#IATAAGM
Deal Engine
Leveraging AI and APIs to automate all manual processes in travel, creating new revenue streams and reducing costs.

EMMA Systems
Unique software solutions purpose-built to streamline and simplify customs clearance, forwarding, post-declaration archiving and compliance.

Fetcherr
A unique agnostic AI-driven market engine. The LMM (Large Market Model) precisely forecasts demand and market trends, enhancing performance and enabling real-time decision-making for business and revenue management.

Moonware
The digital ecosystem for automated and streamlined airfield operations. HALO, a platform powered by AI, delivers faster turnarounds, reduced block times, minimized delays, higher flight throughput, and maximized asset utility.

Sencity
Revolutionizing the way people connect with each other and with the places they visit. Sencity offers cutting-edge software and hardware products that are both interactive and intuitive, unlocking the full potential of public spaces to create better experiences for everyone.

Shabstec
A new era of baggage technology software and solutions: Bagnition Suite processes and tracks luggage from home to check-in to aircraft hold; Baggage Broker allows seamless exchange of baggage information between airlines / airports / vendors; Baggage Panorama gives baggage ops staff an overview of the entire baggage process end to end.

SkyBuys
An innovative tech channel partner for Duty Free & Travel Retail. Partner with SkyBuys to grow sales, access more meaningful and real-time customer and product data and enhance the passenger experience and journey.
