Towards a more Resilient and Sustainable African Aviation

Wednesday, 3 July

Plenary

Africa's Aviation Infrastructure & Economic Regulations

This session will discuss the status of Africa's aviation infrastructure and economic regulations. It will share best practices, successful examples, and produce recommendations for development and enhancement.

Collaborative Aviation Safety Improvement Program (CASIP)

This session will look at four connected areas of Safety, Operations, Air Traffic Management, and Skilled Staff, each of which are collectively required to deliver enhancements to achieve a safe, efficient, resilient, and sustainable African Sky.

Roadmap to Sustainable Aviation Fuel (SAF)

A discussion of the sustainability challenges and opportunities facing the aviation industry and addressing the endeavor to produce Sustainable Aviation Fuel (SAF) in Africa.

Air Cargo – Unlocking Africa's Trade Potential

Africa currently represents nearly 2% of the global Air Cargo market, however with the increase forecasted in the next two decades Africa is poised to be at the forefront of trade and commerce. This session will discuss how is the African continent preparing for managing growth through digitalization, simplified borders, focusing on key segments such as perishables, live animals, and pharmaceuticals. It will also examine key topics influencing Cargo Operations, Safety and Security.

Aviation Security

A panel of AVSEC experts and leaders will discuss the current security risks and opportunities facing the aviation industry. Zooming-in Africa's aviation the panel will conclude with recommendations to enhance African Aviation Security.

Closing Remarks
