SIS Webinar Series - Previous and Upcoming Webinars

As communicated via [SIS Bulletin Issue 7/2020](#) the SIS Operations Team together with the SIS Steering Group has embarked last year on an initiative to deliver a series of webinars that are intended to reduce the gap of problematic SIS knowledge-areas and improve awareness on SIS functionalities and enhancements.

The fourth webinar of 2020 **SIS Contact and User Management** was held on **November 25th, 2020**; if you were not able to join the live session you can find the recording [here](#).

The series of webinars will continue with – **SIS Output Files & Reports** – which **will be held on January 27th, 2021**.

Subsequent webinars focusing on other SIS modules and functionality will follow in the coming months, stay tuned for the invitation!

SIS Webinars New Page

The previously recorded SIS Webinars as part of the SIS Webinar Series have been moved to its own dedicated page/tab on the [SIS website](#) titled "**Webinars**".

All future webinars as part of the **SIS Webinar Series** will be published on this page going forward. We encourage all participants to view the previously recorded webinars for insights and tips on making the best use of SIS!

SIS Browsers - Important Notice on Internet Explorer 11

As communicated by Microsoft earlier this year, Internet Explorer 11 will no longer be supported across its Microsoft 365 apps and services as of August 17th, 2021; while this does not mean that IE Explorer will no longer be available after this date, we want to make sure that the SIS platform and its integrated access to ICH are not exposed to any security threats and will therefore restrict all Internet Explorer access as of **August 17th 2021**.

We count on your cooperation to liaise with your IT department to upgrade your browser at the earliest to the most recent browser version either from Chrome, Firefox,

Safari or Microsoft Edge in order for you to continue using IS-WEB as well as maintaining the SIS platform safe. All impacted users will also be contacted individually starting January 2021.

Sincerely,
IATA Simplified Invoicing & Settlement (SIS) Team
