Table of Contents

1.	<i>Period of Reference</i>	4
2.	<i>Dates of releases</i>	4
3.	<i>Issues Fixed and Released in Production for Period of Reference</i>	5

1. Period of Reference

The incident fixes deployed on SIS production environment detailed in this Release Note document were performed on December 15th, 2017

2. Dates of releases

The Maintenance Release covered in this document was deployed on December 15th, 2017

Issues Fixed and Released in Production for Period of Reference

Deployed in Release Number	SalesForce Issue Number	SalesForce Priority	Revised Issue Summary	Release Note Communication
1.11.2	8529508	Minor	Issue with PAX Rejection error correction	<p>Area: ISWEB</p> <p>Issue: There is an issue if any linking error exists for passenger rejection invoice created against NON EMD coupon. User is not able to correct the linking error from validation correction screen even if user has provided correct values</p> <p>Corrective Action: Code change has been done to fix this issue and allow user to correct linking error for NON EMD rejections from validation correction screen.</p>
1.11.2	8386737	Minor	Does not permit to provide a Legal Name change update for any ACH member	<p>Area: ISWEB</p> <p>Issue: The issue is identified in ICH Profile Update XML generated for ACH ONLY Members. When a 'Legal Name' is modified for ACH only Members, nodes related to the future value of a Legal Name and change effective period are not included in ICH Profile Update XML.</p> <p>However, we have checked that the emails related to change in Member Profile are correctly sent to ICH, user modifying Member Profile and Member contact assigned to contact type 'Own Profile Changes'.</p> <p>Corrective Action: The code has been fixed to correctly generate the ICH Profile Update XML. With this fix, ICH Profile Update XML generated for ACH ONLY Members will correctly include nodes related to future value of Legal Name and Change effective period.</p>

Deployed in Release Number	SalesForce Issue Number	SalesForce Priority	Revised Issue Summary	Release Note Communication
1.11.2	8421298	Minor	Summary report,	<p>Area: ISWEB</p> <p>Issue:</p> <p>There is an issue with Passenger Payables/Receivables RMBMCM Summary report, its showing incorrect value in column 'Number of Linked Coupons'</p> <p>Corrective Action:</p> <p>The code changes have been done to fix this issue. The report column 'Number of Linked Coupons' will now correctly show the actual number of Linked coupons for the corresponding memos.</p>

Deployed in Release Number	SalesForce Issue Number	SalesForce Priority	Revised Issue Summary	Release Note Communication
1.11.2	8459930	Major	Output monitoring - Discrepancy	<p>Area: ISWEB</p> <p>Issue: In Billing Month Nov-2017 P2, SIS member received 2 Form Cs.</p> <p>The one from member 1 pertaining to Provisional Billing Month Sep-17 and the other from member 2 pertaining to Provisional Billing Month Aug-17. During OAR generation, the system generated 2 Payable OAR files for member 1, as these 2 Form Cs pertained to 2 different provisional billing months.</p> <p>For both the OAR files the file name was generated as OAR-FORMC-P-meber1-20171123.zip. Due to the same file name, the first file was overwritten by the one generated later on.</p> <p>The file name of Form C OAR is missing the 'Provisional Billing Month'. The two separate Form C OAR files should have been generated having provisional Billing Month in file names as follows: OAR-FORMC-P-member1-201708-20171123.zip OAR-FORMC-P-member1-201709-20171123.zip</p> <p>After investigation, we identified that this issue was due to the changes done in code for CMP#622 deployed as part of Release 1.7.0.0 in May-P1-2015. As per our investigation, till Apr-P3-2015, the FORM_C filename was having provisional billing month in it, however from Apr-P4 onwards the provisional billing month disappeared from the Form-C OAR file name.</p> <p>Corrective Action:</p> <p>We have modified the code to fix this issue. After the code changes OAR Form C files will have the "Provisional Billing Month" within the file name so as to make it unique</p>

Deployed in Release Number	SalesForce Issue Number	SalesForce Priority	Revised Issue Summary	Release Note Communication
1.11.2	8493389	Minor	Issue with ICH Member profile XML for Sponsor updates	<p>Area: ISWEB</p> <p>Issue:</p> <p>We have received error response from ICH when ICH Member profile update was triggered for member on our local QA environment.</p> <p>After investigation we found that member is a sponsored member and it is having ICH Membership status as 'Terminated'.</p> <p>As advised by IATA:</p> <ul style="list-style-type: none"> •If a sponsored Member has ICH Membership Status as 'Terminated', it should not be included in ICH Member Profile update as a Sponsored Member. •Similarly, if aggregated Member has ICH Membership Status as 'Terminated', it should not be included in ICH Member Profile update as an aggregated Member. <p>Corrective Action:</p> <p>The above requirement is not defined in any FRS documents. However, as per request from IATA we have modified the code to exclude Sponsored and Aggregated members having status 'Terminated' while building the ICH profile update XML.</p> <p>The same fix will also apply for Sponsored/Aggregator member having ICH membership status as 'Not A member'.</p>
