

## SIMPLIFIED INTERLINE SETTLEMENT BULLETIN

June 9th, 2014

Issue – 07/2014

### ➤ **Removal of Miscellaneous Charge Category**

Please be advised that as of [Release 1.5](#) (CMP 609), the Charge Category Miscellaneous has been removed and is no longer valid for Miscellaneous billings. A new Charge Category named Finance has now been added. We would also like to remind you that it is important to use the appropriate Charge Category and Charge Code when sending Miscellaneous invoices.

### ➤ **Updating of Contacts**

This is a reminder to keep your SIS contacts up to date. SIS contacts should be regularly maintained in IS-WEB as the contacts chapter in the Revenue Accounting Manual no longer exists. Contacts can be added or modified under the Contacts tab under the Manage Member Profile Section in IS-WEB. It is also a good opportunity to ensure contact assignments are up to date so that alerts are delivered to the correct contact in your organization.

### ➤ **CMP 597: Weekly Reference and Contact Data Updates**

A new functionality for Reference Data and Contact Updates is now available. As per CMP 597 deployed in Release 1.5, members now have the option to receive weekly Reference Data and Contact Updates. Members are encouraged to select the files they wish to receive under the E-Billing Tab in their Member Profile. For more information please refer to the [1.5 Release Notes](#).

### ➤ **Updated Error Code List**

The new [Error Code List](#) is now available on the SIS Website.
