

Fuel Technical Group

Designed for

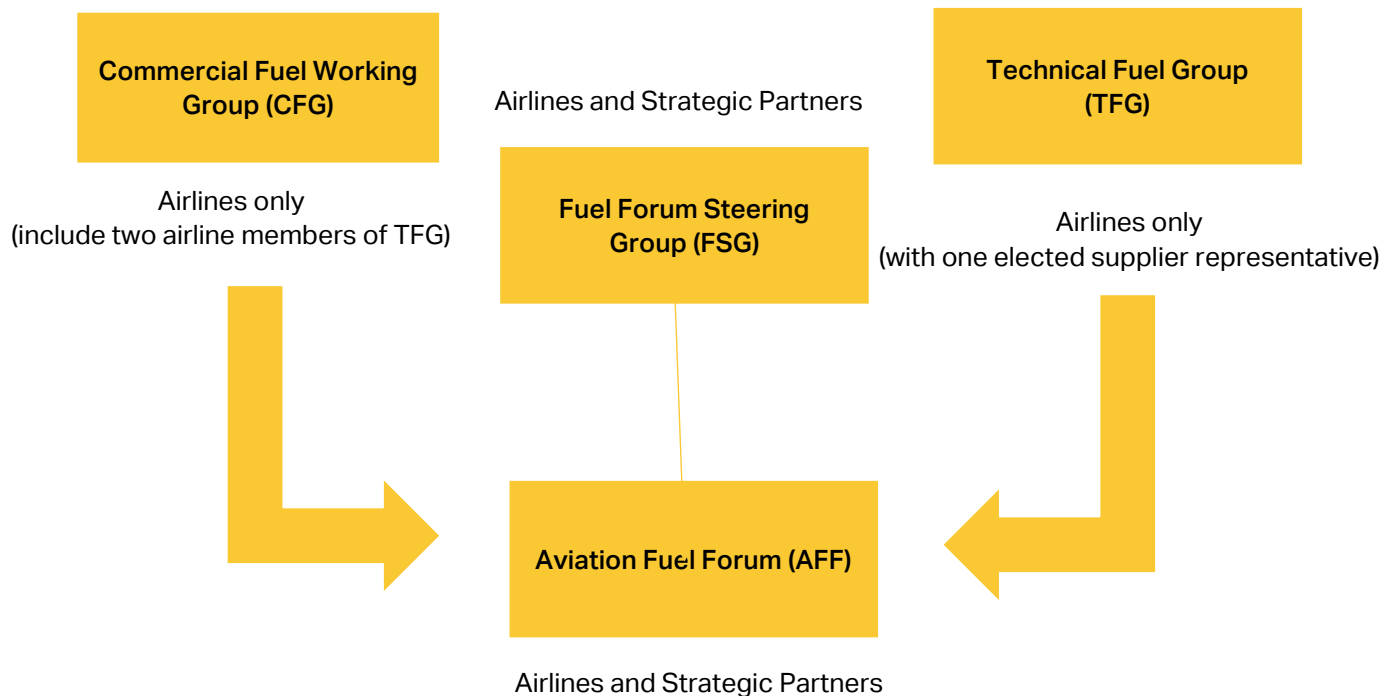

- Aviation fuels and lubricants suppliers

Areas of Activity

- Regular Contact with Airline Fuel Buyers and Technical Experts World-wide
- Information Exchange on Jet Fuel Issues
- Aviation Fuel Developments and Activities in countries and locations around the globe

- Aviation Fuel Quality Standards, Audits and Inspections
- Jet Fuel Specifications
- Fuel Supply Chain and Facilities Development
- Refueling procedures
- Apron safety
- Alternative Fuel
- Fuel System Maintenance

Fuel Structure

Meetings & Working Groups

Technical Fuel Group (TFG)

CONTACT

Ms. Rommy Ulloa
Senior Manager, Operations Projects
ulloar@iata.org

The Technical Fuel Group (TFG) is the global forum for those involved in the technical aspects of the supply and use of aviation fuel. It reviews current industry issues, promotes standardization, issues technical publications and recommends action. The TFG meets twice a year during the Aviation Fuel Forums. IATA Strategic Partners bring their expertise in various Fuel Technical meetings and can contribute to following key areas:

- Work with industry suppliers and service providers to ensure 'on specifications' fuel is supplied at all airports.
- Investigate all fuel related incidents and accidents and make recommendations to enhance the safety of the fueling operation.
- Develop and publish international standards, procedures & guidelines for Jet fuel.
- Support all industry effort to achieve IATA fuel efficiency and emissions goals.

Aviation Fuel Forum (AFF)

CONTACT

Mr. Malvyn Tan
Head, Commercial Fuel
tanjcm@iata.org

The IATA Fuel Forum is the premier industry meeting for the world's aviation fuel community. The forums are conducted twice annually and are closely coordinated with both the IATA Partner suppliers and the IATA Member airlines. The Fuel Forums, in addition to providing the opportunity for airline fuel purchasing decision makers to discuss specific airline industry

related matters, also allows for joint meetings with the IATA Partner suppliers to address matters of common interest to the aviation fuel community as a whole and for networking and bilateral meetings between supplier and airline. The Aviation Fuel Forum co-locates both the CFG and TFG meetings to ensure good collaboration and co-ordination between commercial and technical fuel functions.

Additional Strategic Partnerships' Benefits

Branding

- Recognition as a valuable supporter of IATA and the air transport industry
- Inclusion in the IATA Strategic Partnerships online directory
- Exclusive usage of the IATA Strategic Partnerships logo
- Promotion through the electronic quarterly newsletter, the Partner Brief, viewed by thousands of aviation industry contacts
- Monthly posting of Strategic Partners' press releases on the IATA website

IATA Clearing House Discount

Strategic Partners receive a substantial discount upon joining the **IATA Clearing House**:

The IATA Clearing House (ICH) provides the means to settle all the billed items sent to and from airlines around the world. Used by more than 400 airlines either directly or via special links, the ICH settles around USD 50 billion of interline billings every year. Its efficiency is so great that airline cash and settlement requirements are reduced by around 75%, and risks for all participants are minimized.

Publications

Partners may purchase publications at a preferential rate.

Courses

Strategic Partners may attend, at a reduced fee, IATA training courses.

Strategic Partners may receive 55% discount on the first 2 seats per year to any IATA classroom course (subject to availability).
