

IATA WEBINAR

WELCOME

**YOUR WEBINAR
WILL START
SHORTLY**

Thank you to our sponsor for this webinar

During the webinar

Your microphone will be muted during the webinar.

If you have questions, please use the Q&A panel. All questions are moderated by our legal team.

You also have a chat panel.

IATA WEBINAR

**SPECIAL SERIES:
RESHAPING THE
PASSENGER
EXPERIENCE**

Competition Law Guidelines

This webinar is being conducted in full compliance with antitrust and competition law.

- Any discussion regarding matters such as fares, charges, division or sharing of traffic, or revenues or concerning any other competitively sensitive topics outside the scope of the agenda is strictly prohibited.
- IATA will not answer questions pertaining to individual policies or commercial decisions and/or being subject to bilateral commercial discussions between airlines and their suppliers or customers.

Passenger and Security
Products

A quick
question for
our audience:

Contactless solutions are key to promoting a safe, secure, touchless and seamless passenger experience

More personal control

Biometrics

A vision for an end-to-end biometric passenger journey

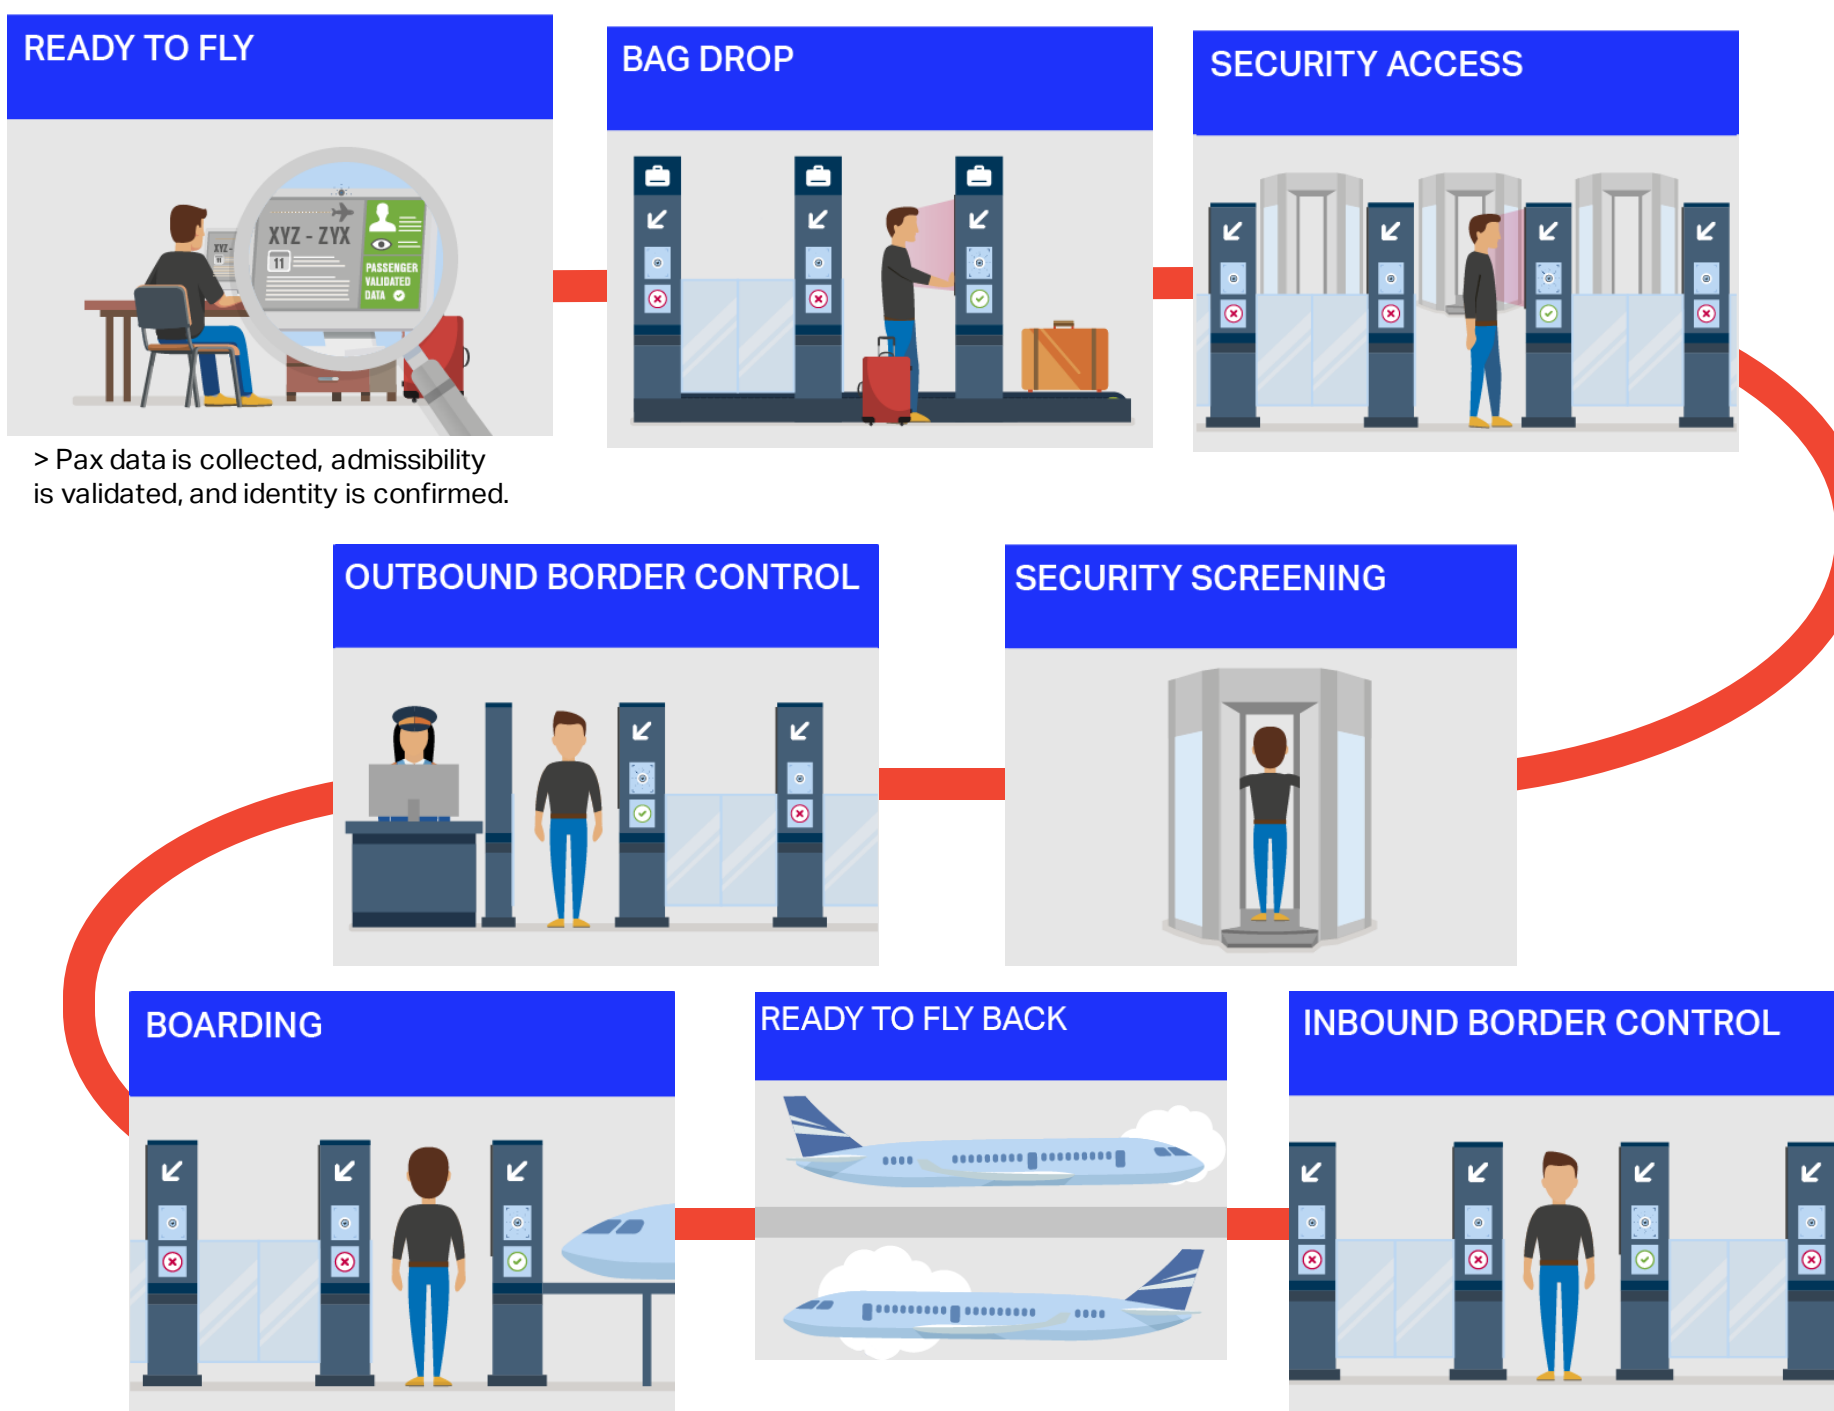

A collaborative
identity
management
solution

spanning across
all stakeholders

using
biometric
recognition

Key elements of One ID

Privacy by Design

Trusted
Digital
Identity

Operational
Framework

Identity
Management
Platform

Biometric
Recognition

Solutions for such challenges

Trust & Collaboration
through greater
Public-Private
partnerships

Standards & recommended practices
for
harmonization

Interoperability
Initiatives must be
scalable and
interoperable with
other initiatives

GOAL!

BENEFITS

CONTACTLESS

- Contactless touchpoints enabled in airport terminal

EFFICIENCY

- Better resource allocation
- Provide better customer experience

SPACE OPTIMIZATION

- Free up airport terminal capex
- Invest in growth
- Meet future demand

SEAMLESS PROCESS

- Better passenger processing
- More attractiveness

SECURITY

- More robust advanced risk analysis
- Combat cross border crime incl. Human trafficking

CAPACITY

- More efficient passenger process
- Higher passenger throughput

One ID

One ID – Covid-19 Response

To address the aviation industry's changing demands, One ID is shifting its priorities to prioritise two key deliverables:

- ensuring flexibility in information exchange between passengers, airlines, and governments in the face of growing information requests; and
- delivering a touchless passenger processing at airport touchpoints to bring back passenger confidence in air travel to relaunch the aviation industry.

Bangalore International Airport Limited

(BIAL)

Operators of

Kempegowda International Airport, Bengaluru (#BLRAirport)

Covid-19 has been a rare situation due to its complexity

Information

- Lack of quality and contradictions

Highly Dynamic

- Faster than we can adapt

No End in sight

- No cure & No Vaccination

.....

We applied a 3-step approach to maneuver this complexity

ACCEPT

ADAPT

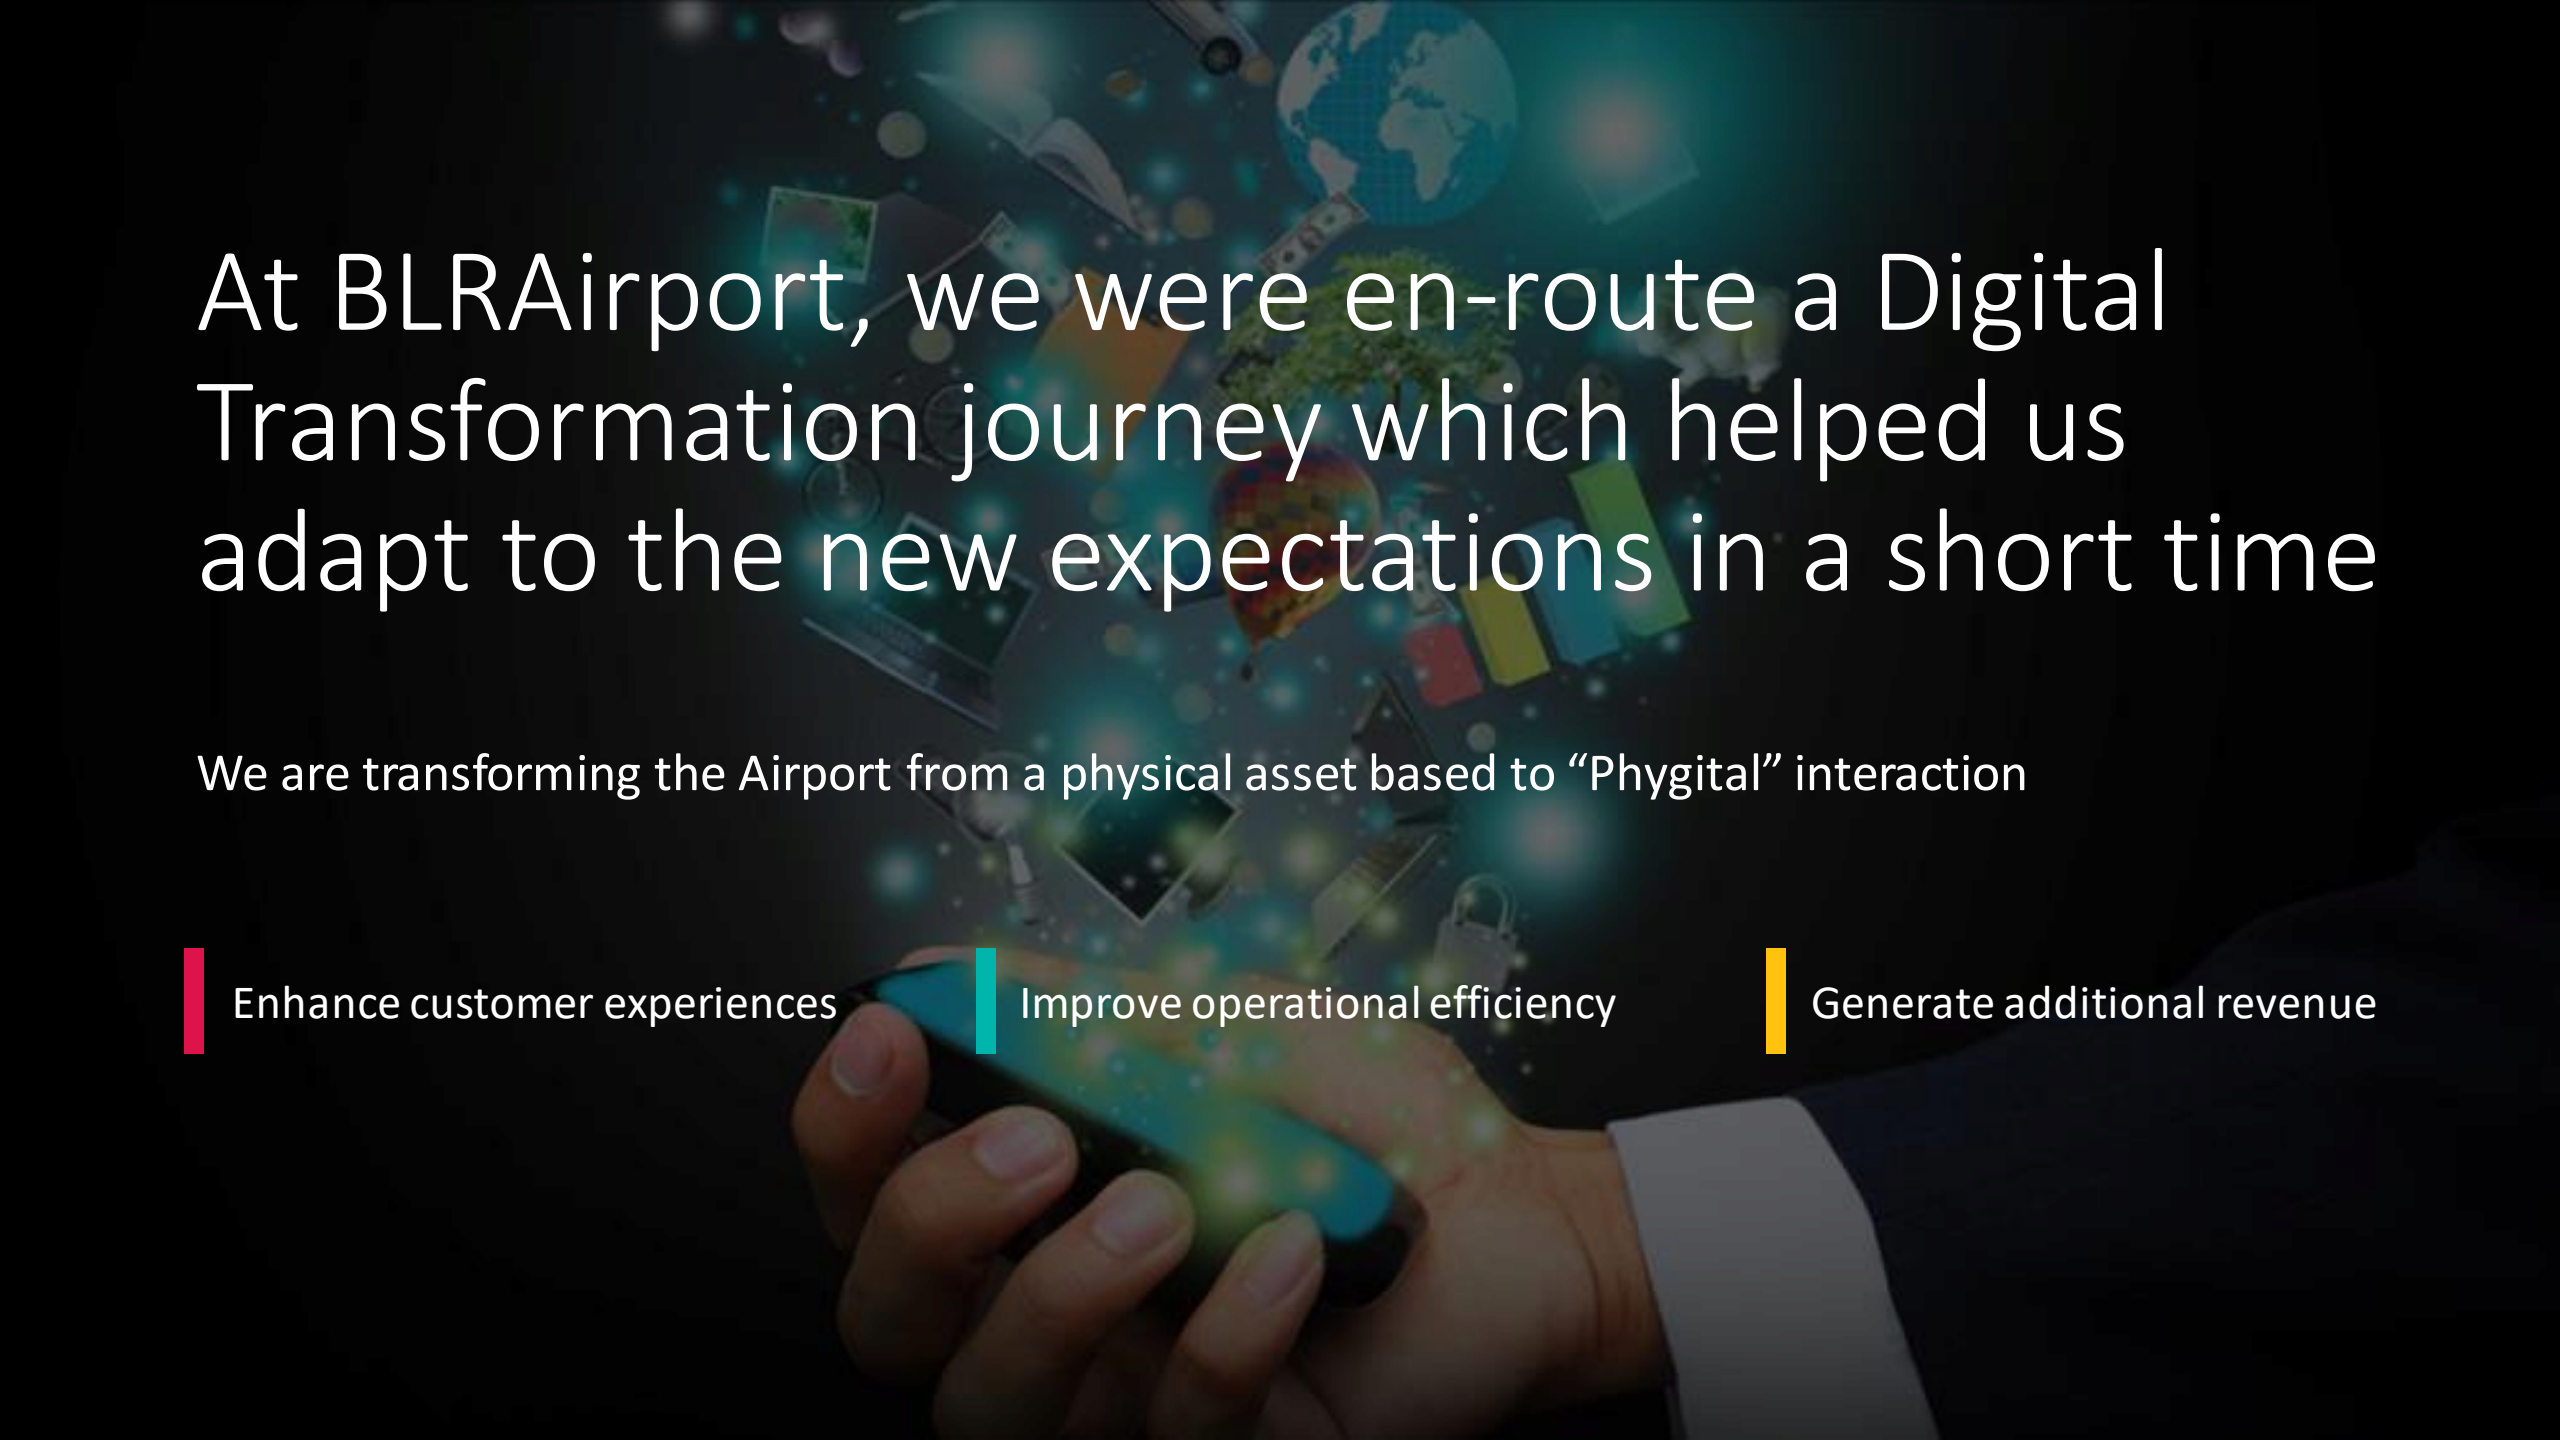

ADVANCE

In adapting to the new expectations, **Simplicity** and **Flexibility** have been the core principles driving our process related decisions including Digital Transformation

At BLRAirport, we were en-route a Digital Transformation journey which helped us adapt to the new expectations in a short time

We are transforming the Airport from a physical asset based to “Phygital” interaction

Enhance customer experiences

Improve operational efficiency

Generate additional revenue

Biometric based boarding process is a major program within this journey

- Integrates travel document and identity document with biometrics as a 'single token'
 - Seamless ticketless access across airport
 - Faster processing of baggage at Self Bag Drop counters as well as Smart Lanes
 - Enhanced security due to the use of real-time biometric validation of ID
 - Elevated to a nation wide program now
 - Digi Yatra Foundation (Central Authority) created
 - Privacy by Design: Authentication, not Identification
-

The current situation has caused Customer Experience to take a new form, centered around 'contactless' journey

- Focus on Self Service
- Touchless Passenger Flow
- New ways of buying and eating
- Focus on Wellness

At #BLRAirport, we were able to deliver this expectation by enabling every touch point at the Airport with contactless options

WEB CHECK IN

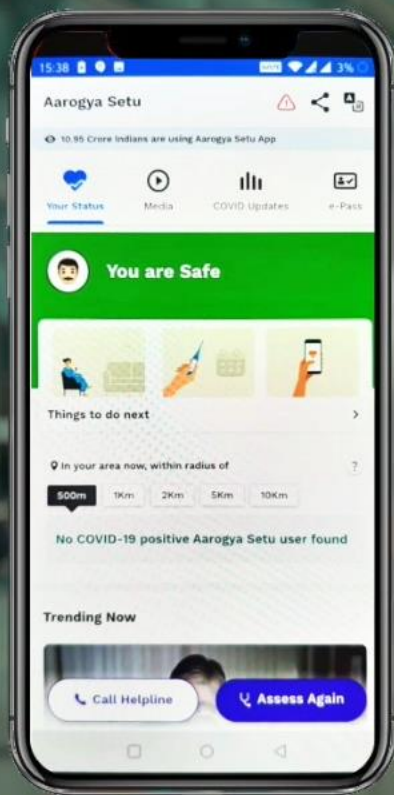

**BOARDING PASS
PRINTED ▶**

Web check-in enabled through App & Website
E-boarding pass received on handheld device / smart phone

Point Phone Camera

If boarding pass needs to be printed (exception management), one can do so on the curbside kiosk **without touching it** by taking control of the kiosk on the phone

AAROGYA SETU APP

THERMAL SCAN

Cameras to perform thermal scanning
Health / Risk status check through App

Boarding Pass

Scan

Mobile / Paper boarding pass scanned via device
ID validated to enter the Terminal

AIRPORT ENTRANCE

PASSENGER BOARDING PASS DETAILS

MR KARAN MEHRA
AIRASIA

00 MAY 2020 17:30:00
BANGALORE - CHENNAI

ACCEPT

REJECT

PAX VALIDATED WITH AIRLINE DCS.

Contactless authentication of boarding pass by Security to allow entry into Terminal

Point Phone Camera

Print bag tags by scanning mobile boarding pass on the kiosk. Kiosk can be controlled directly through the phone and hence ensures **contactless management of the kiosk**

Self bag drop

Scan Boarding Pass

Assisted bag drop without exchange of documents / boarding pass by **scanning boarding pass**

AND **WALK**
THROUGH
SECURITY ▶

Sanitized After **Every Use**

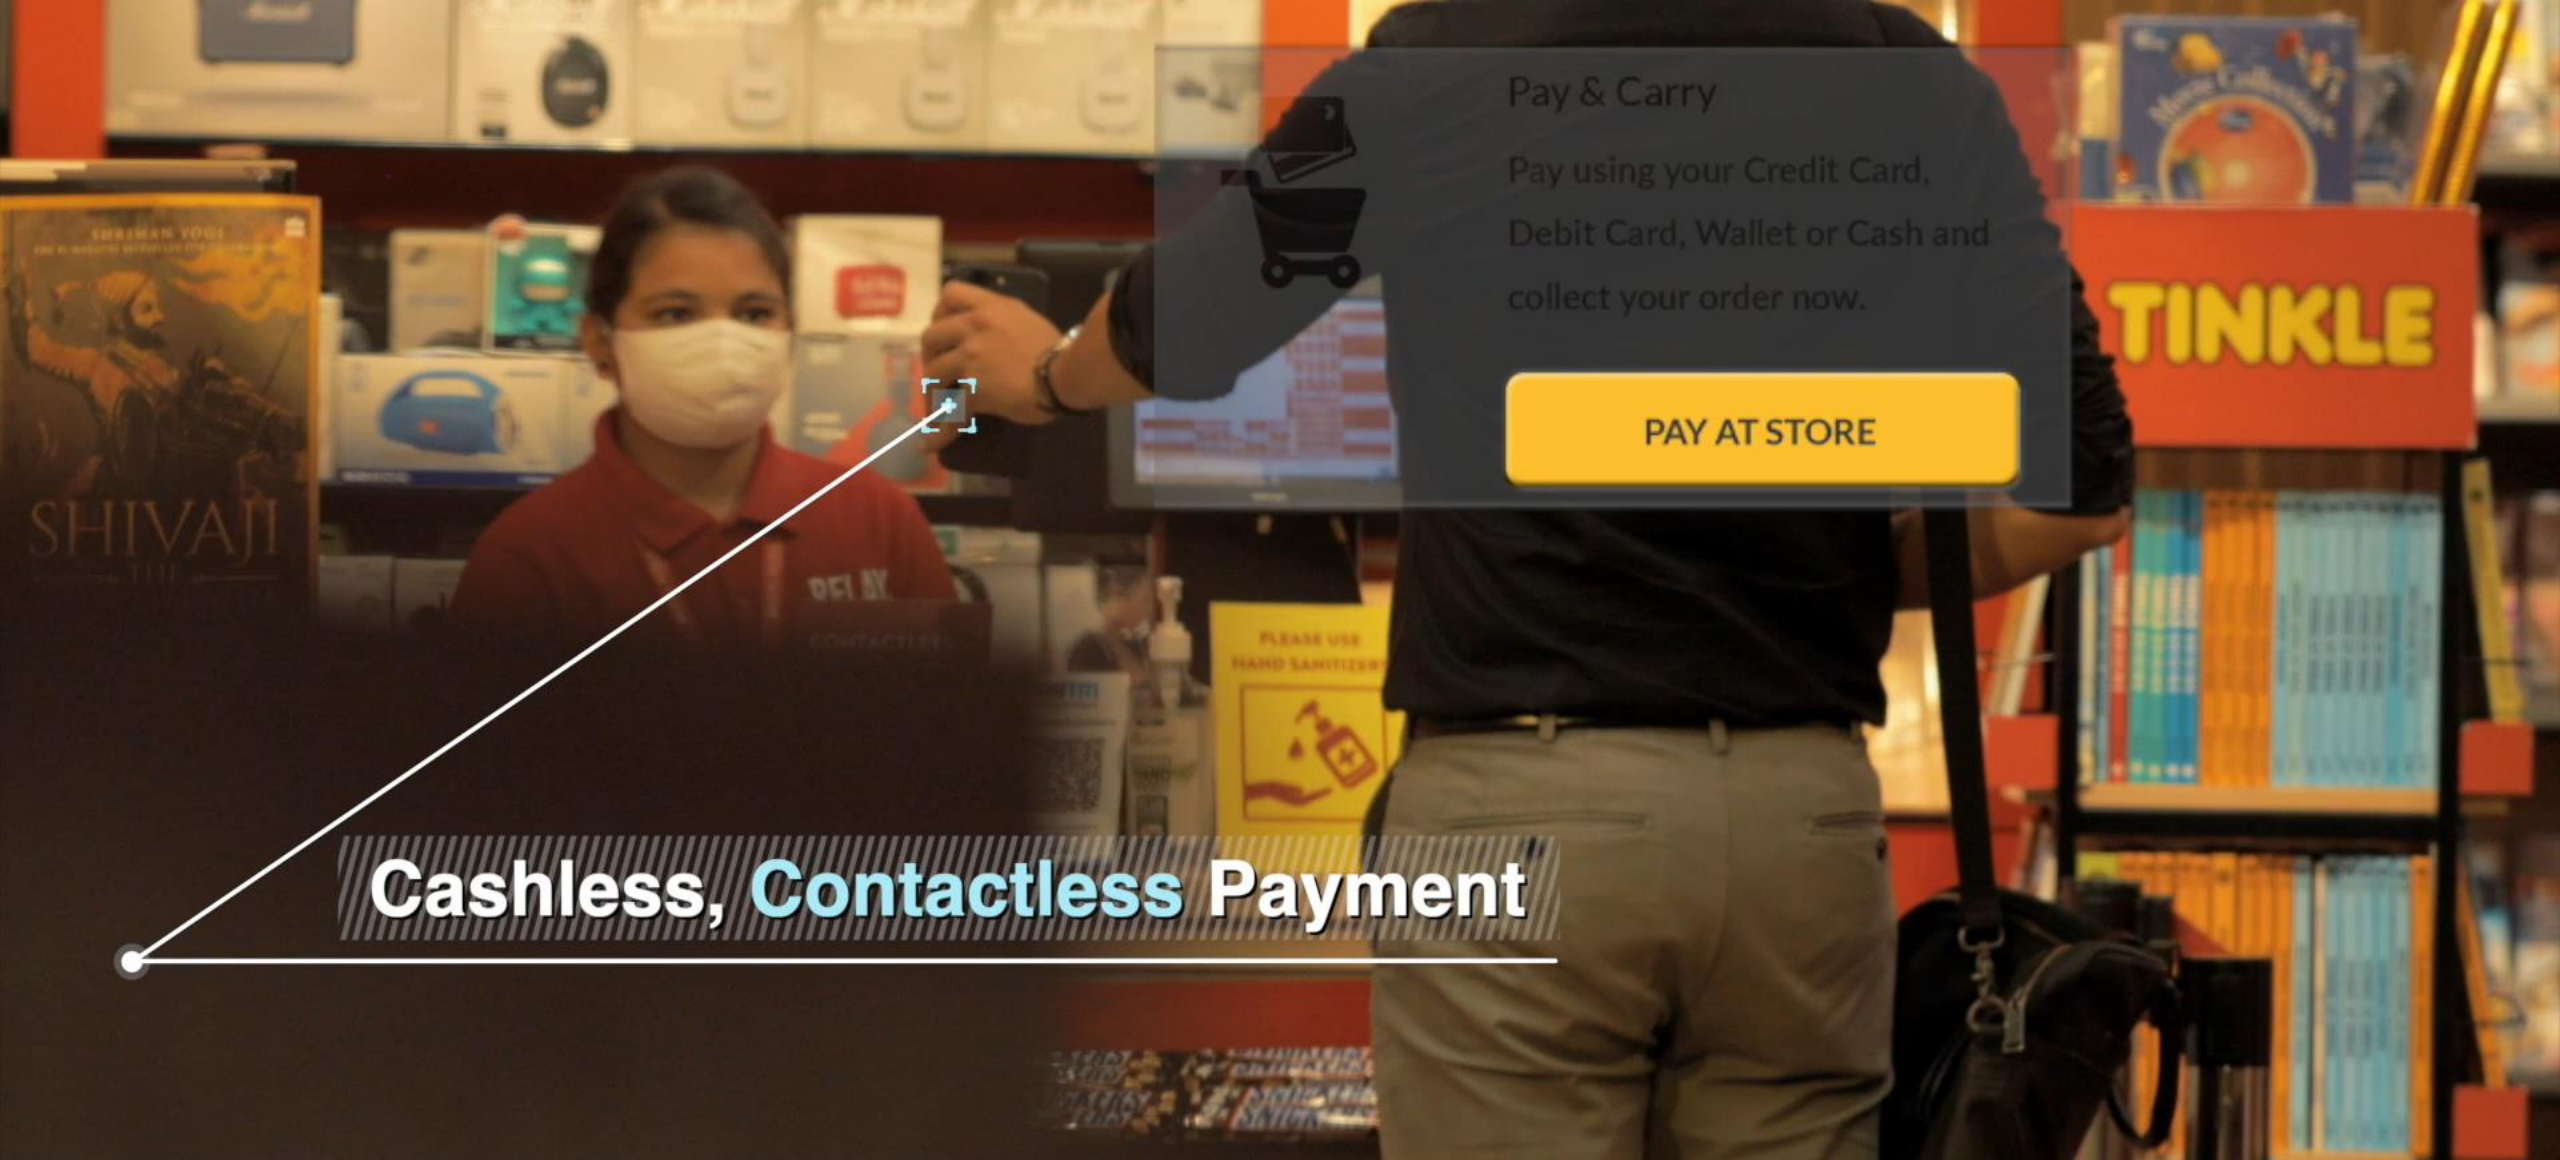

Walk through security

Avoid long queues at the airport and travel hassle-free with Web Check-In. Now you can check in any time up to 1 hour before the scheduled departure of your domestic flight. Certain seats may be charged.

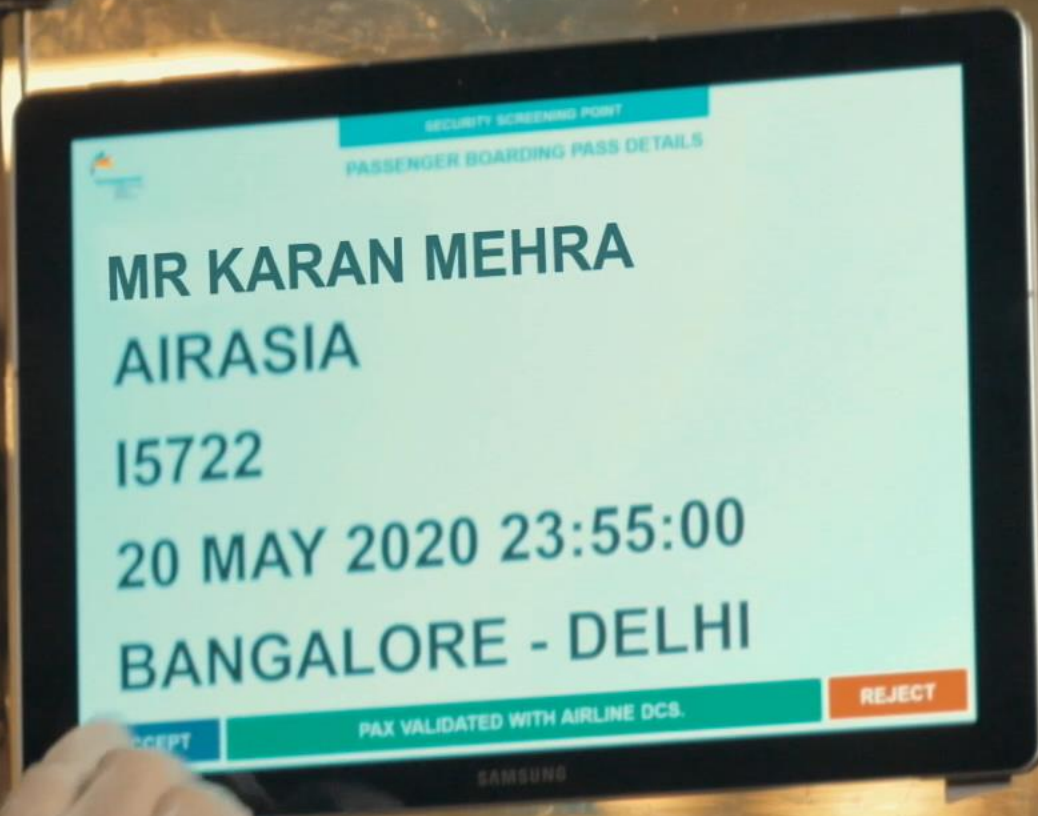

PAUSE TO INDULGE
IN
RETAIL THERAPY

Scan to know information on products.
Order on the App or by scanning a QR code to get products delivered to you anywhere in the Terminal

Cashless, Contactless Payment

Cashless and contactless payments

Scan boarding pass at boarding gate and proceed without exchange of documents

HASSLE-FREE

SEAMLESS

CONTACTLESS

BOARDING AT BLR AIRPORT

BLR Airport,
defining the
new normal in
passenger
journey through
the airport

BAGTAG

SMARTER. EASIER. FASTER.

The post COVID-19
passenger journey:
rethinking baggage
check-in

Introduction

This presentation gives aviation leaders **quick wins** to resume operations safely by implementing **Electronic Bag Tags**.

Building the new normal

1

**AVOID QUEUEING AND
CROWDING**

2

**AVOID HUMAN AND MACHINE
INTERACTION**

3

**INTRODUCE RAPID HEALTH
CHECKS**

Issues to get there

Bottlenecks

Booking >

Check-in & bag-tag at the airport

Bag drop >

Security >

Border control >

Boarding >

Take off

BAGTAG

SMARTER. EASIER. FASTER.

What is an electronic bag tag?

An EBT is the paper label made digital.

BAGTAG

SMARTER. EASIER. FASTER.

The passenger attaches the EBT to the luggage. At home or at the hotel.

How does it work?

Thai Airways Qatar Airways
China Southern Lufthansa
Cathay Pacific Airways KLM Singapore Airlines
Swiss Austrian
Qantas Emirates
EVA Air Hainan Airlines

With an electronic tag, you can check in anytime you like, anywhere you are.

To learn more about Electronic Bag Tags, click more info.

More info

Electronic baggage check-in

Enter your email address to receive notifications on the status of your bag.

E-mail

Proceed

User video

Proven technology

Austrian

- Servicing 6 major carriers
- Almost 300 airports

Benefits using EBTs

4x

more bags handled per
hour

0

physical
touch points

50-90%

reduced check-in staff

Creating options

**Cabin
luggage**

**Off-airport
baggage drop**

**Rapid health
checks**

**Resource
planning**

BAGTAG

SMARTER. EASIER. FASTER.

How do we take off?

At BAGTAG we believe in simplicity. Rolling out Electronic Bag Tags should not interfere with current operations and neither should airlines or airports have to reinvent the wheel.

Roll out in 3 focus areas

**Technical
implementation**

+

**Operational
readiness**

+

**Distribution and
marketing**

Up in the air in less than 4 weeks

»»»» Distribution and marketing

»»»» Technical implementation

»»»» Operational readiness

Start

Week 1

Week 2

Week 3

Week 4

The result: A seamless passenger journey

Solution

Booking >

Check-in & bag-tag off airport

Bag drop >

Security >

Border control >

Boarding >

Take off

- ✓ Fewer queues, less crowding
- ✓ Enhanced pax experience
- ✓ No touchpoints
- ✓ Reduced costs

Thank you for you attention

Timatic

Interactive Coronavirus (Covid-19) Travel Regulations Map (powered by Timatic)

10 June 2020 09:00:06 CEST

As part of our ongoing effort to help with the re-start of the industry, the **IATA Travel Centre** now has an interactive map to inform the public of the travel restrictions and changes that are made by the governments

Timatic Alerts is an add-on product that has been launched that will pro-actively inform subscribers of any regulatory health restrictions changes.

This product is being provided at a heavily subsidized price to IATA members (free of charges to Timatic airline customers)
