruments, parts and accessories of such articles) of a musical instrument that is ready to install and is specifically designed and shaped to be used explicitly in association with the instrument to make it playable.

Shipment

Cargo transported under the terms of a single bill of lading or air waybill, irrespective of the quantity or number of containers or packages; or pieces worn, carried or included in personal baggage.

Ten (10) kg per shipment

For the term "10 kg per shipment", the 10 kg limit should be interpreted as referring to the weight of the individual portions of each item in the shipment made of wood of the species concerned. In other

IATA Live Animals Regulations 46th Edition (English)

Effective 1 January 2020 – 31 December 2020

Addendum I

Posted February 11, 2020

words, the 10 kg limit is to be assessed against the weight of the individual portions of wood of Dalbergia/Guibourtia species contained in each item of the shipment, rather than against the total weight of the shipment.

Transformed wood

Defined by Harmonized System code 44.09: Wood (including strips, friezes for parquet flooring, not assembled), continuously shaped (tongued, grooved, v-jointed, beaded or the like) along any edges, ends or faces, whether or not planed, sanded or end-jointed.

Annotation 1:

For the exclusive purpose of allowing international trade in fibre from vicuñas (*Vicugna vicugna*) and their derivative products, only if the fibre comes from the shearing of live vicuñas. Trade in products derived from the fibre may only take place in accordance with the following provisions:

- a) Any person or entity processing vicuña fibre to manufacture cloth and garments must request authorization from the relevant authorities of the country of origin (Countries of origin: The countries where the species occurs, that is, Argentina, Bolivia, Chile, Ecuador and Peru) to use the "vicuña country of origin" wording, mark or logo adopted by the range States of the species that are signatories to the Convention for the Conservation and Management of the Vicuña.
- b) Marketed cloth or garments must be marked or identified in accordance with the following provisions:
 - i) For international trade in cloth made from live-sheared vicuña fibre, whether the cloth was produced within or outside of the range States of the species, the wording, mark or logo must be used so that the country of origin can be identified. The VICUÑA [COUNTRY OF ORIGIN] wording, mark or logo has the format as detailed below:

This wording, mark or logo must appear on the reverse side of the cloth. In addition, the selvages of the cloth must bear the words VICUÑA [COUNTRY OF ORIGIN].

- ii) For international trade in garments made from live-sheared vicuña fibre, whether the garments were produced within or outside of the range States of the species, the wording, mark or logo indicated in paragraph b) i) must be used. This wording, mark or logo must appear on a label on the garment itself. If the garments are produced outside of the country of origin, the name of the country where the garment was produced should also be indicated, in addition to the wording, mark or logo referred to in paragraph b) i).
- c) For international trade in handicraft products made from live-sheared vicuña fibre produced within the range States of the species, the VICUÑA [COUNTRY OF ORIGIN] - ARTESANÍA wording, mark or logo must be used as detailed below:

- d) If live-sheared vicuña fibre from various countries of origin is used for the production of cloth and garments, the wording, mark or logo of each of the countries of origin of the fibre must be indicated, as detailed in paragraphs b) i) and ii).

IATA Live Animals Regulations 46th Edition (English)

Effective 1 January 2020 – 31 December 2020

Addendum I

Posted February 11, 2020

e) All other specimens shall be deemed to be specimens of species listed in Appendix I and the trade in them shall be regulated accordingly

Annotation 2:

Populations of Botswana, Namibia, South Africa and Zimbabwe (listed in Appendix II):

For the exclusive purpose of allowing:

- a) trade in hunting trophies for non-commercial purposes;
- b) trade in live animals to appropriate and acceptable destinations, as defined in Resolution Conf. 11.20 (Rev. CoP18), for Botswana and Zimbabwe and for *in situ* conservation programmes for Namibia and South Africa;
- c) trade in hides;
- d) trade in hair;
- e) trade in leather goods for commercial or non-commercial purposes for Botswana, Namibia and South Africa and for non-commercial purposes for Zimbabwe;
- f) trade in individually marked and certified ekipas incorporated in finished jewellery for non-commercial purposes for Namibia and ivory carvings for non-commercial purposes for Zimbabwe;
- g) trade in registered raw ivory (for Botswana, Namibia, South Africa and Zimbabwe, whole tusks and pieces) subject to the following:
 - i) only registered government-owned stocks, originating in the State (excluding seized ivory and ivory of unknown origin);
 - ii) only to trading partners that have been verified by the Secretariat, in consultation with the Standing Committee, to have sufficient national legislation and domestic trade controls to ensure that the imported ivory will not be re-exported and will be managed in accordance with all requirements of Resolution Conf. 10.10 (Rev. CoP18) concerning domestic manufacturing and trade;
 - iii) not before the Secretariat has verified the prospective importing countries and the registered government-owned stocks;
 - iv) raw ivory pursuant to the conditional sale of registered government-owned ivory stocks agreed at CoP12, which are 20,000 kg (Botswana), 10,000 kg (Namibia) and 30,000 kg (South Africa);
 - v) in addition to the quantities agreed at CoP12, government-owned ivory from Botswana, Namibia, South Africa and Zimbabwe registered by 31 January 2007 and verified by the Secretariat may be traded and despatched, with the ivory in paragraph g) iv) above, in a single sale per destination under strict supervision of the Secretariat;
 - vi) the proceeds of the trade are used exclusively for elephant conservation and community conservation and development programmes within or adjacent to the elephant range; and
 - vii) the additional quantities specified in paragraph g) v) above shall be traded only after the Standing Committee has agreed that the above conditions have been met; and
- f) no further proposals to allow trade in elephant ivory from populations already in Appendix II shall be submitted to the Conference of the Parties for the period from CoP14 and ending nine years from the date of the single sale of ivory that is to take place in accordance with provisions in paragraphs g) i), g) ii), g) iii), g) vi) and g) vii). In addition such further proposals shall be dealt with in accordance with Decisions 16.55 and 14.78 (Rev. CoP16).

On a proposal from the Secretariat, the Standing Committee can decide to cause this trade to cease partially or completely in the event of non-compliance by exporting or importing countries, or in the case of proven detrimental impacts of the trade on other elephant populations.

All other specimens shall be deemed to be specimens of species included in Appendix I and the trade in them shall be regulated accordingly.

IATA Live Animals Regulations 46th Edition (English)

Effective 1 January 2020 – 31 December 2020

Addendum I

Posted February 11, 2020

11.5.1.2 Description of changes in regard to FLORA

a) The following taxa are included in Appendix II of the Convention:

FLORA

Cupressaceae *Widdringtonia whytei*

Leguminosae *Pterocarpus tinctorius* with annotation #6

Meliaceae *Cedrela* spp. (populations of the Neotropics) (entry into effect delayed by 12 months,

i.e. until 28 August 2020)

b) The following decisions were taken with regard to annotations:

FLORA

Leguminosae *Dalbergia* spp.

Guibourtia demeusei

Guibourtia pellegriniana

Guibourtia tessmannii

Annotation #15 for the taxa above was amended as follows:

All parts and derivatives are included, except:

a) Leaves, flowers, pollen, fruits, and seeds;

b) Finished products to a maximum weight of wood of the listed species of up to 10 kg per shipment;

c) Finished musical instruments, finished musical instrument parts and finished musical instrument accessories;

d) Parts and derivatives of *Dalbergia cochinchinensis*, which are covered by Annotation # 4;

e) Parts and derivatives of *Dalbergia* spp. originating and exported from Mexico, which are covered by Annotation # 6.

Pericopsis elata

Annotation #17 (to replace annotation #5) was added to the species as follows:

Logs, sawn wood, veneer sheets, plywood and transformed wood.

Liliaceae

Aloe ferox

Annotation #4 for the species was amended as follows:

IATA Live Animals Regulations 46th Edition (English)

Effective 1 January 2020 – 31 December 2020

Addendum I

Posted February 11, 2020

All parts and derivatives, except:

- a) seeds (including seedpods of Orchidaceae), spores and pollen (including pollinia). The exemption does not apply to seeds from Cactaceae spp. exported from Mexico, and to seeds from *Beccariophoenix madagascariensis* and *Dypsis decaryi* exported from Madagascar;
- b) seedling or tissue cultures obtained in vitro, in solid or liquid media, transported in sterile containers;
- c) cut flowers of artificially propagated plants;
- d) fruits, and parts and derivatives thereof, of naturalized or artificially propagated plants of the genus *Vanilla* (Orchidaceae) and of the family Cactaceae;
- e) stems, flowers, and parts and derivatives thereof, of naturalized or artificially propagated plants of the genera *Opuntia* subgenus *Opuntia* and *Selenicereus* (Cactaceae); and
- f) finished products of *Aloe ferox* and *Euphorbia antisiphilitica* packaged and ready for retail trade.

Malvaceae

Adansonia grandidieri

Annotation #16 for the species was amended as follows:

Seeds, fruits and oils.

 Effective 1 January 2020 – 31 December 2020

Addendum I

Posted February 11, 2020

(d)	The following decisions were taken with regard to annotations	
-	FLORA	
-	THYMELAEACEAE	-
-	Aquilariaceae	<i>Aquilaria spp. and Gyrinops spp.</i>
-	-	Amendment of existing annotation # 4 related to the above taxa to read as follows:
-	-	<i>All parts and derivatives, except:</i>
-	-	<i>(a) seeds and pollen;</i>
-	-	<i>(b) seedling or tissue cultures obtained in vitro, in solid or liquid media, transported in sterile containers;</i>
-	-	<i>(c) fruits;</i>
-	-	<i>(d) leaves;</i>
-	-	<i>(e) exhausted agarwood powder, including compressed powder in all shapes;</i>
-	-	<i>(f) finished products packaged and ready for retail trade, this exemption does not apply to wood chips, beads, prayer beads and carvings.</i>
-	-	-
-	ZYGOPHYLLACEAE	<i>Bulnesia sarmientoi</i>
-	-	Amendment of the existing annotation # 11 related to the above taxon to read as follows:
-	-	<i>Logs, sawn wood, veneer sheets, plywood, powder and extracts. Finished products containing such extracts as ingredients, including fragrances, are not considered to be covered by this annotation.</i>
