Updates	Yes	Yes	
Special features ⁴	No	Yes ⁵	
License type	Single user	Single user	Floating / Shared

¹ In online mode, one at a time. In offline mode, on up to 2 of the single user's own devices.

² The end user application may be installed on any number of Windows computers. The number of computers the application can run on at the same time is restricted to the number of floating licenses.

³ A floating license setup requires actions by an organization's IT group.

⁴ For example: Dynamic content grid (DGR, LAR, PCR), Supporting Documents/Toolbox section (AHM, ADRM), instructional animations (IGOM, LBSG)

⁵ Depending on the publication. See individual product descriptions for details.
