➤ **Reminder: Switching reference validations from 'Warnings' to 'Error'**

Reference Data Validation: In May 2013 SIS introduced a warning in file loading reports if incorrect reference data information (Member addresses, VAT/Tax numbers etc.) was provided in billing files. Effective Dec 2014 P1, this will now be flagged as an error by SIS and will require the billing member to correct and resubmit their data. Please see the [CMP 496](#) document for information on reference data validations in SIS.
