

# **Bookshelf® User Guide**

# IATA's Digital publications

are designed to run exclusively on the Bookshelf platform. The Bookshelf ecosystem is comprised of the Bookshelf family of eReader applications, and a backend named eVantage.

The Bookshelf applications are available online, on Android and iOS mobile devices as well as for Windows and MacOS desktops.

#### This document will guide you through the steps to:

- Creating a Bookshelf account online.
- Accessing a title in Bookshelf.
- Use the Bookshelf application.

### **Creating a Bookshelf Account Online**

To access a title, you will need to create a Bookshelf account using the following steps:

> Open any web browser and visit: https://digitalpublications.iata.org/

Click on "Create an account".

Complete a

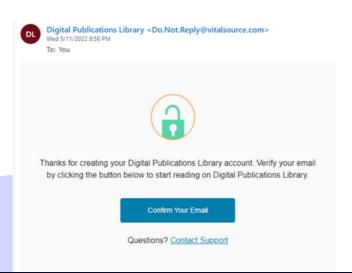

Complete all fields in the registration form.

|                     | count                |  |
|---------------------|----------------------|--|
| Already have an Acc | ount? <u>Sign In</u> |  |
| First Name          | Last Name            |  |
| Email               |                      |  |
| mail                |                      |  |
|                     |                      |  |

Read and agree to the Terms of Use, Privacy Policy and Cookie Policy and confirm your account by selecting Create.

An email will be sent to you to validate your account. Simply click the **"Confirm your email"** link.

# **Accessing a Title in Bookshelf**

To access your purchased title, you will need to redeem the code provided to you in the purchase confirmation email you received. The code:

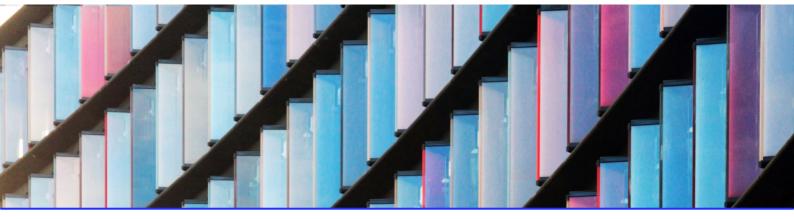

Is alphanumeric and 20 characters long.

 $\checkmark$ 

Can only be redeemed when you are logged into your Bookshelf account.

Can only be redeemed once.

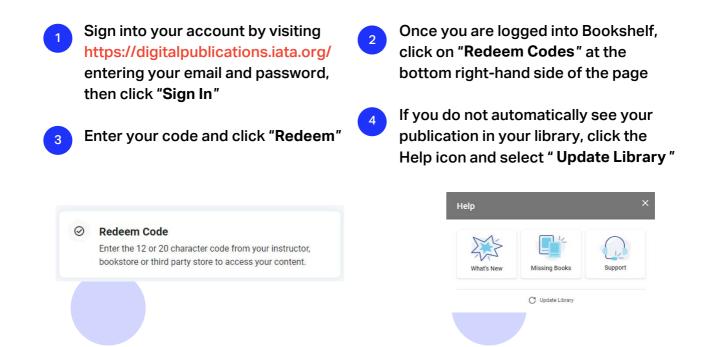

Upon code redemption, the title will be accessible in your library.

# **Redeeming Your Code**

Redeem your code using the following steps:

# How to Navigate Bookshelf

Within the library tab below the publication title, you may see the following three icons:

#### **View Details Icon**

Click on the View Details icon

A pane will appear to the right of the page displaying details about the title:

|   | Edition 1<br>ATA<br>Open Book |                     |
|---|-------------------------------|---------------------|
| Detail                                  | s                             | Resources           |
| Format:<br>epub<br>VBID:<br>IDP-4006-01 |                               |                     |
| Copy URL                                |                               |                     |
| https://digita<br>4006-01               | alpublications.               | iata.org/books/IDP- |
|   | Сору                          |                     |
| Citation                                |                               |                     |
| ~ MLA                                   |                               |                     |

### Search Icon

Click on the Search icon to find something specific within the publication or to navigate to a specific section. A pane will appear to the right of the page. Enter any key word(s) in the free text field and press the Enter key on your keyboard.

### 0)

#### **Resources Icon**

If your title includes resources, you will see a Resources icon below the publication title. Resources are only accessible when using Bookshelf online. All resources are downloadable, printable, and fillable. Files formats include PDF, Word, XML, CSV, Excel, fillable PDFs, PowerPoint, etc.

#### Here are the steps to access your resources:

1. Click on the Resources icon below the publication title or hover over the title in the "My Books" swim lane and click on the Resources icon

2. A panel will appear to the right of the page with all the resources allocated to the title. You can then download any file to your computer by clicking anywhere in the resource tile.

| ïtle | Туре | Size      |                |

# **Toolbox Files**

The purchased title may also include toolbox files. The **"Toolbox"** is directly integrated in the publication following the title name in the Table of Contents. Click on **"Toolbox"** and all the toolbox files associated to the title will appear to the right. Then click on any file name and the file will either be downloaded to your computer or open in a new browser tab.

# **Navigating your Publications**

By clicking on the three lines at the top left-hand corner of the Table of Contents panel, you can display or hide the Table of Contents.

All publications include a Table of Contents panel on the left-hand side to assist with navigation. Use the Table of Contents panel to select a location in the book where you want to begin reading.

Navigation to specific pages or simply skipping to the next page is made easy through the "Go to Page" free text field and navigation arrows at the bottom of the page.

# **Reader Preferences**

Important Note: IATA recommends to keep reader preferences to Publisher format for all titles.

Bookshelf provides several capabilities to view the title based on your preferences. Click the Reader Preferences icon to access your preferences.

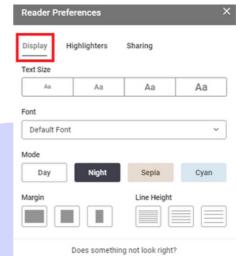

#### The Reader Preferences window includes three tabs:

#### Display

The Display tab allows you to change the text size, font, display mode, content margin and line height.

*The reset Publisher format option is found at the bottom of the Reader Preferences window.* 

Reset to publisher format

#### Highlighters

The Highlighters tab allows you to manage your highlighter preferences.

| Reader Preferences                             | ×          |
|--|------------|
| Display Highlighters Sharing<br>Fast Highlight | $\bigcirc$ |
| My Highlighters                                | 0          |
| Important                                      |            |
| Needs Clarification                            |            |
| Rad Red  |            |

To share highlights and notes you will need to make them public. Click on each desired color highlight then check the public box.

| Reader Pr    | eferences        |         | ×          |
|--------------|------------------|---------|------------|
| Display      | Highlighters     | Sharing |            |

## Highlights & Notes, Bookmarks and Flashcards

Clicking on the Highlights & Notes, Bookmarks and Flashcards icon will open up a "Workbook" panel on the right-hand side of your screen. This feature allows you to manage and customise your highlights & notes, bookmarks, and flashcards. Workbook can be managed on any platform and will be synced across all platforms when you have an active Internet connection.

#### Highlights

Highlights is similar to highlighting in a physical book. Your publication, however, allows you to add or remove your highlights and add your own notes. Any highlights or notes you create will be saved to your Bookshelf account and follow you across devices. To create a highlight or note, select a section of text with your cursor and select from the drop-down menu. You can also look the text up in Wikipedia, create flashcards or read aloud.

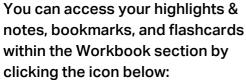

#### Chapter 1 —Introduction

Security is not only the responsibility of top-level management or the Head of Security. Security involves everyone and a positive security or and maintaining a secure environment. Positive reinforcement of correct security actions sends the message throughout the organization th security to be a priority.

The Security Management System (SeMS) is the element of corporate management responsibility that sets out a company's security policie security as an integral part of its overall business. It is important to keep in mind, however, that each entity must implement the system that situation-there is no "one-size-fits-all" system.

SeMS is a business-like approach to security. As with any business plan, goals are set and levels of authority are established. Ultimately, or organization and becomes part of its culture. rs, but not necessarily directly related to compliance with the National Civil Aviation Security Program ) (**1**1 MS is designed to be an all-encompassing security process that promotes corporate security awarene ance. It is not meant, however, to replace the NCASP. Add Note ess throughout the organization and verifying compliance through quality assurance, can be a signific impliance. Specific security practices, training and audit functions of a SeMS should be built to ensure Look up in Wikipedia Create Flashcard to be implemented by airlines through the IATA Operational Safety Audit, IOSA) is to serve as a guidel ures. A standardized structure, such as SeMS, provides better and more uniform security standards th Read Aloud from here effective and focused risk assessment should contribute to making security practices proactive, rathe traditional reactive and prescriptive procedures
