

# IATA Risk and Insurance Managers Forum 2026; 4 - 5 March 2026 City of London, UK

## Airline Strategic Resilience Using Risk Management and Insurance – Knowledge is Power

### Topics include:

1. Supply Chain problems - Lack of spares/engines/aircraft/engineering expertise etc. has an adverse impact on airline operations, cost of repairs etc. Looking at building greater resilience via exploring data led risk solutions.
2. Considering a Captive or seeking to maximize an existing one – a panel of experts opine.
3. Risk Management and Assessment – looking at key airline risks including:
  - a. Business Cyber – includes the role of ART.
  - b. Whether to fly protocols.
4. An update on the RIM led IATA SGHA review.
5. Global Legal Panel – updates by the specialist lawyers on current legislation and litigation important globally for the airlines.
6. War/Nuclear exclusions, sanctions. An update by a technical panel including LIIBA, IUA etc.
7. AI/Robotics \*\*
8. A focus on handling major, minor and psychological injuries following an aircraft incident; Panel of experienced Emergency Response and Legal experts.
9. Market update \*\*

\*\* Work in progress
