- Independent verification and audit companies
- Green Finance & Investment Companies
- Environment and clean energy consulting companies
- Sustainable inflight product suppliers
- Travel agents
- Fuel, electricity and hydrogen suppliers
- SAF feedstock traders and suppliers

Benefits

- Annual SP workshop with IATA experts
- Insights and resources, including access to the IATA Environment Knowledge Center
- Access to IATA Subject Matter Experts in Environment & Sustainability

Our Vision

The Environment & Sustainability Division prepares and guides IATA members on their journey to net-zero carbon emissions and sustainable aviation.

It provides expertise, products, and services that facilitate the energy transition of aviation and help reduce airlines' environmental footprint.

The Division also works to create a conducive environment for change and ensure the support of key stakeholders such as policymakers, investors, and other businesses.

Areas of activity

Airlines' action on climate change

Technology, operations & infrastructure, market-based measures and carbon markets, voluntary carbon offsetting, emissions reporting, fuel efficiency benchmarking and analytics, CORSIA compliance.

Broader airlines' sustainability portfolio

Environment management systems, cabin waste management, single-use plastic, sustainable finance, ESG reporting, sustainable supply chain and wildlife trafficking.

Environment engagement & collaboration

Perception trends, advocacy positions and industry communication aiming at improving the level of knowledge about aviation environmental action.
