IATA publishes the Cargo Agent’s Handbook to communicate to the airfreight community Cargo Conference decisions governing industry procedures as well as information on relevant industry regulatory developments. The handbook thus provides the texts of the basic rules and regulations governing the trading relationship between IATA Cargo Agents and appointing Member Airlines. It also contains informative articles on topics of professional interest to Cargo Agents.

**Governance Structure**

The IATA Cargo Procedures Conferences consists of the Cargo Agency Conference (CAC) and the Cargo Services Conference (CSC). The governance structure of the IATA Cargo Procedures Conferences and their subgroups is illustrated in the following chart:

**CAC Structure and sub-groups**

The Cargo Agency Programme regulates Member airlines’ working relationships with their appointed sales agents. It provides agents with industry recognition of their financial and professional competence and give airlines a worldwide distribution network of approved agents to sell their products. The Cargo Agency Conference (CAC) works at strengthening industry capabilities, promoting industry reputation and enhancing commercial success for both airlines and agent participants.

**CARGO AGENCY CONFERENCE (CAC)** IATA’s Cargo Agency Programme facilitates Member airlines’ working relationships with their appointed sales agents and intermediaries. Affording benefits to both airlines and agents, the programme provides agents with industry recognition of their financial and professional competence and airlines with a worldwide distribution network of approved agents to distribute their product. The Cargo Agency Conference works at strengthening industry capabilities, promoting industry reputation and enhancing the commercial success for both airline, intermediary and agent participants.

**CARGO PROCEDURES CONFERENCES MANAGEMENT GROUP (CPCMG)** The CPCMG provides support and guidance in relation to the strategies determined by the Cargo Services Conference (CSC) and Cargo Agency Conference (CAC). It formulates cargo industry policies and monitors industry developments and priority issues and develops relevant industry solutions in response. The CPCMG also prioritises, assigns and monitors the activities of the various standing Conferences sub groups.
CASS CONSULTATIVE COUNCIL (CCC) is a local group to ensure full consultation between IATA and participating carriers with the national association(s) of cargo intermediaries (Forwarders and Agents), on the operation of the CASS-Export and CASS-Import. In particular, the CCC shall ensure that any enhancements or modifications to the CASS, which could affect the Intermediaries’ interests, are discussed in advance with the local cargo-intermediaries’ association whose members could be affected by the proposed changes.

CASS POLICY GROUP (CPG) The CASS Policy Group is responsible for providing policy direction and advice to IATA on CASS matters relating to its functional management and operation. The CPG provides a consultative forum for CASS between IATA and Member airlines. It formulates a global representation policy, develops a CASS country development plan, the CASS cost sharing formula and CASS pricing policy etc. The CPG consists of not more than 12 members appointed by the Cargo Committee (CC) based on written nominations submitted, for a period of two years. If a member misses two consecutive meetings of the CPG, his position on the Group is terminated.

IATA/FIATA CONSULTATIVE COUNCIL (IFCC) The IATA/FIATA Consultative Council (IFCC) was constituted to initiate, consider and make recommendations to the Cargo Agency Conference (CAC) and Cargo Services Conference (CSC) on issues affecting the Carrier/Agent relationship. The IFCC reviews all proposals, including those submitted by mail vote, made to the CAC to introduce new, or to amend existing, provisions of the Cargo Agency Rules. The IFCC’s actions are expressed as recommendations.

AIR CARGO PROGRAMME JOINT COUNCILS IATA has established Air Cargo Programmes in certain areas/countries. These Air Cargo Programmes are collaborative in nature with airlines and cargo agents (referred to as intermediaries). They are supported by Joint Councils. A Joint Council is responsible for developing, managing and marketing an Air Cargo Programme. It determines the objective criteria pertaining to financial standing, standards of staff competence, experience and knowledge of air cargo products, suitability of premises, suitability of cargo handling & processing equipment and products and services, for registration of intermediaries in the applicable area/country. The Joint Council has representation from both airlines and intermediaries as outlined in the relevant Resolution. The IATA Head of Cargo and FIATA-AFI Chairman serve on the Joint Council as non-voting Members.

IATA CARGO ADVISORY PANEL (ICAP) An IATA Cargo Advisory Panel makes recommendations to the Cargo Agency Conference for establishment of local criteria pertaining to financial standing, personnel qualification, premises and equipment for registration and retention of Agents in a country. It consists of not more than nine representatives of appropriate seniority from sales organization of Member airlines having presence in that country. These representatives, each with expertise in the areas of cargo handling, sales and financial control, are selected by the Agency Administrator from the nominations received.

SETTLEMENT AND REMITTANCE COMMITTEE The Settlement & Remittance committee was established in the past to decide payment terms and frequency of payments to be received from accredited cargo agents/intermediaries. However, in 2019 its mandate has been transferred to the Cargo Agency Conference.

GENERAL ASSEMBLY/EXECUTIVE COUNCIL A Cargo General Assembly or A Cargo Executive Council is established in certain areas. Their functions & responsibilities are outlined in the applicable Resolutions.
ECONOMIC WATCH PANEL RESOLUTION A permanent Economic Watch Panel is established in certain countries, which in consultation with the recognized national agents association, determines the economic and financial indicators and the degree of variation of these indicators which would require a reappraisal of the existing reporting/remitting frequencies and/or the remittance date applicable in the country concerned. An Economic Watch Panel consists of Member airlines’ financial and commercial experts including a representative of the national carrier(s) and meets as and when necessary.

LOCAL CUSTOMER ADVISORY GROUP–CARGO A Local Customer Advisory Group is established by the Cargo Agency Conference wherever a CASS is in operation. Each LCAGC provides advice to IATA CASS Management on customer service issues and in particular, on establishing and addressing local needs. The LCAGC may provide advice on matters concerning the local operation of CASS and on the establishment of local CASS business requirements and enhancements, especially where differences from worldwide policy and standards are sought. They may also guide the local CASS Manager on market place activities, development opportunities and other local/area needs.

Note: For more information on CAC and its subgroups, please contact IATA Service Center via the customer portal www.iata.org/cs

CSC Structure and Sub Groups

CSC is a permanent and autonomous body consisting of representatives from IATA Member Airlines. The CSC is responsible for the development and maintenance of standards and procedures for the cargo industry.

CARGO SERVICES CONFERENCE (CSC) The CSC establishes standards and takes action on matters relating to cargo services, including cargo handling, documentation, ULD technical specifications, EDI, dangerous goods regulations, live animals and perishable regulations. The Conference also presents the opportunity for discussion of new developments and agreements on how the airargo industry should change and grow in a multilateral environment. The CSC meets on an annual basis during IATA’s World Cargo Symposium event.
CARGO PROCEDURES CONFERENCES MANAGEMENT GROUP (CPCMG) The CPCMG provides support and guidance in relation to the strategies determined by the Cargo Services Conference (CSC) and Cargo Agency Conference (CAC). It formulates cargo industry policies and monitors industry developments and priority issues and develops relevant industry solutions in response. The CPCMG also prioritises, assigns and monitors the activities of the various standing Conferences sub groups.

AIRMMAIL PANEL (AMP) The AMP develops and maintains procedures related to all aspects of airmail handling. As the Basic Airmail Conveyance Rate (BACR) is established by the Universal Postal Union (UPU), liaison with the UPU on issues pertaining to the carriage of mail by air is a key component of the AMP agenda. Panel members also actively participating in the IATA-UPU Contact Committee, reviewing airmail automation developments, formulating responses to enhanced security requirements and establishing standard handling procedures.

CARGO BUSINESS PROCESSES PANEL (CBPP) The CBPP develops and maintains industry standards for procedures, documentation and flow of information relating to the air cargo business. These may concern automation issues, air waybill layout, completion and issuance procedures and related topics. More recently, there has been a shift in emphasis towards the impact of automation in various areas: handling the cargo, its documentation and the information relating to its movement; and the interface between the airline and the forwarding agent and customs authorities.

CARGO DATA INTERCHANGE TASK FORCE (CDITF) The CDITF deals with the technical details of EDI message construction, particularly Cargo-IMP, the long-established airline message standard for EDI. The group is also responsible for maintaining the industry's EDIFACT-based EDI messages, Cargo-FACT. CDITF is responsible for the content of both the Cargo-IMP and Cargo-FACT Manuals.

CARGO XML TASK FORCE (CXMLTF) The objectives of the Cargo XML Task Force are to provide recommendations to the Cargo Business Processes Panel (CBPP) on XML requirements for transportation messages and on the maintenance of the standards as well as to oversee the technical development of these XML messages, which will be based as much as possible on existing messages (e.g. CIMP, IFTMIN) and international standards (i.e. UN/CEFACT Core Components and XML Naming and Design Rules).

DANGEROUS GOODS BOARD (DGB) The objective of the DGB is to promote the safe transport of dangerous goods by air. This is accomplished by establishing clear, concise and practical procedures for shippers, freight forwarders and airlines, which are published as the IATA Dangerous Goods Regulations (DGR). The DGR, which is based on the ICAO Technical Instructions, the legal text for air transport of dangerous goods, is applicable worldwide and includes operational requirements to facilitate the safe and expeditious transport of dangerous goods by air. The Board meets to consider and review new developments in the international regulatory arena. The Board discusses problems that arise in the carriage of dangerous goods and acts to modify or develop new regulations as appropriate.

DANGEROUS GOODS TRAINING TASK FORCE (DGTTF) The DGTTF reports to the Dangerous Goods Board (DGB) and meets twice a year to review all matters pertaining to dangerous goods training. It was established to review, amend and update the IATA Dangerous Goods Training Programme. The contents thereof are current and fully aligned with the IATA Dangerous Goods Regulations. Other tasks are to maintain and update the dangerous goods instructor's manual and to review third party dangerous goods training programmes submitted for endorsement by IATA.
**FOREWORD**

**LIVE ANIMALS & PERISHABLES BOARD (LAPB)** The LAPB develops regulations for the acceptance, handling and loading of live animals in air transport. The regulations for shipping live animals are published in the IATA Live Animals Regulations (LAR), which is published annually in English, French, and Spanish. The LAPB also develops guidelines for shipping time and temperature sensitive goods, these include traditional perishables such as meat products, seafood, fruits, vegetables, plant products, cut flowers and goods from health care sector such as pharmaceuticals. The focus here is on adequate temperature management and efficient handling. The regulations are published in the IATA Perishable Cargo Regulations manual (PCR), which is updated annually. The LAPB has an Advisory body consisting of representatives from outside the traditional IATA membership in particular shippers associations or their agents and international governmental organizations. It also has an Animal Care Team comprising of individuals with expertise on particular types of animals, such as laboratory and zoo animals, for example but not limited thereto.

**TIME AND TEMPERATURE TASK FORCE (TTTF)** The TTTF was established to develop and maintain standards for the procedures, documentation, cargo handling, packaging and acceptance of goods from the healthcare sector in order to facilitate, improve or maintain the logistics thereof. The members of the TTTF are appointed by the LAPB, each being an expert in time and temperature sensitive cargo. More specifically, the task force will deliver a Quality Management System and a revision of Chapter 17th of the IATA Perishable Cargo Regulations (PCR) Manual. The Task Force meets in conjunction with the LAPB.

**ULD PANEL (ULDP)** The ULDP develops specifications, guidelines, recommendations and other technical material related to Unit Load Devices (ULDs). The Panel is responsible for developing and promulgating recommendations and guidelines concerning the manufacture, handling, maintenance and control of ULDs. The Panel studies the development and simplification of requirements of airworthiness certification of ULDs and aircraft restraint systems to remove barriers to the full use of ULDs. The Panel liaises with other industry groups such as SAE International, ISO, FAA, and other external organisations to provide guidance and assistance so that appropriate IATA standards are developed and implemented when needed. The Panel also ensures the commonality of parameters required for interlining ULDs and monitors the developments in aircraft containerisation requirements, including the allocation of ULD Type Code.

**ULD TECHNICAL ADVISORY PANEL (TAP)** The TAP was established for industry to provide technical support in their area of expertise to the ULDP and its secretariat. It is tasked with representing the manufacturing industry's interests. The panel acts as advisors to the ULDP on related matters. Representatives are appointed by the ULDP from companies participating in the IATA Strategic Partnerships programme and invited government civil aviation authorities.

**IATA/FIATA CONSULTATIVE COUNCIL (IFCC)** The IFCC was constituted to initiate, consider and make recommendations to the Cargo Agency Conference (CAC) and Cargo Services Conference (CSC) on issues affecting the Carrier/Agent relationship. The IFCC review all proposals, including those submitted by mail vote, made to the CAC to introduce new, or to amend existing, provisions of the Cargo Agency Rules. The IFCC’s actions are expressed as recommendations.

**IATA/FIATA CUSTOMS WORKING GROUP (IFCWG)** The role of the IATA/FIATA Customs Working Group (IFCWG) is to identify and understand Customs requirements that concern Carriers and Forwarders and that affect the Carrier/Forwarder relationship. The IFCWG provides procedural & operational responses to changes in Customs provisions on behalf of the air cargo industry and identifies & implements necessary changes in IATA procedures and/or standards to comply with legislated requirements.

*Note:* For more information on CSC and its sub-groups, please contact cargo@iata.org
It is important that the management and operational staff of every IATA Cargo Agent be familiar with the regulatory contents of this handbook. A free copy is sent to the head office of each Registered IATA Cargo Agent. Additional copies are available upon request.

This is the 43rd edition of the Cargo Agent Handbook—Resolution 813 currently promulgated by the Cargo Agency Conference. The 48th meeting of the Cargo Agency Conference, scheduled to take place on 09 March 2020 at the World Cargo Symposium in Istanbul, had to be postponed to a future date, yet to be defined due to COVID-19. This 43rd edition includes all Mail Votes conducted from November 2019 through July 2020.

Resolution 801r, Section 2.5–Report and Remittance Procedures, Settlement and Remittance Date
— CAC Resolutions were referring to the Settlement and Remittance Committee for determining remittance dates albeit this authority is in the remit of the Cargo Agency Conference. It has been corrected in this new edition.

Resolution 817, Section 2–Acceptable Financial Security Types
— A bank deposit into a designated neutral account, held by IATA, has been added to the list of acceptable types of Financial Security.

Resolution 851, Section 4–Cargo Accounts Settlement System Participation by Members
— An airline prefix and designator code has always been a key requirement for carriers to participate in the CASS. The requirement has been added to this section for clarification.

Some of the Resolutions included in this handbook have not been declared effective at the time of issue, and therefore appear in grey shaded background. These Resolutions will be declared effective once the necessary Government approvals have been granted. Thereafter, an appropriate declaration of effectiveness memorandum will be distributed to Cargo Agents.

Note: To meet the new requirements of Resolution 811d, Attachment ‘A’, which mandate the Cargo Agency Commissioner to maintain an information website, the reader’s attention is drawn to that website: www.cargo-agency-commissioner.aero

Dialogue between IATA and the air cargo agency sector of the industry has been conducted on an international level for several years through a Consultative Council composed of representatives of members of IATA and FIATA (the International Federation of Freight Forwarders Associations). Those consultations have resulted in problems being solved, procedures being simplified and innovations being agreed by the Conference, as well as in communications being improved between allied branches of the same industry.

All Member airlines of IATA participate in its Trade Association activities and are accordingly bound by the Resolutions of the Cargo Agency Conference and the Cargo Services Conference. In this handbook, those resolutions are identified respectively by the initials ‘CAC’ or ‘CSC’ in the headline. Resolutions of the Tariff Co-ordinating Conferences (TCC) bind those Members having elected to participate in the TCC activities. They can be identified from the IATA membership list towards the end of the handbook.

Aleksander Popovich
Agency Administrator
The insertion of a name on the IATA Cargo Agency List is the result of a careful system of vetting and monitoring, created by the IATA Airlines, in order that they may all have access to industry-accredited intermediaries of reliable. The overall framework within which that industry accreditation process takes place is known as the IATA Cargo Agency Programme.

The programme is contained essentially in a series of Resolutions, reproduced in this handbook, which have been adopted by the Cargo Agency Conference (CAConf) and revised in the light of operating experience. The CAConf consists of senior commercial managers nominated by IATA Member Airlines. In the normal run of things it meets every March, but special CAConf meetings can be called at any time to consider urgent matters.

Resolutions of CAConf require the unanimous vote of the Conference to secure adoption; thereafter, the adopted Resolutions are filed with the concerned government authorities for scrutiny and approval, after which they can be declared effective.

For convenience sake, the airlines have divided the IATA world into three areas:

Area 1:  the Americas;
Area 2:  Europe, Africa and the Middle East;
Area 3:  Asia East of Iran and Australasia.

The Agency Programme is similarly subdivided, with IATA offices in each area. Secretariat support for CAConf, regional programmes and other specialist groups serving CAConf is provided by IATA Distribution and Financial Services (IDFS), which thus constitutes a continuity factor for the Agency Programme.

The span of airline management resources involved in the operation of the IATA Cargo Agency Programme extends from head-office senior middle-management at the Conference, through senior regional management to district management involved in regional groups. In addition, a watching brief is kept by the airlines’ top commercial managements through the activities of the Cargo Committee of IATA. Taking into account the important proportion of air cargo business which originates from the cargo agency sector of the industry, it may be readily understood why such an important segment of the airlines’ management should concern itself with the IATA Agency Programme.

In parallel with the internal airline consultations associated with the above activities, there is a very important and growing programme of consultations with the air cargo agency sector of the industry. Those consultations are, for the most part, conducted with FIATA (the International Federation of Freight Forwarders Associations), the world representative body of air cargo agents. Additionally, there are specific regional consultations in some areas and, where circumstances so warrant, there are industry-wide consultations at national levels.

One prominent activity is the area of training, which over many years has successfully developed, implemented and administered professional training programmes for cargo agency personnel of a quality second to none in the industry. That activity is most adequately described elsewhere in this publication.
Equally prominent in its output and the nature of its work product is the IATA/FIATA Consultative Council which for several years has been the dialogue partner of the Cargo Agency Conference. In consequence, it has been influential in the modernizing and remoulding of the Cargo Agency Programme and has been the source of valuable practical advice in the development of the Cargo Accounts Settlement Systems.

The inter-relationship between these various bodies is as illustrated on the previous page.

An IATA Cargo Agent who encounters difficulty in interpreting or applying the regulations set out in this publication has a choice of possible sources of guidance:
- a Member Airline of IATA, preferably the national carrier of the country where the Agent is situated;
- the Agent’s national trade association which has access to FIATA;
- the IATA Industry and Distribution Financial Services Division, through its regional offices in Geneva, Montreal and Singapore.

Experience has shown that most difficulties may be readily resolved through the above channels; however, where the difficulty encountered raises an important point of principle, then the IATA/FIATA consultative machinery is equipped to analyse it in detail and to seek a CAConf solution. In this connection, the CAConf provisions envisage third party presentations to the Conference on matters on the agenda and within the CAConf’s purview. Details of how such may be sought can be obtained from the Agency Administrator in Geneva.

SEEKING REGISTRATION AS AN IATA CARGO AGENT/INTERMEDIARY

Cargo Agency Rules have been established in order to regulate the standards of business practice between the IATA registered Cargo Agent/Intermediary and Members. These rules set forth the rights and obligations of both parties and the procedures applicable to organizations seeking IATA Cargo Agency registration.

Any person or organization wishing to seek registration as an IATA Cargo Agent/Intermediary may do so by submitting an application in the form of written answers to a questionnaire. This questionnaire has been adopted by all airlines, and is part of the Cargo Agency Rules and is included later on in this handbook, or by visiting our website at URL http://www.iata.org/customer-portal/Pages/index.aspx

The qualifications required for the registration of an Agent/Intermediary are described in detail in these Rules. The essential requirements are:
- qualified and duly trained staff, particularly with regard to the acceptance/handling of Dangerous Goods;
- sound financial standing;
- suitable working premises and cargo handling facilities; and active promotion and sale of international air cargo transportation.

Concerning the qualifications of the staff, each applicant must have at least two persons who have completed a recent training course in applicable Dangerous Goods Regulations, as well as two persons (not necessarily the same) who have completed an industry introductory or basic training course. All courses offered by IATA Member Airlines, the IATA Training home study programmes, as well as certain Governmental Organizations, are accepted courses. A number of third-party training courses have also been approved and applicants should refer to the IATA Cargo Agency Administration for further information in this respect.

In addition, effective 1 October, 2004, all IATA Agent/Intermediary owned branch locations where air cargo is made ready for carriage need to be registered, with each location required to employ a minimum of two full-time competent persons, qualified to provide prescribed services and handling functions. As well, a minimum one such competent person, who also holds certification with respect to Dangerous Goods Acceptance is to be present at all places where air cargo is made ready for carriage whenever such places are open for business.

Refinements to the above as well as other criteria may be applicable in certain countries or areas, as established by local IATA groups, in accordance with the Rules of any regional programme. These are notified to applicants in the countries concerned.
Each complete application is investigated to determine whether or not an applicant qualifies for registration. All Members have a 30-day period in which to file evidence with the Agency Administrator indicating why any application should not be approved.

A newly-registered IATA Cargo Agent/Intermediary executes a Cargo Agency Agreement after which Members may appoint the Agent/Intermediary to represent them in the country of registration.

**CRITERIA FOR REGISTRATION AND RETENTION**

The criteria for registration and retention as an IATA Cargo Agent are set forth in Resolution 813, Section 2, Paragraphs 2.1 through 2.9. The key areas of consideration are:

**MINIMUM STAFF REQUIREMENTS**

The new applicant or a registered Cargo Agent shall have, at the time of application and at all times subsequent to registration, a minimum of two full-time employees holding valid certificates in Dangerous Goods Handling issued within the previous two years after having followed a recognised training course and passed a written examination. Those agents who have more than one Office where cargo is made ready carriage, a minimum of one such competent person must hold certification in Dangerous Goods Handling, and must be present at all places where airwaybills are issued.

In addition, two such persons must hold the IATA/FIATA Introductory Course Diploma or have successfully completed an equivalent course offered by an IATA Member where an examination was taken, or any other course acceptable to the Cargo Regional Joint Council, offered by an IATA/FIATA Authorised Training Centre, airline, commercial organisation, or training institute; provided that any Agent whose name was entered on the Cargo Agency List prior to 1 April 1987 which does not meet this requirement shall demonstrate that its staff includes at least two full-time competent persons each with not less than 10 years’ experience in providing the services and handling functions in international air cargo transportation.

**SECURITY**

All IATA cargo agents are responsible to update or validate their Dangerous Goods training certificates every two years and before the ones in their files are out-of-date. These courses shall be an examination set and marked by an IATA Member airline, the Dangerous Goods regulatory authority of the country concerned where required or the FIATA Dangerous Goods Training Course.

**PREMISES**

The premises must be devoted exclusively to the promotion and sale of air cargo transportation and related services. The premises must be clearly identified as a cargo agency and must be readily accessible to the general public during normal business hours. Must have as a minimum an administrative office and a warehouse where air cargo is made ready for carriage. They may be combined or separated, that is, at the same location or at different locations. In both cases they must be in possession of an updated lease agreement.

IATA NUMERIC CODE

Upon accreditation of an Agent, the Agency Administrator shall assign a numeric code. Such assignment shall continue only so long as the assignee remains an IATA Cargo Agent and shall be withdrawn by the Agency Administrator should the IATA accreditation be terminated.

The assigned numeric code remains the property of IATA at all times. It shall not be shared, lent, leased, sold or otherwise transferred by the assignee to any other person. Failure on the part of the assignee to respect this exclusivity of usage requirement shall constitute valid grounds for the Agency Administrator to withdraw the assignee code and cause the Cargo Agency Commissioner to review the IATA Cargo Agent's IATA accreditation.
CHANGES WITHIN AN AGENCY REQUIRING IATA APPROVAL

Under the terms of the Cargo Agency Rules, Agents are required to notify the Agency Administrator of any proposed change in the ownership, legal status, name or address of their agency and such changes are subject to the provisions of Section 5 of the Cargo Agency Rules.

CHANGES OF OWNERSHIP AND/OR LEGAL STATUS

Agents are reminded that they shall not assign any of their rights or obligations under their Cargo Agency Agreement without the consent of Members. Therefore, if a change of ownership and/or legal status is proposed, notice of such change must be given to IATA at least 30 days prior to its effective date.

CHANGES OF NAME AND/OR ADDRESS

If an IATA Cargo Agent wishes to change its name or address, prior notice has to be given to the Agency Administrator in order that an application for approval of the change may be properly processed and all Members thereby advised.

The consequences of overlooking the requirements for giving prior notice could be detrimental to the continuation of an Agency's status as an IATA Cargo Agent and the importance of advising IATA of any change ahead of time cannot be overstressed.

It is designed to prepare cargo agents for the adoption of the Electronic Air Waybill following ratification of the Montreal Protocol. The course is e-learning training and a certificate can be printed immediately after successful completion of the online test.
AIR CARGO SECURITY AND ASSET PROTECTION

INTRODUCTION

The following high-level guidelines have been prepared to assist cargo agents in protecting their own cargo handling organisation against losses from theft, fraud, etc., as well as safeguarding the interests of the shippers and the airlines. Effective security measures for cargo must be maintained through the supply chain in accordance with government regulations. Further information is available in the IATA Security Manual 5th Edition.

THE SHIPPER

Where a shipper is validated as a Known Shipper/Consignor under a State national aviation security programme, both the shipper and, where relevant, the Regulated Agent conducting the validation must discharge their responsibilities properly and in accordance with that programme. Cargo must be packed to ensure safe carriage with ordinary care in handling and in such a manner that will not cause injury or damage to any persons, cargo or property. Each package (including those containing valuable cargo for which additional security precautions should be taken) should be legibly and durably marked with the name and full street address of the shipper and consignee matching the details on the Air Waybill or alternatively, referencing all component parts of the consignment. Packages must be packed in such a manner that the contents cannot be removed or tampered with without leaving visible evidence. Many shippers look upon previously used cartons and boxes as a source of potential packaging economy. If this practice is followed, the labels used for previous shipment must be removed thus avoiding possible misrouting and expensive claims against the airlines and loss of customer goodwill.

THE AGENT/FORWARDER

Great care should be exercised over the control of both documents and goods if losses are to be avoided. Of particular importance is the recently adopted Resolution 833a, Security Measures for Intended Consolidated Consignments, included in this Handbook.

Premises

Premises should be designed and equipped to deter and prevent unlawful or unauthorized access and to minimize the risk of theft, the following protective measures are recommended:

- Access should be controlled in a manner which deters and prevents unauthorized access to areas in which cargo received from a Known Shipper/Consignor, or cargo which has been security screened by a Regulated Agent, is stored;
- Such controls must also prevent unauthorized interference with this cargo;
- All doors should be equipped with adequate locks. dead bolts should be installed;
Other possible access points to the premises, such as windows, sky lights, ventilators, basement windows, etc., should be properly secured;
intrusion detection and alarm system should be considered;
Closed-circuit television cameras have a tremendous effect and should be encouraged.

Safekeeping of Valuables

All valuables that are negotiable and are not immediately needed should be held in a bank, security deposit or a safe of sufficient size and weight. If used and where circumstances permit, the safe should be bolted to the floor and located so that it is illuminated for easy observation by night patrols. Additional security measures are as follows:
— Never create the impression that valuables are kept in the agency when the office is closed. Refrain from advising strangers the extent of your business;
— Ensure personnel have clear instructions regarding the securing of doors and activating of alarm systems when the premises are not manned;
— Ensure adequate control of all keys belonging to the premises and make certain that the locking devices do not have serial numbers exposed to normal view;
— In the case of combination locks or electronic keypads, the combination must be kept secure and where possible, changed periodically.

Control of Vehicles

Cargo seals should be used regularly to ascertain whether or not freight in a box type vehicle or container has been tampered with en route. Careful attention should be paid to the way in which seals are used. The following protective measures are recommended:
— Doors and shutters of vans or containers should be constructed so that they cannot be taken off without breaking the seal;
— Each seal should be identified with an individual number;
— Unused seals should be kept under lock and key and their eventual use recorded against the signature of the user;
— The seals on each van or container should be recorded against the vehicle;
— The seals on each vehicle arriving at a depot should be recorded so that any change of seals en route is discovered.

The collection and delivery of air freight consignments is usually controlled by documents which should not be left unsecured in unmanned offices.

The cause of many losses often remains unidentified due to the lack of control over clear signatures being either given or obtained at each stage of movement from the shipper through to the airline and on to the consignee. A control copy of every document should be retained and the signature obtained on the original should be checked against the control document to ensure that no unauthorized alterations have been made and that no goods remain undelivered.

Assistance and Regulations from Law Enforcement Officers

In some countries, national and/or local police forces have loss prevention specialists who are able to offer direct advice in respect of securing property. Where available, their assistance should be sought. Every State which has a national aviation security programme has a regulatory authority responsible for enforcement. This authority will often provide advice and guidance regarding how applicable Cargo Security Regulations must be implemented.

In the Event of a Burglary

In the event of a burglary, outlined below are some of the immediate steps that should be taken:
— Ensure that no one touches anything unless absolutely necessary, leaving everything exactly as it is;
— Telephone the police requesting a complete examination of the premises;
— Provide every assistance to the police, i.e. a complete description of all stolen property, description of any suspicious persons who were on the premises prior to the burglary;
— Inform all concerned of the burglary by telephone, or other appropriate means.

THE AIRLINES

Each IATA Member Airline has a Security and/or Fraud Prevention Representative who serves as a contact for all communications pertaining to this subject matter and who coordinates security and fraud prevention activities within his own company and with the Cargo Security Department of IATA. Should further advice be needed, contact the representative of the airline whose head office is the closest. In the event that further information is sought, the reader may also contact the IATA Cargo Security Department based in Geneva.

CONCLUSION

This subject matter is complex and Asset Protection requirements will vary greatly from one facility and/or location to another. The type of cargo in itself will indicate certain actions that should be taken for its protection. In any event, holding items of extraordinary value should be avoided except for the shortest possible period prior to transportation of goods between originating and receiving high value repositories and the air carrier.

Agents who are accredited as Regulated Agents under a State national aviation security programme are legally required to discharge their responsibilities properly and in accordance with that programme. The IATA Cargo Services Conference Resolutions Manual incorporates Recommended Practice 1630—Cargo Security; Attachment ‘A’ provides a Security Declaration Form. Attachment ‘B’ offers a set of guidelines for the
implementation of Cargo Security procedures. As well, Cargo Agency Conference Resolution 833a—Security Measures for Intended Consolidated Consignments outlines further responsibilities of the IATA Cargo Agent in regards to security.

AIR CARGO AUTOMATION

BACKGROUND

The implementation of computer systems by airlines, agents and customs will continue to increase rapidly over the next few years. Some of these partners invest in automated equipment for the first time. Many will buy their second- or third-generation systems in the light of updated technology and experience. In some countries the introduction and use of computers has been much more rapid than in others. In many locations, cargo community systems have been been developed which include many common interface functions.

Computerised systems are developed and implemented to meet the commercial and economic objectives of a company. However, in the air cargo industry, no company can act in isolation since the movement of every shipment is of interest to many different parties. Just as the goods physically move from hand to hand, so too is the information concerning those goods.

Within one company, a computer will help to calculate, control, track, collate and provide information. However, in exchanging data and information with another party in the transportation chain, the company will normally continue to receive and process paper documents. These include House Air Waybills, Commercial Invoices, Export/Import Permits, Delivery Notes, Manifests etc.

The thrust of automation in the next few years will be to link all parties together so that electronic information will replace paper as the primary source of consignment information. This is more so today as Customs Administrations start to institute new rules calling for the advance electronic transmission of cargo data prior to flight arrival.

THE OBJECTIVE

The objective of automation is two-fold. Firstly, to satisfy customer requirements and eliminate delays to the movement of cargo throughout the transportation cycle. Any reduction in total handling time will have a beneficial effect on present costs. Secondly, the introduction of airline reservations, tracking and automated air waybill issuance at the agents premises will allow the traditional air cargo agents to narrow the gap between their services and those of the integrated carriers and provide a seamless service.

This objective is achievable in many locations. The technology is available and research and implementation in many locations has been undertaken. However, in some areas, this is still a new idea which needs not only the advanced technology of computers and switching systems, but also calls for new relationships and new organisations to bring it about.
THE CARGO COMMUNITY SYSTEM

A cargo community is generally considered to consist of some or all of the following:
- Airlines, scheduled and non-scheduled;
- Air freight forwarders and agents;
- Customs brokers;
- Customs authorities;
- Ground handling companies;
- Other government agencies;
- Airport authorities.

In general terms, the role of a cargo community system (CCS) is to improve communications, through the use of computers, in the movement of goods. It is implicit that discussion and consultation are necessary to achieve progress to meet the changing needs of a cargo community.

Its ultimate objective is movement of goods from shipper to consignee as quickly as possible. Other objectives of a CCS system include economies in individual processes by using shared data, faster ground handling and reduced dwell times thereby enhancing the value of the air cargo product. It should also lead to handling of increased volumes of cargo while reducing storage space requirements, increasing terminal throughput and avoiding additional investment in buildings and land. In short, increased efficiency, improved productivity and reduced costs are the benefits which accrue to all participants in the trading community.

There are presently many CCS’s in operation worldwide, offering airline/forwarder/customs connectivity and new services to the air cargo industry.

It is essential that organisational issues be resolved early in the planning process of a CCS. This ensures that all points of view are considered before development becomes so advanced that it is difficult to change.

Implementation of CCSs is often locally arranged. However, such local agreements often have far-reaching international ramifications. Since Members of IATA operate international services, their interests are, by necessity, international. Many freight forwarding agencies are also international organisations or have close overseas connections. On the other hand, airport authorities and, more significantly, customs authorities have only national or even local interests. This results in a need to deal with authorities which can be as different and individual as their national interests demand.

From an airline point of view, it is essential to take a network or international perspective, and try to achieve simplification and standardisation on a world-wide basis. The information exchange can be simplified by the use of standard messages, avoiding costly ‘black-box’ interfaces for individual locations where such links are thought to be necessary.

Many airlines are in a unique position in the development of cargo community systems. As operators of worldwide networks, and having developed automated systems for the control of air freight with connections to other community systems, they have had to develop standard interfaces. As a result, they are able to bring a global perspective to such developments.

THE ENVIRONMENT FOR DEVELOPMENT

To achieve the objectives of a community system, the following requirements need to be met:

1. An understanding among all participants, at all management levels, that the development of interface communications requires all participants to have a standard EDI language of data elements and messages.

2. The development of community or local system projects needs the cooperation of all participants, and an investment of time, personnel and finances to achieve practical, cost-effective systems.

STANDARDISATION OF DATA ELEMENTS AND MESSAGES

A message is a structured block of information which is passed from one computer to another. A computer can be programmed to automatically structure, send and receive a message to or from another computer. This is why it is important that all parties—agents, airlines, customs and others—agree on the use of standard data elements and message formats; standardised data elements and messages are the life-blood of EDI (electronic data interchange).

Airline standard data elements and messages are published in the IATA Cargo-IMP Manual, under the authority of the Cargo Services Conference. Wherever possible, standards are also coordinated with others in the international trading community through their representative agencies such as the UN/ECE, the World Customs Organisation (WCO) and FIATA, through the IATA/FIATA Consultative Council.

There are currently two standards for messages used in community systems that have received the endorsement of agents, airlines and customs. New community system developments will be based on these standards. These are the airlines’ Cargo-IMP messages and the UN/EDIFACT standards. IATA and its Member airlines are working within the UN/EDIFACT message development structure to achieve the results the industry needs and to maintain and publish the Cargo-Fact manual.

INFORMATION EXCHANGE

Agents and airlines use their systems to communicate between origin and destination. In the transportation of cargo, it is also often necessary to exchange consignment information between different parties, e.g.:
- export agent—airline—import agent;
- airline—airline;
- airline—handling company;
- airline—customs;
- export/import broker (agent)—customs;
- agent—agent.
Since all of these parties have different computers, systems and procedures, there is an obvious challenge in making electronic information exchange work in practice.

THE INFORMATION FLOW

The information contained on the air waybill is needed by all participants in the carriage of the goods and by customs in order to release the goods. The air waybill data therefore becomes the foundation on which a cargo community system is developed—the means through which this information is communicated to all who need it.

If the original air waybill data is captured electronically, for example in an agent's computer, it should be easily and quickly accessible to anyone else who needs it. It is suggested that IATA Resolution 600a (The Air Waybill), Recommended Practice 1600r (Air Waybill—Validation of Data Format), the Cargo-Imp Manual and the Cargo-FACT Message Manual are helpful references for anyone developing systems for the automated issuance of air waybills. Other publications have been, and are being developed by IATA to further assist in this process.

Functions based on air waybill data include:
- airline space reservations;
- consignment data interfaces/exchange;
- consignment tracing/tracking;
- sales reporting; and
- internal management reports and statistics.

IATA is committed to full cooperation with all interested parties to achieve the coordinated development of cargo automation information exchange. The following areas, in particular, are considered critical:
- Standardisation of data elements and messages to meet all system interface requirements;
- Automated exchange of air waybill data;
- Electronic interface between airlines and agents;
- Electronic interface with customs authorities; and
- Development of economic, cost effective cargo community systems.

AGENT—AIRLINE INFORMATION EXCHANGE

A large proportion of all air cargo consignments are generated by cargo agents. A proportion of shipments are handled at destination by cargo agents or customs brokers. Because of this, the procedures for the movement of cargo necessarily involve the exchange of a great deal of information between agents and airlines.

Many agents are now equipped with computer systems for air cargo processing which are capable of sending and receiving messages. If this capability is exploited with connections to airlines’ systems via a single, multi-access terminal a powerful communications link will be established. Many of the present telephone and paper communications could be replaced by the exchange of standard electronic messages, thus greatly improving speed and accuracy and reducing costs.

Airlines already have communications systems, both private and commercial networks and through the worldwide industry networks of SITA and, in North America, ARINC. These systems connect virtually all airlines and airports at the teletype message level and, in many instances, at the higher level of data transfer. For our purposes, the gap in the cargo communication chain is local—the ability to link agents with the airline communications network. This link can be provided by a cargo community system.

One of the first functions of a cargo community system is the exchange of information on reservations, status and air waybill data of benefit to both agents and airlines. For example:

**AGENTS** will benefit from:
- Direct message level access into all (participating) airlines’ systems;
- A single connection to multiple airlines;
- Uniform message procedures for all airlines;
- Minimum costs through a community system;
- Reduction in telephone calls to airlines;
- Simplified or reduced documentation;
- Possibilities for pre-release of consignments by customs; and
- Improved customer service.

**AIRLINES** will achieve:
- A single gateway through which airline messages exchanged with outside parties can be routed;
- A controlled method of allowing access to airlines’ computer systems to prevent unauthorised access to information;
- A simple method for allowing authorised users to obtain status data and make reservations;
- Timely and efficient receipt of air waybill data without the necessity to re-key the data;
- A link with CASS and/or other airlines’ systems where available;
- A reduction in telephone calls; and
- Simplified documentation.

BAR CODING APPLICATIONS

A key to efficient flow of information, and to maximization of EDI benefits, is automatic data capture and shipment identification through bar coding. To help facilitate wider use of bar coding within the air cargo industry IATA has, in coordination with FiATA, developed a ‘universal’ bar coded label standard. This standard defines the dimensions, layout and data content and format for cargo labels—which can be applied by airlines and forwarders alike. It thereby provides significant efficiencies and cost savings through standardization of equipment, paper stock and handling procedures. The specification is published under Resolution 606. Guidelines for the use of the bar coded label are published in the Bar Coded Label Handbook.
INTERFACE WITH CUSTOMS

Because of the large volume of air freight, many airlines have already realised that they need to make maximum use of computerised control systems. This is essential in order to minimise the number of documents which have to be produced, handled and stored.

Customs authorities in many countries have taken the initiative in developing automated systems for their control and processing functions. Customs requirements are frequently the same, yet the procedures for complying with them are just as frequently unique to each country. This led to initiation of a Joint Project of IATA and the Customs Cooperation Council as early as 1983.

Customs authorities’ automation efforts have brought them to recognise the value of standardisation. As a result, the CCC/IATA Project was established and has resulted in:

- Signature of a Memorandum of Understanding between the two organisations;
- Adoption of a Recommendation in the CCC regarding the interchange of data between customs authorities and air carriers;
- Adoption of a Resolution by the IATA Cargo Services Conference regarding interchange of data between air carriers and customs authorities.

The United States Customs and Border Protection Agency’s for the Advance Presentation of Electronic Cargo Information came into force in 2004. Canada and India have similar legislation effective in 2006. Member countries of the World Customs Organization (WCO) have committed to the implementation of the WCO Data Model where possible. Cargo Automation and IATA’s e-freight initiative will play a major role in ensuring that airline members and their forwarder/intermediary partners meet these requirements.

INTERFACE WITH POSTAL ADMINISTRATIONS

A large amount of mail is transported by air. Just as the Customs authorities have realised the benefit of the automated exchange of standard messages, so too have many of the Postal administrations. The Members of IATA and the Universal Postal Union (UPU) have been working cooperatively in this regard with the following results:

- Signature of a Memorandum of Understanding between the two organisations;
- Adoption of a Resolution by the IATA Cargo Services Conference regarding interchange of data between air carriers and postal administrations;
- Adoption of a Resolution by the IATA Cargo Services Conference regarding interchange of data between air carriers and customs authorities.

The Joint Postal Administrations/Airlines Electronic Data Interchange Manual, which includes EDIFACT messages for use in system to system exchange of airmail information.

IATA DANGEROUS GOODS REGULATIONS

The international transport of dangerous goods by air has been regulated since 1956. In 1984 the International Civil Aviation Organization assumed this responsibility under Annex 18 to the Chicago Convention on International Civil Aviation and its accompanying Technical Instructions for the Safe Transport of Dangerous Goods by Air. The ICAO requirements are now mandatory for all 190 ICAO member countries.

IATA continues to publish the Dangerous Goods Regulations in order to provide the user with a single document that includes full details of the regulatory requirements of ICAO and the airlines’ operational requirements. These include a complete list of operator variations, a prescribed form for the Shipper’s Declaration, and full details on packaging specifications and testing. The Dangerous Goods Regulations, officially recognised by ICAO as the field document for the transport of dangerous goods by air, are fully compliant with (and in some cases are more restrictive than) the ICAO Annex 18 and the Technical Instructions for the Safe Transport of Dangerous Goods by Air.

The responsibilities of Cargo Agents and Freight Forwarders are spelled out in the IATA Dangerous Goods Regulations (DGR). DGR Reference 1.3.3.6 states that before a consignment is offered to an airline for shipment, the shipper, freight forwarder and cargo agent must:

- ensure the dangerous goods are in full compliance with the Regulations;
- segregate dangerous goods contained in Consolidations from goods which are not subject to the Regulations and offer them separately;
- ensure that dangerous goods are not loaded in a unit load device, other than those permitted under DGR 9.1.1.1; and
- for all consignments, check documents and the exterior of packages for indications of hidden hazards.

This last requirement is to prevent undeclared dangerous goods from being carried by air, since they are the cause of the majority of dangerous goods incidents and accidents reported to the authorities. The common Air Waybill descriptions that often conceal dangerous goods are listed in DGR 2.2. Such items as Household Goods, Laboratory Testing Equipment, Company Material, Samples for Testing, Medical Supplies and many others. Markings on the outside of packages often give a clue as to possible dangerous goods hidden inside.

The IATA Regulations spell out in simple terms how dangerous goods are defined and classified into nine hazard classes, including Explosives, Compressed gases, Flammable liquids and solids, Oxidizing materials, Toxic substances, Radioactive materials, Corrosives and those materials which do not readily fall into these classes.

Over 3,000 articles and substances are listed showing their UN numbers, proper shipping names, hazard classes, subsidiary risks, hazard labels, packing groups, packing instructions and quantities permitted on passenger and cargo aircraft.

The List does not cover every individual substance as this would be clearly impossible, particularly as a considerable number of new chemicals are developed and offered for transportation each year. To cover this, a number of generic (not otherwise specified) entries are included in the List. For example, if a substance is not specifically listed by name, the shipper must determine its hazard class, and may then use a ‘n.o.s.’ designation such as ‘Flammable Liquids, n.o.s.’. N.o.s. entries are also included covering substances having more than one class hazard such as ‘Flammable liquid, Toxic, n.o.s’.

The Regulations detail the shipping documentation requirements including instructions on the completion of the Air Waybill and the Shipper’s Declaration. It is important to note that only persons who have undertaken appropriate dangerous goods training may sign the Shipper’s Declaration for Dangerous Goods.

Each dangerous goods package must carry the correct ‘Hazard Class Label(s)’ and it is of interest that these labels are also used for all other modes of transportation. Other package markings are required as specifically stated in the Regulations.

Apart from other hazardous shipments, radioactive materials are regularly offered for air transportation and the basic rules, which have been adopted by all transport modes, including the air mode, emanate from the International Atomic Energy Agency. In addition, the special conditions which apply to the air mode such as pressurization, rapid temperature changes, vibration, separation distance requirements, etc., have all been covered in the IATA Regulations. A list of UN Specification Packaging Suppliers is provided to assist shippers and agents to locate sources of such packagings worldwide. Governmental competent authorities are listed, where users of the Regulations can obtain assistance in classification and other aspects of shipping dangerous goods by air.

The International Civil Aviation Organisation and IATA (in DGR 9.5.4) require that sufficient notices, prominently displayed, are provided at cargo acceptance points, giving information about the transport of dangerous goods. This is intended to promote awareness of dangerous goods in the shipping community. ‘Have you declared it?’ posters may also be obtained from IATA offices.

Third-party organisations offering IATA accredited, industry-recognised, dangerous goods training, meeting the requirements of Resolutions 801, 803, 805 and 809, are also listed.

These IATA Dangerous Goods Regulations are a ‘must’ for all concerned in the transportation of dangerous goods by air, including carriers, agents, forwarders, consolidators, governments, shippers and manufacturers. It is important that the current edition should always be used, since many revisions and additions appear in each new annual issue.
The Regulations are printed in English, Chinese, French, German and Spanish and may be obtained by contacting the IATA Customer Services Department in Montreal. In addition a Japanese language edition is produced under licence.

DANGEROUS GOODS IN ELECTRONIC FORMAT (eDGR)

The eDGR is a single user application of the IATA Dangerous Goods Regulations available on both CD-ROM and USB key. The eDGR contains all information currently available in the printed book and in addition has search, sort and report features.

The eDGR allows you to:

- Search the entire textual content of the IATA DGR manual. View the search results in a familiar web style. The search can also be triggered from the index and from a text selection for even faster results;
- Search the list of dangerous goods (Table 4.2), sort the table and produce detailed report that set out all of the requirements applicable to an entry, with full hyperlink and print support;
- Create bookmarks (also commonly known as “favourites”) to frequently visited sections and to sections of particular relevance to your needs. UN Number Reports can now be bookmarked as well;
- Customize your IATA DGR software by activating bookmarks as navigation tabs. Enable direct and immediate access to content areas that you refer to most by adding them to the main navigation tabs, including UN Number reports.

IATA LIVE ANIMALS REGULATIONS

The public at large is concerned about animal welfare. Airlines, shippers and intermediaries involved in the transportation of live animals have a vital interest in the animals reaching their destinations safely and in good health.

IATA began to review the conditions of safe and humane animal transportation in 1967 and established the Live Animals Board to develop international standards. The IATA Live Animals Regulations (LAR) was first published in 1969 as an industry guideline for air transport. Because recommended practices were not always complied with by parties involved in transporting animals, IATA members agreed to adopt the LAR as an industry standard under CSC Resolution 620 in 1974.

While IATA encourages all parties to comply with the LAR, it realises the important role of governments in the implementation of IATA standards on a global basis. Through IATA’s lobbying efforts, many countries, including member states of the European Union and the United States of America, have adopted either part or the whole of the LAR as the law for animal transportation. In addition, pursuant to the United Nations conservation initiative, the Parties to the Convention on International Trade in Endangered Species (CITES) have resolved to encourage all Parties to implement IATA standards for the export and import of endangered species. In June of 2007 the Convention in international trade of endangered species of wild fauna and flora have accepted the Perishable Cargo Regulations (PCR) manual and the Live Animals Regulations (LAR) manual as the standard of use for CITES protected species when transporting live specimens. This recognition applies to the 172 countries that are party to the Convention and to all stakeholders involved in the transportation logistics thereof.

The Live Animals & Perishables Board meet to review and update the LAR. Officials from the UK, US, France, New Zealand and Canada are regular observers at the Board meetings.

The LAR is published annually on October 1st in English, French and Spanish.

To ensure that animals, passengers and planes always travel in safe, healthy and humane conditions, all persons who ship, accept, handle or load animals must be familiar and competent with the specific requirements of the IATA Live Animals Regulations. An increasing number of countries have adopted or accepted these regulations as part of their national legislation. Shippers are warned that shipping live animals in violation of the Regulations may constitute a breach of the applicable law and may be subject to legal penalties.

LIVE ANIMALS REGULATIONS CD

In addition to a hard copy manual, the IATA Live Animal Regulations is also available on CD-ROM.

The CD allows you to:
• find brand new live animal classification information combined with container construction requirements;
• obtain airline cargo contact information relating to sales, cargo operational aspects such as warehouse delivery information;
• view airline offered services in relation to live animal transportation from dedicated web pages;
• obtain an instant report tailored to single animal species and share it with your clients;
• instantly view operator and country variations on file with IATA;
• follow links to regulatory agencies that give further information about live animal transportation, such as for example the EU, without leaving the CD user interface.
PERISHABLE CARGO REGULATIONS MANUAL (PCR)

The purpose of the Perishable Cargo Regulations Manual (PCR) is to provide guidance to parties involved in the bringing to the market of “Perishable” goods, with an emphasis on the air mode.

In the 28th Cargo Services Conference it was decided by IATA member airlines to use the Perishable Cargo Regulations Manual as the standard applicable for the acceptance, packing and handling of perishable goods. This has been captured in the Cargo Services Conference Resolution 622 and is applicable to all IATA member airlines. In June of 2007 the Convention in international trade of endangered species of wild fauna and flora have accepted the Perishable Cargo Regulations (PCR) manual and the Live Animals Regulations (LAR) manual as the standard of use for CITES protected species when transporting live specimens. This recognition applies to the 172 countries that are party to the Convention and to all stakeholders involved in the transportation logistics thereof.

The scope of this manual has to do with the monitoring of safety aspects throughout the distribution chain in order to safeguard and preserve the inherent qualities of the goods being shipped. It is a reference manual for all parties involved in the packaging, handling and acceptance of perishables and provides producers, growers, transporters, agents and manufacturers alike with criteria and procedures to fully exploit the benefits and advantages offered by air transport. Clinical or bio-medical shipments have an intimate need for a temperature controlled environment and are therefore also part of this manual. Endangered and from trade protected Flora are further detailed in the dedicated CITES chapter.

Product “marketability and traceability”, HACCP and Codex-alimentarius related principles will provide guidance towards import, transit or export activities. Traffic flow improvement, customer service and the various facts of the different interfaces and environments involved are further detailed in this manual. The content thereof is based on the experience of a number of major airlines, shippers, agents and scientific data supplied by research institutions that work closely with IATA.

The most current edition (7th) of the Perishable Cargo Regulations, features a new chapter on air transport logistics for temperature sensitive health care products. It aims at informing users of global regulatory requirements in terms of cold chain management and good distribution practices. Freight forwarders and carriers alike will discover new active and passive packagings as well as draft standard operating procedures forms for use when dealing with pharmaceutical companies. The PCR is updated by the IATA Live Animal and Perishables Board and is published in English.

PERISHABLE CARGO MANUAL CD

In line with nowadays customer expectations, IATA produces a Perishable Cargo Manual CD that is updated annually.

The CD allows you to:

- find brand new perishable classification information;
- obtain airline cargo contact information relating to sales, cargo operational aspects such warehouse delivery information and airline offered services in relation to perishables from dedicated web pages;
- obtain a perishable report tailored to single commodities and share it with your clients;
- instantly view operator and country variations on file with IATA;
- follow links to regulatory agencies that give further information about perishables without leaving the CD user interface.
UNIT LOAD DEVICE (ULD)

ULD are a key component in improving the efficiency of cargo and baggage handling at airports. Within the air cargo industry, the ubiquitous ULD now reaches deep into the supply chain—in some cases right from shipper to consignee—literally being the link that keeps the whole air cargo supply chain together.

As the air transport industry refines its service to its passengers and air cargo customers, it becomes ever more imperative to ensure that ULD perform their intended function of streamlining aircraft receipt and dispatch. To be able to do this, ULD must be designed and manufactured to exacting specifications and maintained in an airworthy condition. For this reason IATA established the ULD Technical Panel (ULDP) and publishes the ULD Technical Manual which contains vital information regarding specifications and handling of ULD.

Incorrect specification, design and handling of ULD can result in situations where the ULD and its load can cause delays and even severe damage—to the aircraft, the cargo, the ULD, and the ground handling equipment. In these situations there is also an increased exposure of staff to injury. In many air cargo routings it is necessary for the ULD to be interlined between different aircraft and/or airlines. The ULD Technical Manual addresses these considerations with recommended practices to ensure the smoothest possible operation.

To facilitate the application of common standards for the handling of ULD, the ULDP participated in the development of ULD audit points for inclusion into the IATA Safety Audit Ground Operations (ISAGO) programme which applies to ground handling agents. In addition, the ULDP is proceeding with the promotion of the ULD Care Charter which is to be released within the coming months in which progressive members of the greater air transport industry can indicate their support for, and commitment to, an improved operating environment for ULD.

ULD are a valuable commodity, for this reason any time that a ULD is interlined the ULD owner needs to be able to track the location of the ULD to ensure that the ULD can be accounted for at all times. To manage this tracking process a considerable number of IATA member airlines have formed the Interline ULD User Group (IULDUG) that manages this logistical issue through the use of specifically developed system that traces the use of the members’ ULD across the different sectors of the air cargo supply chain.

Both the ULDP and IULDUG are supported by members of the IATA Strategic Partnership Programme—particularly those involved as suppliers to the ULD industry. Important as this participation is to the groups, participation is also sought and encouraged from the broader airport, ground handling, and surface transport sector.

THE CARGO ACCOUNTS SETTLEMENT SYSTEMS—CASSlink

www.iata.org/customer-portal/Pages/index.aspx
http://www.iata.org/services/finance/Pages/cass.aspx

INTRODUCTION

IATA has established and operated Cargo Accounts Settlement Systems for over 30 years ago with the objective of simplifying the reporting of cargo sales and settling of accounts between cargo intermediaries and carriers.

The system has evolved since then and now operates through an advanced global web-enabled platform known as CASSlink with common operational features providing airlines with a truly global solution for the billing and settlement of their sales revenues. Today IATA runs 92 operations worldwide, 84 Export and 8 Import, covering:

- 84 countries around the globe
- settlements in excess of US$ 25 billion
- More than 18 million UTP’s processed (AWB’s and correction notices)

With the help of CASSlink, IATA’s Cargo Distribution effort aims to expand its CASS network to a significant number of additional cargo markets enabling carriers’ full coverage of our service.

ADVANTAGES OF CASS

CASS yields a two-fold solution as it replaces airlines traditional paper based invoicing in one-side and agents’ traditional clerical functions of receiving and manually controlling those invoices on the other. Upon the implementation of a CASS operation an IATA “Settlement Office” is established locally ensuring carriers’ and agents an array of benefits:

- streamlined invoicing and collection of sales revenues processes performed by IATA’s neutral settlement office;
- invoices are produced and distributed electronically to all parties eliminating any risk of loss or fail to deliver;
- agents pay one amount covering payment to all carriers; carriers receive one amount covering payment from all agents;
- enhancement of financial control and improvement of cash flow as the CASS rate of success in collecting funds is virtually 100%;
- risk of default is greatly reduced as irregularities are handled centrally by the CASS office;
- unbiased management of disputes leading to a more transparent practice and smoother process;
- cost is shared on an equitable basis among all participating carriers.

TRADITIONAL SETTLEMENT OF ACCOUNTS

Export airfreight normally reaches airlines via cargo agents. Agents collect freight charges from shippers for payment over to carriers. Certain carriers require that agents report sales made on their behalf in certain markets. Other carriers may produce invoices to their agents for those sales. Agents work with many carriers and carriers accept consignments from many agents. Each carrier receives a report from, or prepares an invoice to, each agent individually.

These redundant reports and invoices must be checked and consolidated and payments have to be made individually. This traditional administrative approach towards cargo billing is costly and represents a major burden on both airlines and agents alike.

CASS EFFICIENT OPERATION

With today's technology CASSlink has simplified the billing-settlement cycle turning it into a dynamic process. Once an operation is set to go “live” the IATA local office enables the system with local parameters such as airlines and agents’ full name and addresses, current exchange rates and etc. Airlines generate electronic records of all AWB's issued by their agents in a pre-specified format called “billing file”. The carrier then uploads billing files into CASSlink on specific dates following an agreed processing schedule (although there is trend to encourage daily uploading of Processing schedules determine deadlines for billing file submission by the airlines, processing of those files by the settlement office and distribution of electronic output to both airlines and agents).

Once billing files are processed the system generates an output comprised of invoices and billing statements. Each agent receives an invoice is respect of each carrier it works with, and a statement indicating the total amount due to all carriers. Each carrier receives the reciprocal set of accounting documents. Because this output is electronically stored in a web-enabled system both airline and agent may grant access to people of various departments (sales, operations and finance) while its access requires a simple Internet connection.

An additional feature of CASSlink is the overnight processing of all files received enabling agents to preview billed items on a daily basis.

Agents and carriers further benefit from this dynamic system specially when a dispute arises between them, as CASSlink facilitates the handling of on-line corrections.

CASS MODES

Although almost all CASS operations are relate to Export freight only, Import & Terminal Charges (ITC) and Domestic billing services are offered in some countries CASS ITC is operational in Brazil, Germany, Great Britain, Hong Kong, Italy, Japan, Morocco and United Arab Emirates. The CASS ITC participation rules were reviewed in 2017 for a new model endorsed by CAConf to facilitate billing between Delivering Companies (Ground Handling Agents and self-handling Airlines) with their customers. The new CASS ITC model will be implemented in current and new operations, starting 01 October 2017.

CASS IMPLEMENTATION

In principle any country can host a CASS operation as long as there are airlines and freight forwarders willing to support and bear the cost of running it. Traditionally, IATA would expect airlines to manifest interest for any given market whereas today there’s a growing need to expand the CASS network. Therefore, new operations are now being more actively sought.

Upon the identification of a potential country, IATA will conduct an assessment of the local market to define its size in terms of players, sales volumes and number of AWB's issued there. Meetings with national associations of forwarders and civil aviation authority are encouraged in order to ensure wider industry support. Based on these findings a business case is prepared and presented to the airlines locally, which must confirm participation. After that, this report is presented to the CASS Policy Group represented by twelve carrier members for its final and official endorsement.

IATA normally establishes or has established an office prior to a CASS implementation. But in order to be cost efficient some operations are run as an extension of a larger one. CASS-Nordic, for example, manages four countries from a Sweden-based IATA office.
AIRLINE AND AGENT PARTICIPATION

Airlines and their GSSA’s may choose whether or not to join any given operation. Yet each airline participation is so vital for an operation’s success that IATA will seek to maximize the number of participants. Accredited agents on the other hand are incorporated automatically whenever an operation is set to go live. Non-IATA agents may join CASS by simply signing an “associate agreement” with IATA.

COST OF PARTICIPATION

Airline Members pay a fee of USD 2,500.00 each time they join a new operation. Non-member airlines and GSSA’s (regardless of the number of airlines they represent) pay USD 3,500.00 plus an annual fee of USD 500.00.

In addition to that, airlines pay a fee on the transactions (SCU charge) meant to cover the IATA’s cost for running that specific operation.

IATA agents have no cost for being part of CASS whereas non-IATA agents or CASS Associates are expected to pay an annual fee set locally to help fund the operation.

AIR CARGO CLAIMS PROCEDURES

Uniform principles and practices for the handling of air cargo claims must be observed whenever claims between carriers and Intermediaries or their customers pertaining to loss, or damage, or delay to shipments, etc. are processed.

The Warsaw Convention and in some countries the Montreal Convention and its pertaining Protocols and the Conditions of Contract (IATA Resolution 600b paragraph 10.1 to 10.1.3—on the reverse side of the AWB) stipulate time limits in regard to the lodging of claims.

Damage—Visible damage has to be registered upon delivery in the delivery receipt, or immediately after discovery of the damage to the goods in writing, holding the carrier liable within fourteen (14) days from receipt of the goods. Furthermore, the carrier (or its handling agent in charge) upon request at the time of delivery has to issue a Cargo Damage Report (CDR).

Delay of Goods—A complaint must be submitted in writing within twenty-one (21) days of the receipt of the goods.

Non-delivery of Goods—A complaint must be submitted in writing within one hundred and twenty (120) days from the date of the issue of the AWB.

The claimed damage(s) has to be substantiated and suitably evidenced by documents such as AWB copy, Cargo Damage Report and invoices, which must be submitted to the airline within a reasonable period of time.

Any rights to damages against a carrier shall expire unless an action is brought within two years from the date of arrival at the destination, or from the date on which the aircraft ought to have arrived, or from the date on which the transportation stopped.

In some countries or for certain airlines it may be mandatory, or at least advisable, to effect all submissions by registered and confirmed mail.

The above are guidelines only and it is recommended that further information be sought from the airline(s) involved in respect of any claim.

RESOLUTION 600*

THE CONSIGNMENT

CSC(40)600  
Expiry: Indefinite  
Type: AA

RESOLVED that, in respect of any consignment:

DEFINITION

1. As used in Conference Resolutions, the term “consignment” means one or more pieces of goods, accepted by the carrier from one shipper at one time and at one address, receipted for in one lot and moving on one shipment record or air waybill to one consignee at one destination address.

USE OF A SHIPMENT RECORD or AIR WAYBILL

2. For international carriage a shipment record as defined in Resolution 600f shall be used for each consignment, unless an air waybill in accordance with Resolution 600a is used due to applicable international treaties, national law, or as bilaterally agreed between the carrier and the shipper.

3. The consent of the shipper may need to be obtained for the use of shipment record on certain routes governed by Montreal Protocol 4 to the Warsaw Convention.

4. When a shipment record is used, the shipper may request and shall receive a receipt for the cargo (or cargo receipt) in accordance with Resolution 600g.

5. No carrier shall create a shipment record (or execute the air waybill) or carry any part of a consignment until the complete consignment has been received.

TRANSFER OF TITLE OF PROPERTY

6. No Member shall execute for a shipper and/or consignee—as a service incidental to the transportation of goods—any document intended for the sole purpose of effecting transfer of title of such goods.

* This Resolution is in the hands of all IATA Cargo Agents.
ACCEPTANCE OF CONSIGNMENT

7. The shipper shall be required to address legibly and durably each component part of the consignment showing the same consignee’s name, address and country. These shall be the same as entered into the shipment record or as on the air waybill. Alternatively this information may be shown on one or more component parts provided that all other parts of the consignment are cross-referenced.

8. No Member shall make any additions, deletions or changes to transportation documents other than to an air carrier’s shipment record or air waybill.

9. If a consignment consists in part of articles subject to the IATA Dangerous Goods Regulations, such articles must be offered separately and must be clearly indicated in the shipment record or on the air waybill in accordance with Resolution 600a.

TRACING OF CONSIGNMENTS

10. No Member shall trace or provide forwarding, delivery or other information for the consignment or any part thereof pertaining to circumstances occurring after delivery to the consignee named in the shipment record or on the air waybill, except in response to an enquiry initiated by a Government agency or in connection with a written claim for concealed loss or damage.

RELEASE OF CONSIGNMENT

11. No Member shall accept requests or instructions from a Shipper or Agent to obtain, prior to release of a consignment to the consignee, proof of payment for the goods or acceptance of a draft(s) or similar document(s).

RESOLUTION 600a*

AIR WAYBILL

CSC(40)600a*  Expiry: Indefinite
Type: B

RESOLVED that:

1. For international transportation of cargo, IATA Members shall use a shipment record as defined in Resolution 600f, unless an air waybill as set forth in Attachments ‘A’ and ‘B’ hereto is required due to applicable international treaties, national law (including origin, destination or transfer point local regulations), or as agreed bilaterally by the parties.

2. The air waybill is a document which shall be either an air waybill referred to as an “airline air waybill”, with preprinted issuing carrier identification, or an air waybill referred to as a “neutral air waybill” without preprinted identification of the issuing carrier in any form and used by other than an air carrier.

3. The issuing carrier is either:
3.1 in the case of an “airline air waybill”, the carrier whose form is used; or
3.2 in the case of a “neutral air waybill”, the carrier whose name, three-digit IATA airline code number, and air waybill serial number has been printed onto the document by the issuing agent or forwarder.

4. Neutral air waybills shall not be used except when completed by a computer system.

5. Proposals to amend the air waybill may be submitted to the Secretary, Cargo Services Conference at any time. Such proposals shall be circulated to all members of the Cargo Operations and Technology Board (COTB) for consideration and agreement.

6. If agreed, such proposals shall be circulated to all Members by Notice of Amendment in accordance with the procedures detailed in Resolution 601.

7. Amendments agreed to Attachment ‘A’ need not be put into effect until the time of next printing of the air waybill but in no event later than 18 months after the declaration of effectiveness of these amendments.

8. Air waybill completion examples in The Air Cargo Tariff and Rules (TACT), published separately shall be developed by the Secretariat in accordance with the procedures in Attachment ‘B’ hereto and current tariff rules.

* This Resolution is in the hands of all IATA Cargo Agents.

**ORIGINAL 3 (FOR SHIPPER)**
RESOLUTION 600a
Attachment ‘B’

COMPLETION, DISTRIBUTION AND TRANSMISSION OF THE AIR WAYBILL

1. GENERAL

1.1 The air waybill is a document which shall be either an air waybill referred to as an “airline air waybill”, with preprinted issuing carrier identification, or an air waybill referred to as a “neutral air waybill” without preprinted identification of the issuing carrier in any form and used by other than an air carrier.

1.2 The issuing carrier or its agent shall ensure that, upon execution of the air waybill, all necessary entries are made.

1.2.1 Any amendments (including additions) to information shown or required on the air waybill, made by any participating carrier subsequent to initial issue, must be made on all remaining copies of the air waybill and must properly identify the carrier making such amendments. Identification of the carrier must be placed as closely as possible to the item(s) amended without obliterating any other information. Such identification shall include the official IATA airline name or designator and the IATA location identifier of the airport or city to show the place where the amendments are made. Amendments to the air waybill amounts shall be in accordance with Resolution 612.

1.3 When a consignment is returned because of non-delivery, the new air waybill for the returning carriage shall have:

1.3.1 the original air waybill number inserted in the “Accounting Information” box;

1.3.2 all charges which should have been, but were not collected from the original consignee, inserted in the “Other Charges” box and the total inserted in the “Total Other Charges Due Carrier” box of the “Collect” column.

1.4 The issuing carrier shall not insert or permit insertion on the air waybill of any instruction that charges shown as to be collected from the consignee are to be collected from any person other than from the consignee; provided that this shall not prevent payment of such charges by such other person on behalf of the consignee to the collecting carrier.

1.5 In the case of a neutral air waybill, the party completing it on behalf of the issuing carrier shall first ensure that its use has been authorised by the issuing carrier.

2. COMPLETION OF THE AIR WAYBILL

The boxes on the face of the air waybill shall be completed correctly. See the IATA Air Waybill Handbook (Attachment ‘B’, Appendix ‘C’), published separately.

The boxes shaded and with title are for carrier’s use only.

The boxes shaded and without title shall not be used.

**Note 1:** MA code is used if the miscellaneous charge is due agent but cannot be further identified.

**Note 2:** MB code is used if the miscellaneous charge is either due agent or due carrier.

**Note 3:** MC code is used if the miscellaneous charge is due carrier but cannot be further identified.

To indicate whether such other charges accrue to carrier or agent, one of the following entitlement codes: A (due agent) or C (due carrier) shall be used following the above codes and preceding the amounts.
UNWEIGHTED MODULUS 7 APPLICATION ILLUSTRATION

The check digit shall be determined by using the unweighted Modulus 7 system, which divides the first seven digits of the serial number by seven and uses the remainder for verification and as the eighth digit.

The following example illustrates how to apply the unweighted Modulus 7 system to generate the check digit:

1) Assume the first seven digits of the serial number are ‘1234567’;
2) Divided 1234567 by 7;

\[
\begin{array}{ccccccc}
1 & 7 & 6 & 3 & 6 & 6 & 7 \\
7 & \\
7 & 5 & 3 & 4 & 9 & 4 & 4 \\
5 & 2 & 5 & 2 & 1 & 4 & 6 \\
2 & 1 & 4 & 2 & 4 & 7 & 4 & 2 \\
\end{array}
\]

3) Since ‘5’ is the remainder, therefore, ‘5’ will be assigned as the eighth digit, which is the check digit in the serial number.
4) The complete serial number shall read as ‘12345675’.
RESOLUTION 606*
BAR CODED LABEL

CBPP(08)606  Expiry: Indefinite
Type: B

RESOLVED that:

Section 1—General

1.1 For the carriage of cargo, identification label(s) in the form of a bar coded label may be used and attached to each package, adjacent to the consignee's name and address where space permits. In certain cases, more than one label may be required, such as when shipments have labels applied by different parties, e.g. shippers, forwarders, airlines, or when the amount of optional information does not fit onto the label stock in use.

1.2 For purposes of this Resolution, a bar coded label is one containing bar code(s). The label may be printed automatically on demand, or preprinted.

1.3 A bar code may be primary or secondary. A primary bar code is one which contains the master air waybill and piece number. Secondary bar codes contain other information and may also be included on the same, or separate, label(s).

1.4 Bar coded labels shall contain the following mandatory information:

1.4.1 airline name;
1.4.2 air waybill number;
1.4.3 destination;
1.4.4 primary bar code.

1.5 Bar coded labels may contain optional information; for example:

1.5.1 airline insignia;
1.5.2 transfer points;
1.5.3 piece number;
1.5.4 weight of this piece;
1.5.5 total number of pieces;
1.5.6 total weight of this shipment;
1.5.7 handling information;
1.5.8 house waybill number;
1.5.9 house waybill piece number;
1.5.10 origin;
1.5.11 total number of house waybill pieces;

1.5.12 total weight of house waybill pieces;
1.5.13 product name;
1.5.14 other information;
1.5.15 secondary bar code.

1.6 Bar coded label quality should be of a type with equal or better characteristics than commonly used in preprinted cargo labels. These specific characteristics include:

1.6.1 adhesion holding power;
1.6.2 service temperature range;
1.6.3 moisture resistance.

Section 2—Technical Specifications

2.1 The layout and minimum dimensions of bar code labels are defined in Attachments 'C' and 'D' of this Resolution.

2.2 Bar coded information shall be in accordance with Recommended Practice 1600t and as shown in Attachments 'A' and 'B' of this Resolution.

2.3 Notwithstanding the provisions of this Resolution, carriers and their customers who use the bar coded labels of different dimensions may continue to use them, provided the data encoding requirements specified in Attachments 'A' and 'B' of this Resolution are met.

Section 3—Completion

3.1 The circled numbers to the right of the titles below, correspond with the numbers in the boxes of the specimen label illustrated in Attachment 'C' of this Resolution.

3.2 Completion of the mandatory boxes on the labels shall be as shown below:

3.2.1 Airline Name

The airline name.

3.2.2 Air Waybill Number

**RESOLUTION 606**

Attachment ‘A’

**Primary Bar Code (Air Waybill/Piece Number Information)**

A primary bar code, of sixteen continuous numeric characters, in which the encoded data shall comprise the following fields:

- the three-digit numeric airline prefix;
- the eight-digit numeric air waybill number;
- a single digit separator (shall always be zero);
- a four-digit numeric unique piece number, indicating each individual piece in a multi-piece shipment. If this field is not used, it shall comprise four zeros;

**Note:** The bar code may have human readable translation of all digits in the field.

Examples:

a) air waybill 777-12345675, piece number 3: 7771234567500003

b) air waybill 777-76543213, piece number 122: 777654321300122

c) air waybill 777-32176546, pieces field not used: 7773217654600000

The primary bar code shall be printed on the cargo label as indicated in Attachments ‘C’ and ‘D’. There should be no box around the bar code in order to maximise reading efficiency.

The bar code shall be printed in Code 128 with a minimum width of the narrow bar (× dimension) of 0.5 mm (0.02 in). The bar code shall be printed vertically (picket fence) with a minimum bar height of 21.6 mm (0.85 in).

The bar code includes the following top and bottom quiet zones:

- Top quiet zone: minimum 2.54 mm (0.1 in)
- Bottom quiet zone: minimum 6.35 mm (0.25 in)

The side quiet zones shall be as specified in Recommended Practice 1600t.
RESOLUTION 606
Attachment ‘B’

Secondary Bar Code

Where more than one secondary bar code is printed on a label, the bar code containing the house waybill number shall be printed as the first of these secondary bar codes.

The secondary bar codes can be variable in length, depending on the fields used. One-character field identifiers will be used as specified below. Printing characteristics of the secondary bar code, including narrow bar dimensions, quiet zones and optical characteristics, shall be the same as specified for the primary bar code. The industry standard (AIM) check digit will be the last character in the bar coded string of data.

Symbology

The secondary bar code shall be printed using CODE 128 and using the standard described in Recommended Practice 1600.

Specifications

Field Identifier

The field identifier shall consist of a single alpha character as defined below:

Field Delimiter

The delimiter shall be the Plus Sign (+).

Remarks: A, W and T fields to include K or L as the last character to denote kilograms or pounds.

Bar Code Format

The format shall consist of the field identifier immediately followed by the field data. The field delimiter immediately follows. This sequence is repeated until all data is encoded. The industry standard (AIM) check digit will be the last character in the bar coded string of data. As with the primary bar code, the check digit will not be printed in human-readable format. There is no continuation character. If the amount of data to be coded is too great to fit on the label in one secondary bar code, then another bar code must be used. Each bar code will contain complete information for the data fields specified by the field identifier.

Examples:

a) HWB No.: CHZH8-1234567
b) Destination: ABY, Number of HWB Pieces: 99.

This data will not fit onto a 4 in (102 mm) label, so two bar codes are used. The data strings are formatted as follows:

Bar Code No. 1
HCHZH81234567
Bar Code No. 2
DABY+S0999

RESOLUTION 606a*
NON-BAR CODED LABEL

CSC(21)606a
Expiry: Indefinite
Type: B

RESOLVED that:

Section 1—General

1.1 For the carriage of cargo, unless a bar coded label in accordance with Resolution 606 is used, identification label(s) in the form of a non-bar coded label shall be used and attached to each package, adjacent to the consignee’s name and address where space permits.

In certain cases, more than one label may be required, such as when shipments have labels applied by different parties, e.g. shippers, forwarders, airlines, or when the amount of optional information does not fit onto the label stock in use. For example, a forwarder may add a label containing house waybill information, and a second label, containing air waybill information, may be subsequently added on shipment consolidation.

1.2 For the purposes of this Resolution, a non-bar coded label is one which does not contain bar codes. The label may be preprinted and completed manually, but in some cases may be printed automatically on demand.

1.3 Notwithstanding 1.1, the label need not be used for online carriage of cargo.

1.4 Labels shall contain the following mandatory information:

1.4.1 airline name;
1.4.2 air waybill number;
1.4.3 destination;
1.4.4 total number of pieces.

1.5 Labels may contain optional information; for example:

1.5.1 airline insignia;
1.5.2 transfer points;
1.5.3 piece number;
1.5.4 weight of this piece;
1.5.5 total weight of this shipment;
1.5.6 house waybill number;
1.5.7 house waybill piece number;
1.5.8 handling information;
1.5.9 origin;
1.5.10 total number of house waybill pieces;
1.5.11 total weight of house waybill pieces;
1.5.12 product name;
1.5.13 other information which may be added at the user’s discretion.

1.6 Label quality should be of a type with equal or better characteristics than commonly used in preprinted cargo labels. These specific characteristics include:

1.6.1 adhesion holding power;
1.6.2 service temperature range;
1.6.3 moisture resistance.

Section 2—Technical Specifications

2.1 A specimen label, showing the location and labeling of the various boxes, is shown in Attachment ‘A’ of this Resolution.

2.2 The dimensions of the label and information entered shall be as follows:

2.2.1 the minimum dimensions of individual boxes shall be 76 mm in width and 20 mm in height;
2.2.2 where two boxes are shown horizontally alongside each other, they may be less than 76 mm but at least 38 mm in width;
2.2.3 the minimum height of the information entered in the boxes shall be 5 mm.

Section 3—Completion

3.1 The circled numbers to the right of the titles below, correspond with the numbers in the boxes of the specimen label illustrated in Attachment ‘B’ of this Resolution.

3.2 The completion of the mandatory boxes on the label shall be as shown below:

3.2.1 Airline Name
The airline name.

3.2.2 Air Waybill Number
The air waybill number of the shipment. The serial number may be shown as two groups of four digits.

3.2.3 Destination

3.3 When used, completion of the optional information on the labels shall be as follows:

3.3.1 Airline Insignia

3.3.3 Piece Number
The air waybill piece number.

3.3.4 Weight of this Piece
The weight of the specific package to which the label is attached, together with the unit of weight (K or L).

3.3.5 Total Weight of this Shipment
The total weight of the shipment, together with the unit of weight (K or L).

3.3.6 Handling Information
Any information which pertains to the handling of the shipment.

3.3.7 HWB No.
The house waybill (HWB) number.

3.3.8 HWB Piece No.
The house waybill (HWB) piece number.

3.3.9 Origin
The IATA three-letter code of the airport of origin. When the airport code is unknown or the city is served by more than one airport the IATA three-letter city code may be used.

INSTRUCTIONS FOR COMPLETION

Data ID—organise data by logical, related groups and enter either:

an upper case letter to identify the data group;

or a sequential number for each data element.

Data Description—enter a concise, meaningful description of the data group or the data element.

Form—enter the character type (a–alpha, n–numeric, an–alphanumeric, d–decimal, t–text) for the data element and the number, or minimum/maximum range, e.g. 4…8, of characters.

Status—enter one of the following statuses for the data group or data element:

M—mandatory (must be included);

C—conditional (must be included if the indicated condition is met);

O—optional (may be included).

The status of the data element is relevant to the status of the data group. For example, within an optional data group, the condition for a conditional data element only applies if the optional data group is included.

For EDIFACT messages, only mandatory and conditional statuses apply.

Condition—if the status of the data group or element is “C”, enter the condition for the inclusion of the data group or data element. The condition must be related strictly to the existence, or non-existence, of other data within the message.

Note—if further explanation for a data group or data element is required, enter a sequential reference number and include the explanatory note on a separate sheet of paper.

Repeat Information—if multiple occurrences of data are allowed, complete this as follows:

Data—enter the Data ID, or range of Data IDs, of the data group(s) or data element(s) that can be repeated;

Times—enter the number of times the data can be repeated. If unlimited occurrences are allowed, enter “U”;

Within—for data repetition within a data group or within another data repetition range, enter the Data ID, or range of Data IDs, of the data group(s).

CAC2(34)801a (amended) CSPC(21)1600t Expiry: Indefinite
CAC3(34)801a (amended) Type: B

RESOLVED that, the following form of Cargo Agency Agreement (version II) is adopted, with an implementation date to be decided by the Cargo Agency Conference:

CARGO AGENCY AGREEMENT

AN AGREEMENT made this ... day of ... 20 ... BETWEEN each IATA Member (hereinafter called ‘Carrier’) which thereafter appoints the Agent as provided in the Cargo Agency Rules, represented by the Director General of IATA or his authorised representative acting for and on behalf of such IATA Members AND .... having its principal office at ..... (hereinafter called ‘the Agent’) with respect to the promotion and sale of international air cargo transportation (hereinafter referred to as ‘air cargo transportation’) within ... (specific country of the Agent) (hereinafter called the Specified Country) and the handling and delivery to Carriers of cargo consignments within the Specified Country and at the following airport(s) in (a) country(ies) immediately adjacent to the Specified Country ..........

WHEREBY IT IS AGREED AS FOLLOWS:

1. Effectiveness

This Agreement shall become effective between the Agent and a Carrier upon appointment of the Agent by such Carrier in accordance with the Cargo Agency Rules in effect in all countries except USA. A Carrier may appoint the Agent by means of individual appointment or by general concurrence. Upon coming into effect this Agreement, including any amendments thereto, shall have the same force and effect between the Carrier and the Agent as though they were both named herein and had both subscribed their names as parties hereto.

2. Rules, Resolutions and Provisions Incorporated in Agreement

2.1(a) the terms and conditions governing the relationship between the Carrier and the Agent are set forth in the Resolutions (and other provisions derived therefrom) contained in the Cargo Agent’s Handbook (‘the Handbook’) as published from time to time under the authority of the Agency Administrator and attached to this Agreement. The Handbook incorporates:
2.1(a)(i) the Cargo Agency Rules,
2.1(a)(ii) other applicable IATA Resolutions.
2.1(b) Such Rules, Resolutions and other provisions as amended from time to time are deemed to be incorporated in this Agreement and made part hereof and the
Carrier and the Agent agree to comply with them. Any amendment to such Rules and Resolutions shall be subject to a consultative process which forms part of the machinery used to amend such Rules and Resolutions and is described in the Handbook;

2.2 the Agent acknowledges that it has received a copy of the current edition of the Handbook and has acquainted itself with the contents thereof;

2.3 the Agency Administrator shall provide the Agent with subsequent editions of the Handbook and all amendments thereto. The Agent shall be notified of any amendments to the contents of the Handbook and such amendments shall be deemed to be incorporated herein;

2.4 the terms and expressions used in this Agreement shall, unless the context otherwise requires, have the meanings respectively provided for in the Cargo Agency Rules. In the event of any conflict, contradiction or inconsistency between any provisions with which the Agent is required to comply under Subparagraph 2.1 this Paragraph, and any of the provisions of this Agreement, the provisions of this Agreement shall prevail.

3. Scope of Agent's Authority

3.1 the authority of the Agent to represent the Carrier shall be specifically limited to the authority expressly granted by this Agreement;

3.2 subject to the provisions of this Agreement, the Agent shall represent the Carrier in the sale of air cargo transportation other than mail over the services of the Carrier and, when authorised by the Carrier, over the services of other air carriers with which the Carrier has an interline agreement;

3.3 with respect to the Carrier’s aircraft or route by which any consignment is to be transported and as to any service to be furnished by the Carrier, the Agent shall make only such representations as are authorised in this Agreement or may thereafter be authorised by the Carrier;

3.4 when the Agent consolidates goods and delivers them in one consignment to the Carrier ready for carriage on behalf of a number of shippers or Agents, the provisions of this Agreement shall apply only in respect of the Air Waybill issued in the name of the Carrier and which covers the consolidated consignment.

4. Observance of Laws and Regulations

the Agent shall observe all Government laws and regulations applicable to the sale of air cargo transportation, or to any other acts performed by the Agent under this Agreement.

5. General Provisions

5.1 the Agent undertakes that the sale of air cargo transportation and handling of consignments performed under this Agreement by the Agent or by its officers or employees shall be in strict compliance with the rates, rules and conditions applicable to such transportation as published in the Carrier’s Conditions of Carriage or in its tariffs, timetables, notices, instructions and elsewhere unless otherwise agreed between the Carrier and the Agent. The Carrier shall furnish the Agent with the necessary information;

5.3 the Agent shall adhere to security control measures as prescribed by the responsible authority(ies), and shall also adhere to any other such measures that may be required under IATA Resolutions and are stipulated in the Handbook;

5.4 the Agent shall not in any manner vary or modify the terms and conditions set forth in any documents and instructions of the Carrier;

5.6 the Agent shall ensure that consignments are delivered to the Carrier at any Airport designated by the Carrier and, when authorised by the Carrier, over the services of other air carriers with which the Carrier has an interline agreement;

5.7 if the Agent accepts goods for carriage by air and, when the Agent consolidates goods and delivers them in one consignment to the Carrier ready for carriage on behalf of a number of shippers or Agents, the provisions of this Agreement shall apply only in respect of the Air Waybill issued in the name of the Carrier and which covers the consolidated consignment.

5.8 the Agent shall maintain adequate insurance where available to cover its liability under this Agreement for loss of or damage to shippers' cargo;

5.9 the Agent shall not accept for delivery to the Carrier a consignment consisting of or containing a commodity classified as dangerous goods according to the current edition of the IATA Dangerous Goods Regulations without a certificate in the IATA agreed form signed by the shipper stating that the commodity is properly described by name and is packed, marked and labelled and is in proper condition for carriage by air according to the IATA Dangerous Goods Regulations. The Agent or the staff employed by the Agent may sign such declaration if he has been authorised by the shipper to act on his behalf to undertake shipper's responsibilities in the preparation, packing, marking and labeling of the consignment and has been trained as required in subsection 1.5 of the applicable IATA Dangerous Goods Regulations.

6. Agency Designation

6.1 the Agent may represent itself on letterheads, advertising, telephone listings and classifications, office signs, and otherwise as an ‘Agent’ or ‘Cargo Agent’ representing the Carrier, but shall not use any other designation which would indicate or imply in any way that its office is an office of a Member;

8. Custody and Execution of Air Waybills

8.1 Air Waybills shall be executed by the Agent only in such country for which the Agent is duly registered with IATA and appears on the Cargo Agency List. The Carrier shall, upon presentation of any such Air Waybills, properly executed by the Agent hereunder, and upon surrender of the Carrier’s copies of such Air Waybills, accept the consignments therein described for air cargo transportation by the Carrier;

8.2 the Agent shall be responsible for the safe custody and care of Air Waybills and Air Waybill serial numbers supplied to the Agent for use in an electronic environment which it may use to cover transportation under this Agreement while they are in its possession and shall be responsible to the Carrier for any damage, loss or expenses suffered by the Carrier as a result of the use or misuse of such Air Waybills or Air Waybill serial numbers by the agent;

8.3 the Carrier's Air Waybills supplied to the Agent and Air Waybill serial numbers supplied to the Agent for use in an electronic environment are and remain the sole property of the Carrier during the period that they are in the custody of the Agent, and the Agent acknowledges and agrees that it has no proprietary right to such documents or Air Waybill serial numbers. The Carrier may at any time at its sole discretion require that the Agent return such documents, and the Agent agrees to surrender these documents forthwith to the Carrier; furthermore, the Carrier may, at any time at its sole discretion, require the Agent to cease and desist from issuing Neutral Air Waybills in the Carrier's name;

8.4 the Agent shall not execute Air Waybills supplied by the Carrier in connection with the sale of air cargo transportation offered by any other air carrier unless the Carrier has so authorised the Agent in writing;

8.5 the Agent shall not execute the Air Waybill until the complete consignment has been received by the Agent.

9. Monies Due by Agents to Members—Remittance

9.1/9.1.1 the Agent shall be responsible for the payment of any and all monies due to the Carrier under this Agreement resulting from the issuance of any transportation documents in the name of the Carrier and/or from the sale of any ancillary services under this agreement;

9.1.2 the responsibility for payment pursuant to Subparagraph 9.1.2 shall apply whether or not such monies have been collected by the Agent;

9.2/9.2.1 such monies, including applicable commission which the Agent is entitled to claim thereunder, are and remain the property of the Carrier;

9.2.2 such monies shall be held by the Agent in trust for the Carrier or on behalf of the Carrier until satisfactorily accounted for to the Carrier and settlement made in accordance with the Cargo Agency Rules, even though, pursuant to such Rules, the Agent may have been authorised to retain temporary custody of such monies;

9.2.3 the Carrier may, subject to applicable currency regulations, designate the currencies in which remittances are to be made. Unless otherwise instructed by the Carrier, the Agent shall be entitled to deduct from remittances the applicable commission to which it is entitled hereunder.

10. Settlement

10.1 the Agent shall remit to the Carrier such monies at such times and under such conditions as the Carrier may designate from time to time, in writing, in accordance with the provisions of the Cargo Agency Rules;

10.2 in the event that the Agent is declared bankrupt, placed in receivership or judicial administration, goes into liquidation, or becomes subject to a similar legal procedure affecting the normal operation of the Agent, all monies due in connection with this Agreement shall be settled immediately.

11. Refunds

the Agent shall make refund only on written instructions of the Carrier and against the receipt of the person authorised to receive the refund in accordance with the tariffs, rules, regulations and instructions issued by the Carrier, and shall not assess or withhold from the refund payee any amount as a service charge or otherwise.

12. Remuneration

the Carrier shall remunerate the Agent for services rendered under this Agreement, in a manner and amount as stated from time to time and communicated to the Agent by the Carrier.

13. Transfer, Assignment, Change of Legal Status, Ownership, Name or Address

13.2 in the event that the Agent proposes to effect any change(s) in the legal status, ownership, name and/or address (within the meaning of these expressions as
used in the Cargo Agency Rules) the Agent undertakes to comply with the detailed procedures as set forth in Section 5 of those Rules.

14. Termination

14.1 this Agreement may be terminated without prejudice to fulfilment by each party of all obligations accrued prior to the date of termination:

14.1.1 as between the Agent and the Carrier, at any time but not less than 15 days notice in writing by either party to the other;

14.1.2 as between the Agent and all the Carriers:

14.1.2(a) by notice in writing from the Agent to the Agency Administrator to take effect immediately on its receipt, or on such later date as may be stated in the notice;

14.1.2(b) pursuant to a decision of the Agency Commissioner, the Agency Administrator or an Arbitration Board in accordance with the Cargo Agency Rules, by notice in writing given to the Agent by the Agency Administrator acting on behalf of the Carriers, to take effect in accordance with the Cargo Agency Rules;

14.2 upon termination of the Agreement, the Agent shall immediately return all unused Air Waybills held by the Agent and effect immediate settlement of all monies due and payable under the terms of this Agreement substantiated by complete and satisfactory accounting therefor. The Agent shall be liable for any loss or damage suffered by the Carrier arising out of the loss or misuse by the Agent of such Air Waybills, or the misuse by the Agent of any Air Waybill serial numbers supplied to the Agent for use in an electronic environment, which were in the possession of the Agent at the termination of the Agreement and were not duly returned.

15. Arbitration

if any matter is reviewed by arbitration pursuant to the Cargo Agency Rules, the Agent hereby submits to arbitration in accordance with such Rules and agrees to observe the procedures therein provided and to abide by any arbitration award made thereunder.

16. Indemnities and Waiver

16.1 the Carrier agrees to indemnify and hold harmless the Agent, its officers and employees from liability for any injury, loss or damage arising in the course of transportation or other ancillary services provided by the Carrier pursuant to a sale made by the Agent hereunder or arising from the failure of the Carrier to provide such transportation or services, except to the extent that such injury, loss or damage is caused or contributed to by the Carrier, its officers or employees;

16.2 the Agent agrees to indemnify and hold harmless the Carrier, its officers and employees from liability for any loss, injury, or damage arising from any negligent act or omission of the Agent, its officers or employees, in performing or in breach of this Agreement, except to the extent that such injury, loss or damage is caused or contributed to by the Carrier, its officers or employees;

16.3 the Agent recognises that the Carrier, other Members of IATA, the Director General, the Agency Administrator, the Agency Commissioner and the CASS Management are required under the Cargo Agency Rules to issue notices, give directions, and take other action under those Rules, including in the circumstances therein provided giving notices of irregularity and default, notices of alleged violations, and notices of grounds for removing an Agent from the Cargo Agency List or for reprimanding an Agent. The Agent hereby waives any and all claims and causes of action against the Carrier, other Members of IATA, and IATA, and against any of their officers and employees for any loss, injury or damage (including damages for libel, slander, or defamation of character) arising from any act done or omitted in good faith in connection with the performance of any of their duties or functions under the Cargo Agency Rules and indemnifies them against any such claims by the Agent's officers or employees.

RESOLUTION 801r

REPORTING AND REMITTANCE PROCEDURES

CAC(Mail Vote C071)801r (except USA) (amended) Type: B

CAC(Mail Vote C071)801r (amended)

WHEREAS the Cargo Agency Rules (Resolutions 801, 803, 805, 807, 809 and 813, as applicable) provide in their respective Sections on reporting and remitting procedures, defaults and related matters, both under the Cargo Accounts Settlement System (CASS) and outside the CASS; (Sections 6, 7 and 8 or 7, 8 and 9 as applicable), and

WHEREAS the Conference wishes to deal with the aforesaid matters in a single Resolution and thus ensure that notwithstanding variations in the Cargo Agency Rules, the rules governing these matters shall be applied in a consistent manner, it is

RESOLVED that the following Procedures are adopted and shall be applied in conjunction with the applicable Cargo Agency Rules.
Section 1—Collection of Funds; Irregularities and Default (other than under Cargo Accounts Settlement System—CASS-Export) (except Australia)

This Section applies to all Agents except that in the country/area of a CASS-Export it shall apply to Agents in that country/area solely with respect to sales made on behalf of Members not participating in such CASS-Export.

1.1 WHEN MONIES DEEMED DUE

Monies payable at origin shall be deemed due by an Agent to a Member when the Air Waybill is executed and shall be settled in accordance with the provisions of this Section; provided that in the event the Agent is declared bankrupt, placed in receivership or judicial administration, goes into liquidation or becomes subject to any other similar legal procedure affecting its normal operation, immediate settlement shall be made of all such monies;

1.2 REPORTING BASIS

1.2.1 an appointing Member may require an Agent to submit sales reports. Such sales reports shall include all supporting documents including copies of all issued Air Waybills;

1.2.2 Areas 1 and 3

Agents which are required by the appointing Member to submit sales reports, shall render sales reports and remit any monies due (or if no transactions took place, submit a ‘no sales’ report) not less than twice each month. One such sales report shall include all transactions in respect of which Air Waybills were issued during the period from the first to the 15th day of the month, and the other such sales report shall include all such transactions during the period from the 16th to the last day of the month:

1.2.2.1 The Agent shall send the remittances as well as the sales report and all supporting documents so as to reach the Member not later than 30 days (15 days in Pakistan) after the end of the period covered by the report (‘the reporting period’). The date on which monies shall be remitted shall be called ‘the remittance date’.

1.2.3 Area 2 only (except countries where Resolution 801 is applicable)

Agents which are required by the appointing Member to submit sales reports, shall render sales reports and remit any monies due (or if no transactions took place, submit a written ‘no sales’ report) so as to reach the Member not later than 30 days after the end of the calendar month, (the reporting period), in which the Air Waybill was issued by the Agent. The date on which monies shall be remitted shall be called ‘the remittance date’;

1.2.4 notwithstanding anything in Subparagraph 1.2.2 or 1.2.3 of this Paragraph, with respect to its own reports and/or remittances, a Member may establish a greater frequency than that prescribed herein, in which case such Member may elect to use the shorter period which results as a basis for determining the Agent’s irregularities pursuant to Paragraph 1.6 of this Section.

1.3 BILLING BASIS

1.3.1 Agents which are not required by the appointing Member to submit sales reports, shall be billed by the Member within a reasonable time (in countries in which Resolution 805 has been implemented, not later than the 20th day) after the end of the calendar month in which the Air Waybill or other transportation document was accepted by the Member (the billing period). Remittances shall be made by the Agent to reach the Member not later than 30 days (15 days in Pakistan) after the end of the billing period. Such date shall be called the remittance date;

1.3.2 Notwithstanding anything in Subparagraph 1.3.1 of this Paragraph, with respect to its own billings and/or remittances, a Member may establish a greater frequency than that prescribed herein, in which case such Member may elect to use the shorter period which results as a basis for determining the Agent’s irregularities pursuant to Paragraph 1.6 of this Section.

1.4 STANDARD FORMS

1.4.1 The billing of each Member which bills an Agent in accordance with Paragraph 1.3 hereof shall be in the form of the Cargo Sales Invoice/Adjustment prescribed in Attachment ‘A’ or Attachment ‘B’ hereto as appropriate;

1.4.2 each Member which requires an Agent to submit a sales report in accordance with Paragraph 1.2 of this Section shall require such sales report to be in the form of the Cargo Sales Invoice/Adjustment prescribed in Attachment ‘A’ or Attachment ‘B’ hereto as appropriate;

1.4.3 where a Member, a CASS Settlement Office acting on behalf of a Member or an Agent uses electronic means to prepare billings or sales reports pursuant to this Section, the headings and general column layout of Cargo Sales Invoice/Adjustment forms prepared in such manner shall be in conformity with the format prescribed in Attachment ‘A’ or Attachment ‘B’ hereto as appropriate;

1.4.4 charges due Agent entered on an Air Waybill in accordance with Resolution 600a to be collected by a Member on behalf of an Agent shall be settled with the Agent by offsetting the charges due Agent against the other charges due on the Cargo Sales Invoice/Adjustment form on that Air Waybill is reported or billed.

1.5 REMITTANCE DATE AND FREQUENCY IN THE COUNTRY/AREA OF CASS-EXPORT

11.3.1(c) Upon receipt of documentation from the agent and IATA, and prior to holding the hearing, the Arbitrator(s) may require the agent and IATA to post certified cheques in an amount determined by the Arbitrator(s), in US dollars or the acceptable equivalent, to cover the estimated costs of the arbitration. Upon notification of the Board’s award, any monies so posted, and in excess of the arbitration costs shall be refunded to one or other or both parties, as appropriate;

11.3.1.2 Within 20 days of receipt by the agency administrator of the form of Request for Arbitration, completed by the agent, electing arbitration before a three-member Board together with a certified cheque or bank’s draft, the agency administrator shall nominate an arbitrator and the two arbitrators so nominated shall nominate a third who shall act as chairman of the Arbitration Board. If the third arbitrator has not been so nominated within 20 days after the nomination of the second arbitrator, the agency administrator shall request the President of the International Chamber of Commerce to nominate the third arbitrator;

11.3.1.3 The expression ‘Arbitration Board’ shall mean a sole arbitrator or a three-member Arbitration Board nominated pursuant to Subparagraphs 11.3.1.1 and 11.3.1.2 of this Paragraph.

11.3.2 In the event of the resignation or incapacity of an arbitrator, the persons appointing such arbitrator shall, within 30 days of the date when the agency administrator is notified of such resignation or incapacity, appoint a substitute.

11.4 CONDUCT OF PROCEEDINGS

11.4.1 The Arbitration Board shall hold the hearing in the country where the agent is registered or for which the application for registration was made, as applicable, and within 1,000 kilometres of the agent’s address, unless otherwise agreed by the agent and the agency administrator;

11.4.2 The Arbitration Board shall publish its award in writing not later than 60 days after appointment of the chairman or of the sole arbitrator, provided that this period may be extended by or with the agreement of the agent and the agency administrator. If the Arbitration Board does not publish its award in writing within such period of 60 days, or within such extended period agreed by the agent and the agency administrator, the Arbitration Board shall be deemed discharged without remuneration and the agency administrator shall request the President of the International Chamber of Commerce to appoint a sole arbitrator or another sole arbitrator (in place of the sole arbitrator discharged) who shall proceed in accordance with the provisions of Subparagraph 11.4.1 of this Paragraph and Paragraph 11.6 of this Section and shall publish his written award within 45 days of the date of his appointment;

11.4.3 The Arbitration Board shall reach its decision by a majority;

11.4.4 The Arbitration Board shall permit the parties to be heard either in person or by a representative and shall receive any relevant or material probative evidence bearing on the matter referred to it;

11.4.5 In all other respects the Arbitration Board shall settle its own procedures.
11.5 SCOPE OF REVIEW

11.5.1 review by the Arbitration Board shall be appellate and not de novo. The Board shall affirm the decision under review unless it finds and concludes that such decision is deficient in one or more of the following respects:

11.5.1.1 it is not supported by substantial evidence;
11.5.1.2 it contains error of applicable law;
11.5.1.3 it is arbitrary or capricious;
11.5.1.4 it is not in accordance with the terms of the Resolution under which it was taken;
11.5.1.5 the penalty is inappropriate, inadequate or excessive;
11.5.2 additionally, evidence may be considered which is available to the Arbitration Board but which for good cause could not be presented to the Commissioner.

11.6 AWARD

11.6.1 in the event the Arbitration Board does not affirm the decision under review, it shall either direct action upon the Agent in accordance with the Board's findings, or refer the matter to the Commissioner for action consistent with the Board's decision;

11.6.2 the Arbitration Board shall direct that costs of the Arbitration Board shall be borne by the Agent if the decision under review is affirmed, shall be borne by IATA if the Commissioner's decision is reversed, or shall be apportioned between the Agent and IATA in such manner as the Arbitration Board shall decide if the decision is modified. Nevertheless, if there are special circumstances warranting a different award as to such costs, the Arbitration Board shall be empowered to direct that they be borne by the parties in such manner as it considers equitable. Costs of legal representation shall be borne by the party incurring such costs.

11.7 EFFECT AND EFFECTIVE DATE OF THE AWARD

11.7.1 the award of the Arbitration Board shall be final and conclusively binding on the Agent, IATA and all Airlines and shall be complied with in accordance with its terms;

11.7.2 the Agency Administrator shall notify the Agent, all Airlines and ISS Management of the award of the Arbitration Board, which shall take effect, unless the Arbitration Board directs otherwise, from a date the Agency Administrator shall specify in advance;

11.7.3 if the award requires the Agent to pay the costs of the Arbitration Board in whole or in part and the Agent has not paid such costs within 60 days of the date of notice given under Subparagraph 11.7.2 of this Paragraph, the Agency Administrator shall remove the Agent from the Cargo Agency List.

Section 12—Agency Fees

12.1 TYPES OF FEES

12.1.1 the following agency fees, in the amounts determined by the Conference in consultation with the Director General, shall be payable:

12.1.1.1 a non-refundable application fee for each country of registration and for each named airport, if any, in each country adjacent to the country of registration,
12.1.1.2 a registration fee for each country of registration and for each named airport, if any, in each country adjacent to the country of registration,
12.1.1.3 an annual agency fee for each country of registration and for each named airport, if any, in each country adjacent to the country of registration,
12.1.1.4 a fee for processing changes of ownership, name or address;
12.1.2 no application for entry as an Agent on the Cargo Agency List shall be considered unless the application fee, the registration fee and the first annual agency fee have been received. If the application is rejected, the registration and annual fees shall be returned to the applicant.

12.2 FIRST ANNUAL AGENCY FEE

the first annual agency fee shall be charged for the current year.

12.3 INVOICING

except in respect of the first assessment upon application, annual agency fees for each calendar year shall be paid not later than 1 December of the preceding year in accordance with the instructions of the Agency Administrator. Invoices for such fees shall be sent out by the Agency Administrator not later than 1 November of each year. The Agency Administrator may apply a monetary penalty to those Agents which fail to make timely payment of the annual fee.

12.4 NON-PAYMENT OF ANNUAL FEES

12.4.1 if any Agent fails to pay the annual agency fee by 1 December, the Director General shall promptly notify the Agent in writing that its Cargo Agency Agreement will be terminated if such fee is not received by 31 December. In the event of failure to make payment by such date, or to place in the hands of the Agency Administrator by such date acceptable evidence that the required legal authority for such payment has been sought but has not yet been received, the Director General shall promptly transmit to such Agent formal notice of termination, and the Agency Administrator shall remove such Agent's name from the Cargo Agency List, and notify all Members. Thereafter all Members which have appointed such Agent shall immediately terminate their agreement with such Agent;
12.4.2 notwithstanding anything to the contrary, where an Agent has been removed from the Cargo Agency List pursuant to Subparagraph 12.4.1 above, the Agency Administrator, upon receipt of such overdue fee from the Agent by 1 March following the 1 December due date, shall reinstate such Agent on the Cargo Agency List, provided he is satisfied that such late payment was caused by events beyond the Agent’s control. Where payment is received after 1 March the Agency Administrator, provided he is satisfied that such late payment was caused by events beyond the Agent’s control, may at his discretion reinstate such Agent on the Cargo Agency List. In either event, such Agent shall execute a new Cargo Agency Agreement, and may be required to pay a new application fee and/or registration fee at the discretion of the Agency Administrator, and shall then be reinstated on the Cargo Agency List; 

12.4.3 termination for failure to pay an annual agency fee shall not be arbitrable by the Agent.

12.5 USE OF AGENCY FEES

Agency fees collected by the Agency Administrator on behalf of IATA will be expended by the Director General, in accordance with directives given by the Board of Governors of IATA, to administer the IATA Agency Programme.

Notwithstanding the above, an annual amount of USD15 per each IATA Accredited cargo agent shall be provided to FIATA/AFI for the purpose of supporting the global IATA/FIATA dialogue process.

LATIN AMERICAN AIR CARGO PROGRAMME RULES

CAC1(41)813zz (except USA) Expiry: Indefinite (amended) Type: B

WHEREAS it is recognized that the relationship between Airlines, Agents and Forwarders within the cargo industry has significantly evolved since the creation of the original IATA Cargo Agency Programme.

WHEREAS the cargo industry recognizes the particular changing needs and circumstances evolving in the Latin American Area, (comprising all Latin American countries of the Latin American region so added to this programme by request to and authorized by the Conference.

WHEREAS it is recognized that Forwarders and Agents (collectively “Intermediaries”) and Airlines work together to provide a seamless, on-demand choice of products and services which enables shippers and producers to freely move cargo from and throughout such Latin American Area.

WHEREAS it is recognized the need to accommodate, (i) the transactions of an Intermediary acting as the agent of the airline and (ii) those transactions flowing from an Intermediary acting in the capacity as an air freight forwarder, dealing directly with the shipper.

WHEREAS it is recognized that, in the course of everyday business, an Intermediary may routinely handle both types of transactions in its relationship with Airlines.

WHEREAS it is acknowledged, by Airlines and Intermediaries alike, that an industry distribution system provides significant efficiencies and valuable standards that benefit all participants and their customers.

1. IT IS RESOLVED THAT:

1.1 The Latin American Air Cargo Programme (LAACP), covering cargo intermediary accreditation, is hereby established by the Cargo Agency Conference, to be implemented wherever there is a CASS in the Latin American region, directed jointly, as hereinafter provided, by representatives of IATA Member airlines and representatives of air freight forwarders and administered by IATA;

1.2 the LAACP seeks to secure the aims outlined in the Preamble;

1.3 each IATA Member airline shall automatically become a participant in the LAACP, once implemented, unless any Member officially notifies IATA to the contrary. Upon implementation of the LAACP, the IATA Cargo Agency Programme shall simultaneously be discontinued in the area of application;

1.4 all IATA Cargo Agents in the area covered by this Resolution automatically qualify to join the LAACP, and do so by executing the LAACP Cargo Intermediary Agreement with IATA Member airlines. That Agreement is in the form set out in Attachment ‘A’ to this Resolution. Upon execution of the Agreement, the signatory entity will be designated an IATA Cargo Intermediary;

1.5 an Agent that does not elect to join LAACP shall cease to be an IATA Cargo Agent in the area covered by this Resolution, as of the implementation date of the LAACP;

1.6 a freight forwarder who is not an IATA Cargo Agent and who wishes to become an IATA Cargo Intermediary may apply to be so designated, in accordance with the procedures and requirements set out in the LAACP Handbook, as amended from time to time by the Latin American Air Cargo Programme Joint Council (‘the Joint Council’), by executing the Cargo Intermediary Agreement.

2. LATIN AMERICAN AIR CARGO PROGRAMME—JOINT COUNCIL (‘THE JOINT COUNCIL’)

CARGO INTERMEDIARY AGREEMENT

RESOLVED that, the following form of Cargo Intermediary Agreement is adopted for use by participants in the Indian Air Cargo Programme, with an implementation date to be announced by the Agency Administrator:

LATIN AMERICAN AIR CARGO PROGRAMME—FORM OF INTERMEDIARY AGREEMENT

AN AGREEMENT made this ______________ day of __________________, 20__

BETWEEN each IATA Member airline (‘the Carrier’), represented by the Director General of IATA (‘the Director General’) acting for and on behalf of the Carrier,

AND ______________________ (‘the Agent’ in Part I, ‘the Forwarder’ in Part II, and ‘the Intermediary’ in Part III of this Agreement), having its principal office at ______________ with respect to the promotion of global logistic services, the sale of international air cargo transportation (‘airfreight’) and/or the handling and delivery to the Carrier of cargo consignments.

WHEREAS:

The commercial environment in which both cargo agents and freight forwarders operate in Latin America is one that requires an agreement form reflecting an increased role for freight forwarders;

the Parties recognise the need for an agreement that reflects the characteristics of the Latin America air cargo market;

the Carrier and the Intermediary (sometimes jointly called ‘the Parties’) undertake to give a high priority to applying electronic commerce in accordance with IATA standards and procedures. Such electronic commerce will facilitate the identification of consignments, and the tracking, tracing and settlement requirements of the Parties and accelerate the introduction of necessary procedures with other competent entities to the benefit of the mutual customers;

the Director General has provided the Parties with a copy of the LAACP Handbook (herein after called ‘the Handbook’). It contains the rules, regulations, IATA Conference Resolutions, instructions and procedures applicable to the Parties’ actions under the present Agreement. Amendments to the Handbook shall be provided to the Parties. The date of effect of such amendments shall be determined by the Joint Council, but not earlier than 30 days after their despatch from IATA. The amendments shall be deemed to be incorporated herein. The provisions of the Resolutions, and other material as determined by the Joint Council, contained in the Handbook are binding upon the Parties and each current release of the Handbook shall be incorporated by reference into this Agreement and forms an integral part of this Agreement;

the Parties acknowledge that they have received a copy of the current edition of the Handbook and have acquainted themselves with the contents thereof;

this Agreement does not prevent either of the Parties from using other distribution channels or methods, either with carriers or intermediaries or with shippers directly and does not purport to impose exclusivity of dealings on the Parties.

WHEREBY IT IS AGREED AS FOLLOWS:

Definitions of Terms used in this Agreement

Air Waybill: the document of carriage as defined in Resolution 823. For the purpose of this agreement, references to Air Waybill shall also include electronic shipment record.

Latin American Air Cargo Programme (‘LAACP’): the Latin American air cargo distribution system managed by IATA in support of the present Agreement.

Latin American Air Cargo Programme Directory (‘the Directory’): is the official list of all Intermediaries participating in the LAACP.

Latin American Air Cargo Programme Joint Council (‘Joint Council’): is the body composed of airline and airfreight forwarder nominees, charged with the overall responsibility for running the LAACP, pursuant to IATA CAC Resolution 813zz.

Latin American Air Cargo Programme Operations Handbook (‘the Handbook’): the manual published under the auspices of the LAACP by the Joint Council. It contains the rules, regulations, IATA Conference Resolutions, instructions and procedures applicable to the Parties’ actions under the present Agreement and is revised and reissued as required.

Agent: in the context of this agreement, an Intermediary who acts on behalf of a Carrier in the conducting of Air Waybill transactions in accordance with Part I of the Agreement.

Forwarder: in the context of this agreement, an Intermediary which issues air waybills on a principal to principal basis, in accordance with Part 2 of this agreement, and which reflects its LAACP registered company name in both the Shipper and Agent boxes on the air waybill. Such designation within the LAACP does not imply compliance with national government licensing requirements.

Intermediary: in the context of this Agreement, a generic term for both Agent and/or Forwarder.
PART I. AGENCY RELATIONSHIP

Purpose of this Part I of the Agreement

The purpose of this Part I of the Agreement is to set out the contractual terms, which are specific to the Carrier/Agent relationship. The provisions of this Agreement shall apply to all Air Waybills completed by the Intermediary in its capacity as agent for the Carrier (‘Agent’).

1. EXECUTION

1.1 The terms of this Agreement, including any amendments hereto, shall have the same force and effect on the relationship between the Carrier and the Agent, once created, as though both were named herein and both had subscribed their names as Parties hereto;

1.2 this Agreement shall become effective between the Agent and a Carrier upon appointment of the Agent by such Carrier in accordance with the provisions of the Handbook. A Carrier may appoint the Agent by means of individual appointment or by general concurrence.

2. AGENT’S AUTHORITY

2.1 The authority of the Agent to represent the Carrier and its products and services under this Agreement shall be specifically limited to that expressly granted herein;

2.2 subject to the provisions of this Agreement, the Agent shall represent the Carrier in the sale of airfreight, other than mail, over the services of the Carrier and when authorised by the Carrier, over the services of other air carriers with which the Carrier has an interline agreement;

2.3 with respect to the Carrier’s aircraft or route by which any consignment is to be transported and as to any service to be furnished by the Carrier, the Agent shall make only such representations as are authorised in this Agreement or as may thereafter be authorised by the Carrier in writing;

2.4 the Agent may represent itself on letterheads, advertising, telephone listings and classifications, office signs, and otherwise as an ‘Agent’, ‘Cargo Agent’, or ‘IATA Cargo Agent’, representing the Carrier, but shall not use any other designation which would indicate or imply in any way that its office is an office of the Carrier.

3. OBLIGATIONS OF AGENT TOWARDS THE CARRIER

3.1 The Agent shall make known and shall promote the services of the Carrier in every way reasonably practicable, including the use of display, promotional or publicity material that the Carrier may supply;

3.2 if the Agent accepts goods for carriage by air without the Carrier(s) being specified, the Agent shall be liable for loss of or damage to such goods until they have been delivered to and accepted by the Carrier.

4. OBLIGATIONS OF CARRIER TOWARDS THE AGENT

The Carrier shall furnish the necessary information and documentation to enable the Agent to fulfil its undertaking, that the completion of Carrier’s Air Waybills and handling of consignments performed under this Agreement by the Agent, or by its officers or employees, shall be in strict compliance with the rates, rules and conditions applicable to such cargo transportation, as published in the Carrier’s Conditions of Carriage or in its tariffs, timetables, notices, instructions or elsewhere unless otherwise agreed in writing between the Parties.

PART II. AIRFREIGHT FORWARDER RELATIONSHIP

Purpose of this Part II of the Agreement and Effectiveness

The purpose of this Part II of the Agreement is to set out the mutually-agreed framework of working relations between the Carrier and the Forwarder, so they may provide the shipper with a complete and integrated service. A contractual relationship between the Forwarder and the Carrier is hereby created.

Furthermore, the provisions of this Agreement shall apply to the Intermediary acting as Forwarder. Upon coming into effect, this Agreement, including any amendments thereto, shall have the same force and effect between the Carrier and the Intermediary acting as Forwarder as though they were both named herein and had both subscribed their names as parties hereto.

1. SCOPE OF MUTUAL REPRESENTATION

This Part II covers those airfreight transactions where the Parties contract with each other as between principals. In such transactions, the Forwarder’s name appears in both the Shipper box and the Agent box of the Air Waybill and the Forwarder does not act as agent for the Carrier.

2. FORWARDER’S AUTHORITY

2.1 Subject to the provisions of this Agreement, the Airfreight Forwarder shall be entitled to tender goods to any Carrier from whom it has received air waybills or air waybill serial numbers, provided the freight is documented and Ready for Carriage, in accordance with the Handbook or the Carrier’s specific instructions;
2.2 the Forwarder may represent itself as a Forwarder, Cargo Forwarder, or IATA Cargo Forwarder authorised to use the services of the Carrier, but shall not indicate or imply in any way that its office is an office of the Carrier;

2.3 the Forwarder may consolidate consignments on behalf of a number of different shippers and tender them to the carrier as one single consignment.

Any Person in possession of the appropriate official licenses, where required, may become an IATA Cargo Intermediary in the country where such Person conducts business by making an application to the Agency Administrator and by meeting the requirements and criteria set forth in the Latin American Air Cargo Programme Handbook. Such requirements and criteria must continue to be met to ensure retention as an IATA Cargo Intermediary (in which event, the term ‘applicant’ where used in this Section shall be understood to include an IATA Cargo Intermediary). When there are reasons to believe that an IATA Cargo Intermediary does not continue to meet such requirements and criteria, the Agency Administrator shall on his own initiative, or may, at the request of any Member, initiate a review of the Intermediary by the LAACP Agency Commissioner.

1.1 MINIMUM STAFF REQUIREMENTS WHERE AIR CARGO IS MADE READY FOR CARRIAGE

the applicant shall employ full-time persons competent and qualified to provide the services and handling functions described in the Latin American Air Cargo Programme Handbook so that a minimum of one person is present at all places where air cargo is made ready for carriage whenever such places are open for business. The applicant must supply evidence that a minimum of two persons meet the Dangerous Goods and General Cargo training requirements and that such persons:

1.1.1 hold the IATA Introductory Course Diploma or have completed an equivalent course offered by an IATA Member, a FIATA member whose course has been accredited by the Air Freight Institute of FIATA (AFI) or any other course acceptable to the Council offered by an airline, commercial organisation, or training institute; provided that any Intermediary which does not meet this requirement shall demonstrate that its staff includes at least two full-time competent persons with not less than 2 years’ experience in providing air cargo services.

for the purpose of this Resolution, a recognised training course means:

1.1.2(a)(i) the IATA Dangerous Goods Course;

1.1.2(a)(ii) a Member’s course of formal instruction in Dangerous Goods Acceptance;

1.1.2(a)(iii) a course of formal instruction offered by a training establishment, which has been appraised and endorsed by IATA as an Accredited Training School (ATS);

1.1.2(b) provided, that all the above training courses shall, where required in the country of registration of the applicant, also be approved in advance by the governmental agency responsible for regulating Dangerous Goods matters in that country;

1.1.2(c) failure to renew the certificate of Dangerous Goods course of training by a date specified by the Agency Administrator, with the result that the Intermediary no longer fulfils the conditions of this Subparagraph, shall be grounds for the Agency Administrator to remove the Intermediary from the Directory;

1.1.3 in addition to the stated Dangerous Goods Acceptance training requirements, all persons assigned by the applicant to handle any consignments and/or make them ready for carriage shall have completed a Dangerous Goods Awareness course in accordance with national governmental agency and/or ICAO requirements.

1.1.4 Notwithstanding Paragraphs 1.1 through 1.1.2c an applicant may apply to be registered as an IATA Intermediary (non-Dangerous Goods Handler) provided it complies with all other accreditation criteria and has submitted declaration Attachment ‘B’ Appendix 2 confirming that it shall not accept nor make ready for carriage any consignment containing Dangerous Goods.

5.3.1 the Intermediary ('the transferor') and the proposed new owner ('the transferee') shall jointly give the Agency Administrator notice of the proposed change in the form as prescribed by Appendix 1 to these Rules at least 30 days before the change is to be effected. At the same time the transferee shall submit an application for approval and inclusion in the Latin American Air Cargo Programme Directory in accordance with Section 2 of these Rules and the application shall be considered and dealt with in accordance with the provisions of that Section;
5.3.2 on receipt of a notice of change and a duly completed application in time to enable the Agency Administrator to process the application, the Agency Administrator shall execute a provisional Cargo Intermediary Agreement with the transferee unless the application reveals or the Agency Administrator has reason to believe that the application should be disapproved because the transferee does not meet one or more of the requirements of Section 1 of these Rules. Nevertheless if prior to the final decision on the application the transferee eliminates the grounds for disapproval to the satisfaction of the Agency Administrator, the Agency Administrator shall execute a provisional Cargo Intermediary Agreement with the transferee;
5.3.3 the transferee's provisional Cargo Intermediary Agreement shall take effect from the date when the change of ownership and/or status takes place. The transferor's Cargo Intermediary Agreement shall terminate as of the date when the change of ownership and/or status takes place, without prejudice to the fulfillment of all obligations accrued prior to the date of termination;
5.3.4 a provisional Cargo Intermediary Agreement shall be in the same form and have the same effect as a Cargo Intermediary Agreement. The Agency Administrator shall notify all Members of the execution of the provisional agreement and on receipt of such notice Members may do business with the transferee as if he were an Intermediary.

The Agency Administrator shall inform the Intermediary that such protest has been made and invite response;
5.4.2 on receipt of a notice of change in time to enable the Agency Administrator to process the change, the Agency Administrator shall give provisional approval of the change unless the notice reveals or the Agency Administrator has reason to believe that the Intermediary should not be retained because it does not meet one or more of the requirements of Section 1 of these Rules. Nevertheless if prior to final decision on the change the Intermediary eliminates the grounds for disapproval to the satisfaction of the Agency Administrator, the Agency Administrator shall give provisional approval of the change;
5.4.3 the provisional approval of the change shall take effect from the date when the change takes place and the Agency Administrator shall notify all Members accordingly.

5.5 LACK OF PROVISIONAL AGREEMENT OR APPROVAL
when pursuant to Subparagraph 5.3.2 or 5.4.2 of this Section the Agency Administrator is unable to execute a provisional Cargo Intermediary Agreement or to give provisional approval as at the date of the change, the Agency Administrator shall notify all Members and, where applicable, the CASS Management accordingly and may suspend from CASS where applicable.
5.6 FINAL APPROVAL BY AGENCY ADMINISTRATOR

5.6.1 in addition to any action taken by the Agency Administrator under Paragraphs 5.3 and 5.4 of this Section he shall obtain from such source and in such manner as he may deem appropriate a report on the transferee or Intermediary, as the case may be, indicating whether the requirements set out in Section 1 of these Rules are satisfied;

5.6.2 if, the report shows that the said requirements are satisfied, and no protest has been received from a Member within 30 days following notice from the Agency Administrator of the proposed change, the Agency Administrator shall:

5.6.2.1 in cases of a change as described in Subparagraphs 5.2.1.1 or 5.2.2 of this Section, notify the transferee that the provisional Cargo Intermediary Agreement shall cease to be provisional and shall become a Cargo Intermediary Agreement;

5.6.2.2 in cases of a change as described in Subparagraph 5.2.1.2 of this Section, notify the Intermediary that the provisional approval of the change shall cease to be provisional and shall become a full approval; the Cargo Intermediary Agreement or the final approval of the change shall take effect 45 days from the date of the publication to Members of the intended change by the Agency Administrator or on the date the change takes place, whichever is the later. The Agency Administrator shall notify all Members accordingly and, when required, make any necessary amendment to the Latin American Air Cargo Programme Directory.

5.7 EFFECT OF DISAPPROVAL

5.7.1(b) in all such notices the Agency Administrator shall give the reasons for his action and notify all Members accordingly. A disapproved transferee or Intermediary may request reconsideration of the decision by the Agency Administrator or invoke the procedures for review of the Agency Administrator’s action by the Ombudsman;

5.7.2 upon request for reconsideration by the Agency Administrator or for review by the Ombudsman, the disapproval action shall be stayed and the status quo ante restored pending the result of the reconsideration or of the review. If the Ombudsman confirms the disapproval, the transferee or Intermediary may request review of such decision by arbitration pursuant to Section 6 of these Rules in which case the disapproval action shall continue to be stayed until notification of the arbitration award;

5.7.3 if the transferee or the Intermediary as the case may be notifies the Agency Administrator that the change of ownership has been revoked and the Intermediary restored in all respects to its previous ownership, the Agency Administrator shall reinstate the Intermediary’s Cargo Intermediary Agreement and, when applicable, reinstate credit facilities and notify the Intermediary and all Members accordingly.

5.8 UNDERTAKING BY TRANSFEREE

5.8.1 every application for approval shall be accompanied by an undertaking by the transferee to accept joint and several liability with the transferee for any outstanding obligations of the transferee under its Cargo Intermediary Agreement as of the date when the transfer of ownership takes place; and

5.8.2 in cases where the transferor is employed by or retains a financial or beneficial interest directly or indirectly in the Intermediary after the change of ownership, the application shall be accompanied by an undertaking by the transferee to accept responsibility for any violation by the transferor of its Cargo Intermediary Agreement which may have occurred within a period of two years immediately prior to the change of ownership as if such violation were a violation of the transferee’s Cargo Intermediary Agreement.

5.9 DEATH OF A SOLE OWNER OR OF A MEMBER OF A PARTNERSHIP OR OTHER UNINCORPORATED FIRM

5.9.1 in the event of the death of the sole owner of an Intermediary, or of a member of a partnership or other unincorporated firm, the Intermediary shall promptly advise the Agency Administrator who, in order to preserve the goodwill of the Intermediary as far as possible, may at the request of the person entitled to represent the decedent’s estate (in the case of a sole ownership) or of the remaining member of the partnership or other unincorporated firm enter into a temporary Cargo Intermediary Agreement with the requesting party, reinstate credit facilities and advise Members accordingly. The temporary Cargo Intermediary Agreement shall be in the same form and have the same effect as a Cargo Intermediary Agreement except that:

5.9.1.1 if the Agency Administrator at any time has reason to believe that the financial situation of the estate, partnership or other unincorporated firm is...
unsatisfactory, he shall place the Intermediary under review by the Ombudsman and notify the Intermediary and all Members accordingly,

5.9.1.2 if prior to the date of the review the estate or partnership or other unincorporated firm submits evidence of a satisfactory financial situation, the Agency Administrator shall withdraw his request for review and shall notify the Intermediary and all Members that credit may be reinstated.

5.9.1.3 if the matter proceeds to review and the Ombudsman finds that the financial situation of the estate, partnership or other unincorporated firm so warrants, he shall direct that the temporary Cargo Intermediary Agreement be terminated. The Agency Administrator shall remove the Intermediary from the Latin American Air Cargo Programme Directory and notify the Intermediary and all Members accordingly. Upon receipt of such notice, Members shall take the same action as required on removal of an Intermediary from the Latin American Air Cargo Programme Directory.

5.9.2 if the person entitled to represent the estate of the decedent proposes to transfer or to confirm the transfer of the decedent’s interest in the Intermediary to an heir, legatee or other person, or notifies that the decedent’s interest is withdrawn from the partnership or other unincorporated firm, such transfer or withdrawal shall be deemed a change of ownership for purposes of this Section. The signatory of the temporary Cargo Intermediary Agreement and the transferee shall jointly give notice to the Agency Administrator as required under Subparagraph 5.3.1 of this Section and thereafter the provisions of Paragraphs 5.3, 5.5, 5.6, 5.7 and 5.8 of this Section shall apply;

5.9.3 subject to earlier termination under the provisions of Subparagraph 5.9.1 or 5.9.2 of this Paragraph, a temporary Cargo Intermediary Agreement with the representative of the estate of a deceased sole owner shall terminate if such representative ceases to carry on the Intermediary’s business at the address covered by the Agreement.

5.10.1.1 if the financial situation of the Intermediary is found to be satisfactory, the Intermediary may continue to do business with Members as a registered Intermediary,

If the name change is approved the Agency Administrator shall notify all Members of the new name and record the new name in the Latin American Air Cargo Programme Directory and in the Cargo Intermediary Agreement. If the Agency Administrator disapproves the application he shall initiate a review by the Ombudsman.

5.12 CHANGE OF ADDRESS

5.12.2 where an Intermediary moves from or ceases to operate at the sales office and/or handling facilities that were inspected in the course of processing its application for registration, such Intermediary shall as far in advance as possible but in any case before effecting the move, notify the Agency Administrator of the new address and remit the fee as in Section 7 of these Rules. The Agency Administrator shall obtain an inspection report of the new premises and shall notify all Members of the proposed new address. If the inspection report is favorable, the new premises shall be approved. If the investigation report is unfavorable, the new premises shall not be approved by the Agency Administrator and the matter shall be referred to the Ombudsman.
5.13 LATE NOTIFICATION OR ABSENCE OF NOTIFICATION OF CHANGE

5.13.1 if the notification and, when required, the completed application in respect of a change of ownership or legal status is not received by the Agency Administrator or is received after the change has taken place, the Agency Administrator shall place the Intermediary under review by the Ombudsman. The application from the transferee, if any, shall be processed in accordance with the provisions of Section 2 of these Rules;

5.13.2 failure to notify the Agency Administrator of a change of name or address within 30 days of such change being made shall be grounds to initiate a review of the Intermediary by the Ombudsman.

5.14 INTERMEDIARIES LOCATED IN A CASS-EXPORT AREA

if any of the changes described in this Section are to be effected by an Intermediary located in the area of a CASS-Export, the Agency Administrator when giving any notice to Members required under the foregoing provisions of this Section shall give a copy of that notice to the CASS Management.

Section 6—Review by Arbitration

6.1 RIGHT TO ARBITRATION REVIEW

any applicant or Intermediary which considers itself aggrieved by a decision of the Ombudsman under Resolution 811e (the provisions contained within the Handbook), or any Member which contests the Ombudsman's ruling in a review of such Members' individual decision, shall have the right to have the decision reviewed by arbitration in accordance with the following procedure (hereafter in this Section the term 'Appellant' is used to designate severally an aggrieved Intermediary or applicant or a contesting Member, seeking review by arbitration, except where the context specifies otherwise).

Arbitrator(s) may require the Intermediary and IATA to post certified cheques in an amount determined by the Arbitrator(s) in US dollars or the acceptable equivalent, to cover the estimated costs of the arbitration. Upon notification of the Board’s award, any monies so posted, and in excess of the arbitration costs, shall be refunded to one or other or both parties, as appropriate.

6.5.2 the Arbitration Board shall publish its award in writing not later than 60 days after appointment of the chairman or of the sole arbitrator, provided that this period may be extended by or with the agreement of the Appellant and the Agency Administrator. If the Arbitration Board does not publish its award in writing within such period of 60 days, or within such extended period agreed by the Appellant and the Agency Administrator, the Arbitration Board shall be deemed discharged without remuneration and the Agency Administrator shall request the President of the International Chamber of Commerce to appoint a sole arbitrator or another sole arbitrator (in place of the sole arbitrator discharged) who shall proceed in accordance with the provisions of Subparagraph 6.5.1 of this Paragraph and Paragraph 6.7 of this Section and shall publish his written award within 45 days of the date of his appointment;

7.2 INVOICING

Annual Intermediary fees for each calendar year shall be paid not later than 1 December of the preceding year in accordance with the procedures agreed by the Joint Council and the instructions of the Agency Administrator. 43RD EDITION, OCTOBER 2020
RESOLUTION 821
IATA CARGO OFFICE NUMERIC CODE

CAC1(45)821 Expiry: Indefinite
CAC2(45)821 Type: B
CAC3(45)821

RESOLVED that:

1. AUTHORITY TO ASSIGN NUMERIC CODES

1.1 the assignment of IATA Cargo Office numeric code designators (‘the numeric code’) to Members, non-IATA air carriers and to IATA Cargo Agents or Forwarders shall be carried out by the Agency Administrator who shall periodically publish a list to Members of numeric codes so assigned and the name of the assignees;

1.2 blocks of IATA numeric codes shall be set aside by the Agency Administrator for use in respect of the IATA-FIATA Air Cargo Program (IFACP) and by the Cargo Network Services Corporation (CNS). CNS shall control assignment of such numeric codes to appointed agents listed by it in the United States of America. Similarly, the IFACP, the Program Secretariat, shall control assignment of such codes to its Endorsed Forwarders, and CNS and the IFACP shall report to the Agency Administrator the numeric codes so assigned. The limitations and duties with respect to the use and protection of the numeric code described in this subparagraph shall be identical to those specified elsewhere in this Resolution.

2. AGENT-FORWARDER ASSIGNMENT

2.1(a) upon accreditation of an agent by IATA, the Agency Administrator shall assign that IATA Cargo Agent a numeric code. The assignment of additional numeric codes, for use by an IATA Cargo Agent's fully-owned and fully-controlled field offices where Air Waybills are executed, shall be in accordance with Cargo Agency Conference policy;

2.1(b) upon endorsement of a Forwarder in the IFACP, the Administrator shall assign the endorsed Forwarder a numeric code. The assignment of additional numeric codes, for use by an IFACP endorsed Forwarder fully-owned and fully-controlled field offices where Air Waybills are executed, shall be in accordance with the IFACP policy;

2.2 such assignment shall continue only so long as the assignee remains an IATA Cargo Agent and shall be withdrawn by the Agency Administrator should the IATA accreditation of the assignee be discontinued, suspended or cancelled, whether by IATA or by the assignee. The assigned numeric code remains the property of IATA at all times. It shall not be shared, lent, leased, sold or otherwise transferred by the assignee to any other person, whether an individual or a corporation. Failure on the part of the assignee to respect this exclusivity of usage requirement shall constitute valid grounds for the Agency Administrator to withdraw the assigned code and cause the Cargo Agency Commissioner to review the IATA Cargo Agent’s IATA accreditation; or the IFACP Ombudsman to review the Forwarder’s IFACP endorsement.

3. AIRLINE ASSIGNMENT

An air carrier wishing to obtain numeric codes for its own cargo sales offices shall apply in writing to the Agency Administrator. The air carrier shall use the numeric codes so assigned solely for its own fully-owned and fully-controlled cargo sales offices and shall not share, lend, lease, sell or otherwise transfer them, or allow them to be used, by any other person, whether an individual or a corporation.

4. RESCISSION

upon this Resolution being declared effective, the following Resolution shall be rescinded:

RESOLUTION 823
DEFINITIONS OF TERMS USED IN CARGO AGENCY CONFERENCE RESOLUTIONS

RESOLVED that the definitions of terms and expressions used in Resolutions of the Cargo Agency Conference are as follows:

‘AGENCY ADMINISTRATOR’ means the IATA official designated by the Director General from time to time as the holder of that office, or his authorised representative, responsible for the management of the IATA Agency Programmes in accordance with the Members’ rules and resolutions and with autonomy to act in extraordinary circumstances.

‘AGENCY COMMISSIONER’ (sometimes called ‘the Commissioner’, ‘the Ombudsman’) means the person designated under a procedure involving the Director General of IATA and the Chairman of the Airfreight Institute of FIATA, as the holder of that office, or his authorised representative as provided for in Resolution 811d, and who exercises jurisdiction over matters prescribed by the Cargo Agency Conference and as described in Resolution 811e (Conduct of Review by Agency Commissioner).

‘AGENCY DISTRIBUTION MANAGER’ means the IATA official designated by the Agency Administrator to head the Agency Distribution Office and to manage the Cargo Agency registration programme for countries in which Resolution 803 is applicable.

It also includes Intermediaries who conduct transactions in accordance with Part 1 of the Cargo Intermediary Agreement—Australia. While the legal status of a cargo agent versus a forwarder differs with regard to rules of contract construction and liability, for reasons of nomenclature, contract bids or fulfilling government licensing requirements, the term “IATA FIATA Freight Forwarder” is equivalent to the term “IATA Cargo Agent” or “IATA Cargo Intermediary”.

‘BRANCH OFFICE LOCATION’ means a registered Agent’s place of business where cargo is made ready for carriage and which is entered on the Agency List as a Branch Office Location which is the same entity as its Head Office Location, with the Head Office having full legal and financial responsibility of the administration, staff, liability maintenance and operations expense of the Branch Office.

CARGO ACCOUNTS SETTLEMENT SYSTEM-EXPORT (hereinafter called CASS-Export) means the method of accounting and settling accounts between CASS-Export Airlines on the one hand, and their Agents and Associates on the other hand, described in Resolution 851 and its Attachments and provided for in Resolutions 801r.

‘CARGO AGENCY PROGRAMME JOINT COUNCIL’ (sometimes called ‘IATA Cargo Agency Programme Joint Council’) is a body composed of an equal number of airline and cargo agent representatives, established to assist the Conference by providing recommendations and proposals regarding the Cargo Agency Programme and criteria for the registration of IATA Cargo Agents doing business in the Region, or country/countries served by the Joint Council concerned.

‘CASS AIRLINE’ means both an IATA Member and a non-IATA air carrier from which the Agency Administrator has accepted an application and concurrence in CASS-(country).

RESOLUTION 849
TIE IN TRANSFERAL RESOLUTION & AIRLINE GENERAL CONCURRENCE

CAC1(45)849 (except USA) Expiry: Indefinite
(CAC2(45)849 (amended)
CAC3(45)849 (amended)

WHEREAS, the Cargo Agency Conference has been established to take action on matters relating to relationships between airlines and intermediaries;

WHEREAS, over the last few decades the air cargo industry has seen a shift in status among cargo intermediaries from agents of the airlines to customers (freight forwarders) of the airlines;

WHEREAS, as a result of this shift in commercial relationships, IATA and FIATA established the IATA FIATA Governance Board (IFGB) to develop the IATA FIATA Air Cargo Program (IFACP), a program jointly administered by freight forwarders and airlines

WHEREAS, the Cargo Agency Conference recognizes that the IFACP is the natural evolution of the IATA Cargo Agency and Cargo Intermediary Programs; and

WHEREAS, the Cargo Agency Conference recognizes the need to maintain existing commercial relationships between IATA Cargo Agent and Intermediary entities and the airlines to ensure the unencumbered flow of global cargo, it is

RESOLVED that

1. Members acknowledge and agree that the IATA FIATA Governing Board (IFGB) shall be responsible for:
   (a) the management of the IFACP; and
   (b) the establishment and maintenance of the relevant operational and financial criteria for endorsement of IATA-FIATA Endorsed Forwarders.

2. Members hereby adopt the General Concurrence set forth in Annex ‘A’ and thereby designate each of their appointed IATA Cargo Agents/Intermediaries as an “IATA FIATA Endorsed Forwarder” under the operational and financial criteria as so determined by the IATA FIATA Governing Board (IFGB).

3. The form of General Concurrence set forth in Annex ‘A’ to this Resolution sets out the terms and conditions that apply in respect of the ACP. It is agreed by adoption, or for non-IATA air carriers by signature, that each Airline provides authorization to IATA, Director General, to:
   a) enter into and maintain an IFACP Agreement on its behalf, with individual Forwarders which are or will be endorsed in the IFACP and with whom it may elect to do business,
b) allow IFACP Endorsed Forwarders to participate in CASS where it operates, to facilitate and take advantage of the efficiencies for billing and settlement of accounts between Airlines and Forwarders,

c) continue to manage “Industry Financial Securities” currently administered by IATA, to the extent that there are any industry bank guarantees or default insurance schemes in the future. Such industry financial securities, should they arise out of the Local Financial Criteria established by the IFGB in respect of the IFACP Forwarder endorsement procedures, will be handled as part of the responsibilities of the IFACP Program Secretariat. However, in the event that a Carrier requires a separate bank guarantee from an IATA FIATA Forwarder, such Airline assumes all risk management responsibility and hereby agrees that in the event of a default by the Forwarder under CASS, the Airline would not be entitled to any payment under the Forwarder’s industry bank guarantee, default insurance or any other financial security provided to IATA.

4. Such General Concurrence shall automatically take effect on the date on which IATA declares effective the IATA FIATA Air Cargo Program in a particular country or region. Unless it is withdrawn by an IATA Member Airline, for any reason, including those who wish to impose bilateral criteria in addition to those referred to in 1(b) above. In which case the Airline may withdraw its General Concurrence, in respect of a country(ies) or specific Forwarder(s), with three calendar months advance notice in writing to the IATA Director General. Notwithstanding the foregoing, any individual carrier and Forwarder reserve the right to do business as bilaterally agreed.
RESOLUTION 849
Annex ‘A’

STATEMENT OF GENERAL CONCURRENCE

The IATA Member, or non-IATA air carrier, referred to hereinafter as ‘the Airline’ hereby deposits with the IATA Director General, its Statement of Concurrence in respect of its participation in the IATA-FIATA Air Cargo Programme (IFACP).

1. The Airline is hereby notified that IATA has entered into a Cooperation Agreement with FIATA in order to establish the IATA-FIATA Governance Board to jointly develop and manage the IATA-FIATA Air Cargo Programme (IFACP).

2. The IFACP sets out the framework of working relationships between forwarders and airlines, on a principal to principal basis, including in respect of the purchase of international air cargo transportation services and/or the handling and delivery to carriers of cargo consignments. The IFACP will supersede and replace the current IATA Cargo Agency/Intermediary Programmes globally and current IATA Cargo Agents/Intermediaries will transfer to become IFACP Endorsed Forwarders upon signature of an IFACP Freight Forwarder Agreement, executed with IATA acting on behalf of Airlines.

3. The Airline acknowledges therefore that they are required to amend their current appointments of IATA Cargo Agents in order to reflect the IFACP principal to principal relationship.

4. The Airline hereby agrees to deposit with the IATA Director General, a Statement of General Concurrence in respect of the IATA-FIATA Air Cargo Programme (IFACP) and Forwarders which are, or will be endorsed in accordance with the IATA-FIATA Air Cargo Programme (IFACP) rules, and with whom, the Airline may elect to do business.

5. Further, the Airline authorises the IATA Director General to execute on its behalf a IFACP Forwarder Agreement and acknowledges that a contractual relationship is thereby created between the Forwarder and the Airline, with respect to the purchase of international air cargo transportation services (‘airfreight’) and/or the handling and delivery to the Airline of cargo consignments;

6. The Airline hereby concurs with the terms and conditions of IATA-FIATA Air Cargo Programme (IFACP) rules, as published in the IFACP Handbook. The Airline acknowledges that the conditions of the IFACP may be amended by the IATA-FIATA Governance Board (IFGB) from time to time, upon serving Airlines notice in writing reasonably in advance of the effectiveness of such amendment(s);

7. The Airline authorises the IATA Director General on its behalf to apply CASS Participation Rules (Resolution 851r) setting out published terms and conditions, in respect of an IFACP Endorsed Forwarder in those countries where an IATA CASS operation exists and the Airline and Forwarder participate in the CASS;

8. The Airline recognizes that IATA is administering the IFACP as agent for and pursuant to instructions given to it by the IFGB and accordingly agrees to indemnify IATA, its officers and employees against any liability (including liability for legal costs) for any action taken or omitted in good faith in the performance of their functions with respect to the IFACP;

9. The Airline agrees to participate and contribute to the IFACP in markets where it operates. The fee structure and level of individual participant fee amounts will be as established from time to time by the IATA-FIATA Governance Board (IFGB) to cover the operating expenses of the programme;

10. The Airline hereby confirms that this General Concurrence shall become effective in countries where the IFCAP applies, replacing previous IATA Cargo Agency or Intermediary Programmes. Any previously executed General Concurrence shall nonetheless remain in effect applicable to IATA Cargo Agency or Intermediary Programmes where the IFACP has not been introduced.

11. This Statement shall come into effect for the Airline upon implementation of the IFACP and should remain in effect, unless it is withdrawn by the Airline, who wishes to impose bilateral criteria in addition to those referred in point 6 above, in respect of a country or specific Forwarder, with three calendar months advance notice in writing to the IATA Director General. In such case, the Airline shall simultaneously notify any Forwarder(s) excluded from the General Concurrence and advise the Airline’s individual bilateral requirements. When such requirements are met, the Airline may re-deposit its concurrence with the Forwarder(s) concerned and shall so notify IATA, Director General.

1.2 Amendments to the CASS Technical Specifications Handbook shall be subject to agreement by the Conference, however, should the CASS Policy Group (CPG) recommend action be taken on a particular amendment(s) between Conferences, ISS Management shall publish the proposed amendment(s) in writing to all Members. If no protest is received from any Member within 45 days of the publication of the amendment(s), the amendment(s) will be deemed endorsed and the CASS Technical Specifications Handbook will be amended accordingly. In the event of a protest, the reasons therefore shall be given in writing and the protested amendment will be reconsidered at the next meeting of the CPG with a view to overcoming the reasons for disagreement. In the event of continuing disagreement, the matter shall be referred to the Conference for final action.

2. LOCAL CUSTOMER ADVISORY GROUPS—CARGO (LCAGC)

2.1 The Conference has established Local Customer Advisory Groups—Cargo (LCAGC) in countries wherever a CASS is in operation, to provide advice to ISS Management on local customer service issues and to co-ordinate local needs;

2.2 The Conference determines the procedures for establishing the membership of the LCAGC;

2.3 The Rules and Procedures for the LCAGC, as agreed by the Conference, are contained in Appendix ‘B’ to this Resolution and constitute part hereof.
3. FEASIBILITY STUDY—IMPLEMENTATION OF A CASS

The Head Office of any Member, or group of Members, may request ISS Management to initiate a feasibility study, respecting CASS implementation.

4. PARTICIPATION BY MEMBERS

4.1 Participation by IATA Members in any CASS is voluntary. IATA Members may join at the inception of a CASS or may join at a later date by paying the applicable joining fee set by ISS Management;

4.2 participation in any CASS shall be dependent on the Member continuing to pay the appropriate charges for those services that have been provided to the Member in connection with the operation of that CASS;

4.3 a Member's participation shall be dependent on it continuing to meet financial criteria established by the Conference, if any;

4.4 upon joining a CASS, a Member must sign a Counter-indemnity Agreement with IATA as prescribed in Appendix 'C' to this Resolution. Where a current signed counter-indemnity is in place, the changes specified in Appendix 'C' are deemed to be incorporated therein;

4.5 once a Member has joined a CASS, it automatically becomes a Billing Participant as defined in Resolution 823 “Definitions of Terms Used in Cargo Agency Resolutions;”

4.6 where a negative settlement occurs as a result of monthly CASS billings, monies due to IATA should be remitted by the Member by the published applicable remittance date.

4.7 A Member cannot participate in a CASS either directly or indirectly through a GSSA without a proper IATA Air Carrier Designator and Prefix (Numeric) Code.

5. PARTICIPATION BY AGENTS/INTERMEDIARIES/FORWARDERS

Where a CASS has been adopted for a given country/area, then:

5.1 effective from the date of implementation, all Agents/Intermediaries/Forwarders in that country/area shall be governed by the provisions of Section 2 of Resolution 801r (except for countries where Resolution 805zz has been implemented in which case Resolution 801re applies, or where the IATA-FIATA Air Cargo Program is implemented then Resolution 851r shall apply) with respect to transactions made on behalf of CASS Airlines.

5.2 where a CASS is implemented, the Agency Administrator shall so advise all Agents affected.

5.3 nothing in these procedures shall preclude a CASS Airline and an Agent or Intermediary from making alternative arrangements on a bilateral basis outside of CASS.

6. CASS ASSOCIATES

6.1 The Cargo Agency Conference may decide that charges due on consignments tendered by persons other than Agents are to be collected in a particular CASS in accordance with the provisions implemented thereof. If such an agreement is effective, then a person other than an Agent may become a CASS Associate and participate in the CASS-Export provided that such person:

6.1.1 (except for area covered by Resolution 805zz) abides by financial obligations to settle through the system in accordance with Resolution 801r and meets the requirements specified in Appendix 'D'4. If any other requirement is locally recommended, it should be submitted to the Cargo Agency Conference for endorsement prior to application;

6.1.2 (for area covered by Resolution 805zz) abides by financial obligations to settle through the system in accordance with Resolution 801r and is sponsored by a CASS Carrier. If the Associate has accumulated 3 payment irregularities in the preceding 12 months, a bank guarantee shall be provided by the Associate to cover its average CASS remittance value, as determined by ISS Management. If any other requirements are locally recommended, they should be submitted to the Cargo Agency Conference, for adoption, prior to its application. CASS Associates who are shipping Cargo under their own ownership and who are Direct Accounts of an Airline shall not be subject to the bank guarantee provision

6.1.2 signs an agreement in the form specified in Appendix 'D' to this Resolution and pays the participation fees determined by ISS Management from time to time;

6.2 the Agency Administrator, after confirming the applicant meets the applicable criteria, signs the agreement on behalf of all Airlines participating in that CASS and shall then issue to the applicant a CASS Associate code number;

6.3 such number may only be used as long as the Associate continues to meet the qualifying requirements specified in Appendix 'D' and has paid all applicable fees;

6.4 further to Paragraphs 6.1 and 6.1.1 above, where a decision regarding Associate participation or applicable criteria is required between Conferences, a mail vote may be initiated. Providing unanimous support for the proposal is received, the proposal shall be adopted. Failure to vote will be deemed to be an abstention. Abstentions shall count as positive votes.

7. PARTICIPATION BY NON-IATA AIR CARRIERS

7.1 A non-IATA air carrier (an Airline), having lodged its own Air Waybills with Agents, may request participation in a given CASS by submitting to the Agency Administrator a Form of Application and Concurrence, in which, amongst other things, they agree to be bound by the applicable Cargo Agency Resolutions. The Form is prescribed in Appendix 'E' to this Resolution.
7.2 upon acceptance by the Agency Administrator, the Airline agrees;

7.2.1 to pay the applicable joining fees set by ISS Management;

7.2.2 to contribute to the management and other costs of such CASS as set by ISS Management;

7.2.3 to meet the financial criteria established by the Conference, if any;

7.3 participation in any CASS shall be dependent on the Airline continuing to pay the appropriate charges for those services that have been provided to the Airline in connection with the operation of that CASS;

7.4 upon joining a CASS, an Airline must sign a Counter-indemnity Agreement with IATA as prescribed in Appendix 'C' to this Resolution;

7.5 once an Airline has joined a CASS, it may elect a mode of Participation, Billing or Full, as defined in Resolution 823 “Definitions of Terms Used in Cargo Agency Resolutions”;

7.6 where a negative settlement occurs as a result of monthly CASS billings, monies due to IATA should be remitted by the Non-IATA Carrier by the published applicable remittance date.

7.7 A non-IATA Carrier cannot participate in a CASS either directly or indirectly through a GSSA without a proper IATA Air Carrier Designator and Prefix (Numeric) Code.

8. PARTICIPATION BY GENERAL SALES AND SERVICE AGENTS (GSSAs)

For the purpose of this Paragraph, the term ‘General Sales and Service Agent (GSSA)’ shall also include any Person appointed by one or more air carriers to carry out accounting functions in respect of cargo sales transactions made by Agents on behalf of such carrier(s), but not performing sales reservations functions:

8.1 a General Sales and Service Agent (GSSA), appointed by air carriers which have lodged their own Air Waybills with Agents, may request participation in a given CASS by submitting a Form of Application and Concurrency to the Agency Administrator. The form, prescribed in Appendix 'F' to this Resolution, amongst other things, binds the applicant to the Cargo Agency Administration Rules;

8.2 the appointing Member or Airline shall be requested to confirm the appointment by submitting a Form of Authorisation. This form is described in Appendix 'G' to this Resolution;

8.3 upon acceptance by the Agency Administrator, the GSSA agrees;

8.3.1 to pay the applicable joining fees set by ISS Management;

8.3.2 to contribute to the management and other costs of such CASS as set by ISS Management;

8.3.3 to meet the financial criteria established by the Conference, if any;

8.4 participation in any CASS shall be dependent on the GSSA continuing to pay the appropriate charges for those services that have been provided to the GSSA in connection with the operation of that CASS;

8.5 upon joining a CASS, a GSSA must sign a Counter-indemnity Agreement with IATA, as prescribed in Appendix ‘C1’ to this Resolution;

8.6 once a GSSA has joined a CASS, it may elect a mode of Participation, Billing or Full, as defined in Resolution 823 “Definitions of Terms Used in Cargo Agency Resolutions”;

8.7 where a negative settlement occurs as a result of monthly CASS billings, monies due to IATA should be remitted by the General Sales and Service Agent by the published applicable remittance date.

8.8 A legal entity appointed by an air carrier as a GSSA for the country concerned may not apply for accreditation as an IATA Cargo Agent/Intermediary. (A General Sales and Services Agent is one to whom an airline has delegated general authority to represent it for required to provide further information or additional purposes of overseeing sales in a defined territory).

9. IATA SETTLEMENT SYSTEM SERVICE PROVISIONS MANUAL

ISS Management, in consultation with the CPG, shall produce an IATA Settlement System Service Provisions Manual containing terms, conditions and codes of conduct of CASS operations applicable in all areas. The CPG will be responsible for the content of the Manual, however it shall at all times be in conformity with applicable IATA Resolutions.

10. LOCAL CUSTOMER SERVICES MANUAL

Wherever a CASS has been implemented, ISS Management shall produce a Local Customer Services Manual, containing local terms, conditions and codes of conduct of the local CASS operation. The Cargo Agency Conference delegates the authority for the contents of this Manual to the Local Customer Advisory Groups Cargo (LCAGC), for subsequent endorsement by the CPG. The contents of this Manual shall be in conformity with applicable IATA Resolutions and are described in Appendix H.
11. VOLUNTARY TERMINATION

A Member, Airline or GSSA may withdraw from a particular CASS by giving written notice of not less than 3 months and shall be liable for its share of all costs through to the end of the notice period, except that a GSSA's participation in a CASS may be terminated when the Member appointing the GSSA has notified the Agency Administrator, in accordance with Resolution 871, with not less than three calendar months' notice in writing that they have terminated their appointment of the GSSA.

12. AIRLINE SUSPENSION OF OPERATIONS

12.1 Reasons for Suspension

Where an airline participating in a CASS (“the CASS Airline”) ceases all operations either temporarily or permanently, due to financial or other reasons; or where the CASS Airline becomes subject to bankruptcy, moratorium of debt, or reorganization or similar proceedings; or when the CASS Airline does not have a valid designator/prefix and accounting code assigned by IATA; or where a CASS Airline defaults on a material obligation under the CASS; or when the CASS Airline is suspended from the IATA Clearing House, BSP, or other IATA settlement system; or when IATA otherwise determines that there are sufficient financial grounds to suspend the CASS Airline, IATA shall evaluate whether the CASS Airline should be suspended from all CASS operations and the action to be taken, based on the pertinent information available.

In the event of eligibility for suspension pursuant to one or more of the above events; or if the CASS Airline defaults on a material obligation to IATA in respect of the IATA Clearing House, BSP, or other financial arrangement for services provided by IATA; or if ISS Management determines that the integrity of the CASS is at risk, IATA may withhold funds due from the CASS to the CASS Airline in order to settle the debt or potential risk. IATA may also require the Airline to provide a centrally held security deposit, or alternative security acceptable to IATA to be held centrally, and calculated so as to cover funds at risk for a minimum of one month.

Pursuant to Resolution 851 Attachment F at 4.3.2, if the CASS Airline is represented by a General Sales and Service Agent (GSSA) and is suspended from CASS for any reason, the transactions processed by the GSSA on behalf of that CASS Airline shall be subject to the same conditions as applicable to that CASS Airline.

12.2 Action by ISS Management

When an Airline ceases operation, ISS Management will continue to collect monies due to such airline in accordance with the settlement office procedures.

An Agent or Associate (or in Europe, an Intermediary) would not be expected to settle any amount in respect of an air waybill of an airline that has ceased operations, where as a direct consequence of such cessation of operations, the consignment has not been transported in accordance with the original shipping instructions. In this case the normal CASS dispute procedures apply.

12.3 Lifting of Suspension

If the Airline resume its operations or the reorganisation proceedings terminate, and the Airline continues or resumes operations, ISS Management shall lift the suspension.

13. OTHER TERMINATION

13.1(a) notwithstanding paragraph 11 of this Resolution, if ISS management has reason to believe that a CASS Airline may be unable to satisfy its indebtedness to the CASS and

13.1(a)(i) such CASS Airline owes in excess of USD10,000 or equivalent for CASS related processing and management fees, and has been requested to pay the CASS on the applicable date,

13.1(a)(ii) ISS Management has notified such CASS Airline of the amount owing,

13.1(a)(iii) the amount owing remains outstanding more than five working days after the date of notification and such Member Airline has not disputed the debt,

or

13.1(b) if a CASS Airline fails to pay any amount due in relation to a CASS settlement, as provided for in subparagraph 4.2 or 7.3 above;

13.1(c) then ISS Management may suspend or terminate such CASS Airlines’ participation in all CASS.

15. SUSPENSION FROM CASS

Pursuant to the provisions of paragraphs 4, 7 and 8 of Resolution 851, a CASS participant may be suspended
from CASS for not adhering to participation conditions and obligations.

16. CLOSURE OF CASS OPERATION

Should it be necessary, for whatever reason to consider closure of an operating CASS, ISS Management will consult with the CASS Airlines. In the event of closure, ISS Management will normally give notice of at least 12 months to CASS Airlines. All costs relating to the closure incurred during the period of the notice and/or arising after closure will be apportioned between the CASS Airlines in accordance with the ISS pricing formula.

17. RIGHT OF SET OFF

ISS Management shall have the right to set off any debt or claim owed by such Airline to CASS in relation to a CASS settlement, including any amount owed by the Airline to IATA for the provision of CASS processing and management fees, against any monies held or owed by IATA or any of its divisions and which are payable to that Airline. Similarly, ISS Management shall have the right to set off any debt or claim owed by an Airline to IATA or any of its divisions against any monies held or owed by IATA in any CASS.

RESOLUTION 851
Appendix ‘B’
RULES AND PROCEDURES LOCAL CUSTOMER ADVISORY GROUPS CARGO (LCAGC)

1. Function

Local Customer Advisory Groups—Cargo (LCAGC) are established by the Cargo Agency Conference wherever a CASS is in operation. Each LCAGC provides advice to ISS Management on customer service issues and in particular, establishing and addressing local needs.

2. Membership

The LCAGC will normally consist of not more than 10 persons. The Cargo Agency Conference may authorise a larger number, following a request from an area. LCAGC members and their designated alternates shall be elected for a two-year term by all Participating Airlines in that CASS, from nominations received from these Participating Airlines. Ideally, LCAGC members should be suitably qualified representatives at a senior level, providing expertise in the different fields of the CASS activity. LCAGC members attend LCAGC meetings as local industry representatives.

2.1 If elected, GSSAs/GSAs may be accepted as LCAGC members. They may participate in LCAGC meetings representing themselves alone and not representing their appointing Airlines.

2.2 A Participating Airline may nominate a suitably qualified individual from a GSSA/GSA. If elected, such GSSA/GSA individual shall attend the LCAGC meetings as a local industry representative, and their LCAGC membership shall represent no greater weight than any other LCAGC member despite that the GSSA’s/GSA’s business may serve as an agent or representative of more than one Participating Airline.

3. Meetings, Quorum and Voting

The frequency of meetings is determined by ISS Management, in consultation with CPG or the LCAGC. A quorum shall be a simple majority (one half plus one) of the membership. Each LCAGC is a consultative body and therefore there will be no formal voting. LCAGC will act in the form of making recommendations. Each LCAGC will elect its Chairman from among its members. The local ISS Manager will act as Secretary of these meetings. Other Participating Airlines in the CASS may attend meetings as observers, subject to the prior consent of the CAGC Secretary. Representatives of non-airline entities participating in that CASS may attend certain parts of a CAGC meeting, at the invitation of its Chairman and ISS Management. Additionally, the local/regional ISS Manager may call a customer meeting, at least once per year.
4. **Activities**

ISS Management may typically consult a LCAGC for:

- advice, as a user forum, on all local matters presented to it by ISS Management, concerning the local operation of CASS;
- advice to the local ISS Manager on the establishment of local CASS business requirements and enhancements, especially where differences from worldwide policy and standards are sought;
- guidance to the local ISS Manager, concerning: marketplace activities and development opportunities, and other local/area needs;
- other matters, as appropriate.

5. **Agenda and Reports**

The Agenda of each LCAGC shall consist of customer service issues on which ISS Management seeks the advice of the LCAGC, or proposals submitted by Participating Airlines. It shall be circulated by the LCAGC Secretary not later than 10 days before the start of the meeting. The report of LCAGC meetings shall be submitted to the CPG and circulated promptly by the Secretary to LCAGC Members, and all Participating Airlines. The Secretary of the LCAGC will provide a regular update on action taken pursuant to recommendations from the LCAGC.

While the legal status of a cargo agent versus a forwarder differs with regard to rules of contract construction and liability, for reasons of nomenclature, contract bids or fulfilling government licensing requirements, the term ‘IATA FIATA Freight Forwarder’ is equivalent to the term ‘IATA Cargo Agent’ or ‘IATA Cargo Intermediary’.

‘IATA Settlement Systems Management (ISS Management)’ means the appropriate department of IATA responsible for the administrative and operational functions of the IATA Settlement Systems, such as ISS budgets (cost and revenues), ISS staffing, ISS contracts (service agreements) to include signature authority and ISS office management and administration. Note: Following consultation with EACPJC and CACPJC this Resolution has not been implemented in European countries covered under Resolution 805zz and Canada under Resolution 803. Consequently specific country financial requirements in Attachment ‘B’ Table by CASS Country of CASS Associates marked in grey are not implemented either.

WHEREAS the CASS Associate Agreement enables CASS Associates to participate in the Cargo Accounts Settlement System (CASS) and

WHEREAS it is recognized that CASS provides an efficient and cost effective mechanism for accounting and settlement between airlines and CASS Associates and

WHEREAS CASS Associates participation in the CASS are ruled by the provisions of the Cargo Agency Rules and other Resolutions and Rules

WHEREAS the Cargo Agency Conference endorses re-requirements for CASS Associates, it is

Resolved, that the following requirements are adopted:

CASS Associates Global Requirements

1) CASS Associate new applicants will be requested to present an upfront financial security, as outlined under item 4.

2) 1 (one) CASS Airline sponsorship is required for new applicants.

3) Current CASS Associates with 3 Irregularities accumulated in the last 12 consecutive months are to provide a financial security, as outlined under item 4.

4) Amount of financial security to be calculated based the amount at risk.

"An individual financial security provided by a bank, such as a bank guarantee, standby letter of credit, or letter of credit; or if provided by other than a bank, an insurance bond or surety bond, or have acceptable default insurance, or an approved third party guarantee. The provisions for acceptability of providers of default insurance, bonds and guarantees provided by other than banks, including the type and terms of any such financial security guarantee or bond, are set out in Resolution 817."

Any financial security and guarantee provided to IATA must be renewed before it expires. Failure on the part of a CASS Associate to provide or maintain the required amount of any financial security, or renew its guarantee or security before the expiry date will result in suspension of the CASS Associate and notice of termination of the CASS Associate Agreement.

Financial Securities provided will be subject to a minimum cancellation, withdrawal, or amendment notice period to IATA of ninety (90) days, and ideally, be valid for an unlimited period but will be expected to be valid for a minimum of at least one year, if the validity is annually renewable.

“Amount at Risk” is calculated by dividing the CASS Associate’s total annual air cargo sales/settlements, or estimated settlements to airlines by 360 and multiplying that amount by the “Days at Risk”. In cases where a full year’s sales/settlements of the applicant/CASS Associate are not available via CASS or directly from the CASS Associate or from airlines, or if these sales/settlement figures no longer reflect the current situation of the CASS Associate, then an average of a shorter period, but not less than 3 months/90 days, may be applied.

The minimum amount of any Financial Security provided to IATA by a CASS Associate shall be USD 5,000 or equivalent in local currency, or as specified under the local requirements.

CASS CONSULTATIVE COUNCIL

CAC1(45)851f (except USA) (amended) Expiry: Indefinite
CAC2(45)851f (amended) Type: B
CAC3(45)851f (amended)

RESOLVED that:

1. In all CASS countries, the Cargo Agency Conference (CAC) hereby establishes a CASS Consultative Council (CCC), to ensure full local consultation between IATA and participating carriers with the national association(s) of cargo intermediaries (Forwarders and Agents), on the operation of the CASS-Export and CASS-Import.

2. In particular, the CCC shall ensure that any enhancements or modifications to the CASS, which could affect the Intermediaries’ interests, are discussed in advance with the local cargo-intermediaries’ association whose members could be affected by the proposed changes.

3. Upon receiving notice of the meeting and its agenda, the local cargo intermediaries’ association shall notify the Air Freight Institute of FIATA, provide it with an agenda, and to the extent possible, a list of the intended participants, at least 21 days in advance of the convening of a CCC.

4. The resulting views of the CCC shall be sent to and received by the IATA-FIATA Consultative Council for its consideration and legal review. To the extent that the proposed change to the CASS requires action by the CAC, the IFCC’s views shall be sent to and received by the CAC for its consideration in deciding whether or not to adopt the proposed changes to the CASS.

All of the procedures set forth in this Resolution and in Resolution 801c shall be completed prior to adoption or implementation of any proposed CASS enhancements or modifications that are subject to review under this Resolution.

In the event there is no local cargo intermediaries association representing the interests of either the local freight forwarders or cargo agents, IATA shall send notice of the CCC to the Chairman of the Air Freight Institute of FIATA, and FIATA shall assist in identifying candidates to attend the meeting such that the local intermediary community is appropriately represented.
RESOLUTION 851r
CARGO ACCOUNTS SETTLEMENT SYSTEM (CASS) PARTICIPATION RULES—FOR IFACP FORWARDERS

WHEREAS the IATA Cargo Accounts Settlement System (CASS) is in principle an efficient and cost effective mechanism created and administered by the International Air Transport Association (IATA) and its member airlines, for accounting and settlement between airlines and forwarders, subject to fair, transparent and non-discriminatory implementation.

WHEREAS the Conference wishes to deal with billing and remitting procedures, and participation related matters under the CASS in a single Resolution; and

WHEREAS to ensure that notwithstanding any variations in CASS participation rules and the IATA-FIATA Air Cargo Program (IFACP), the rules governing CASS billing and remittance matters shall be applied in a consistent manner, it is

RESOLVED that the following Procedures are adopted and shall be applied in conjunction with other applicable CASS participation rules, and IATA-FIATA Air Cargo Program Rules, or procedures set out in that Program Handbook.

1. IFACP FORWARDER PARTICIPATION IN CASS

1.1 To participate in CASS under the provisions of this Resolution, an IFACP Forwarder, as defined in Resolution 823, will be required to sign an IFACP Forwarder Agreement. Nothing is these procedures shall preclude a CASS Airline and a IFACP Forwarder from making alternative arrangements for accounting, billing and settlement on a bilateral basis outside of CASS.

1.2 Any reference made to the IFACP or IFACP financial criteria in this rule is solely at the discretion of the Cargo Agency Conference and not endorsed by the IFGB.

1.2 FINANCIAL STANDING REQUIREMENTS FOR IFACP FORWARDERS

1.2.1 The IFACP Forwarder must meet and comply with any Local Financial Criteria that apply in its country of business, or minimum global financial criteria, as established under the applicable IFACP Rules;

2. BILLINGS, REMITTANCES AND SETTLEMENTS

This Section is applicable to all IFACP Forwarders for the country/area of a CASS when amounts due to the Carrier(s) are billed and consequently are to be settled via the CASS.

2.1 GENERAL

2.1.1 Monies Due To CASS Airlines

Monies due to the CASS Airlines associated with the carriage of cargo shall be remitted through CASS.

2.1.2 CASS—Cargo Accounts Settlement System terms

For the purpose of these rules the term ‘CASS’ shall mean the system, which processes IFACP Forwarders’ accountable transactions to produce statements in the form of billings, collects IFACP Forwarders’ remittances in respect of such billings and disburses them to the CASS Airlines to which monies are due. Where the processing of accountable transactions and the collection/disbursement of monies are carried out by two separate institutions, which may include a Settlement Office and/or a Clearing Bank, the term ‘CASS’ shall mean those institutions either collectively or individually.

2.2 BILLING—FREQUENCY, PERIOD AND DATE

2.2.1 The Cargo Agency Conference shall set the frequency and length of the billing periods applicable to each CASS, which shall be consistent with the remittance frequency established. Each CASS airline shall submit data within a reasonable time in respect of the accountable transactions made on its behalf by IFACP Forwarders for billing, in accordance with the timetable and calendar of each CASS;

2.2.2 The billing frequency shall be as agreed for a specific CASS by the Cargo Agency Conference and notified to all participants in such CASS. The billing frequency shall relate to the remittance frequency in the respective CASS and should be at least twice each month, more often where shorter remittance cycles apply, but as a minimum must be at least once a month;

2.2.3 The time span covered by a billing hereunder shall be called the ‘Billing Period’. The Billing Period shall run from the close of business on each billing date to the close of business on the next billing date. The precise time span covered will be determined in each case by the date of the accountable transactions that each CASS Airline wishes to include in that billing. The last day of the billing period is hereinafter called ‘the Billing Date’;

2.2.4 Each CASS Airline must submit its data electronically through CASSlink, or as instructed by CASS, and shall ensure that all accountable transactions in respect of IFACP Forwarders are received by the CASS in time to be included in the next appropriate billing. A CASS Airline may also submit accountable transactions occurring prior
2.3 SETTLEMENT FREQUENCY AND REMITTANCE DATE

2.3.1 IFACP Forwarders shall remit monies due on CASS billings directly to Clearing Bank as per instructions provided by IATA from time to time. The day by which remittance is required to reach CASS under the provisions of this Subparagraph is hereinafter referred to as ‘the Remittance Date’.

2.3.2 IATA may require the IFACP Forwarder to provide the necessary information and/or an authorisation form permitting it to draw cheques on, or otherwise debit the IFACP Forwarder’s bank account in favour of the International Air Transport Association, or the institution designated, in payment of all amounts due to CASS Airlines. Such authorisation shall be in the form prescribed from time to time by IATA and shall be submitted by the IFACP Forwarder once, or for each Remittance Period. In the latter case IATA shall require the IFACP Forwarder to specify the maximum amount, including an adjustment factor, for which it is authorised to debit the IFACP Forwarder’s account;

2.3.3 The IFACP Forwarder shall give IATA 30 days advance notice by e-mail or certified or registered mail of its intention to change its bank or bank account(s);

2.3.4 A IFACP Forwarder having more than one office holding stocks of Air Waybills, may request in writing to IATA the authorisation for such field offices to be billed individually for Air Waybills issued from their stock. IATA shall assign an additional ‘Numeric Code’ for such purpose, in accordance with Resolution 821. Such individual billings shall be settled directly with CASS by the IFACP Forwarder’s office granted such authorization. The IFACP Forwarder’s (Head/Principal Office) shall remain responsible for the correct issuance of all such Air Waybill stocks and the timely settlement in respect of any and all billings by its individual field offices, or Branch Office Locations;

2.3.5 The time span in respect of which a remittance is to be made, hereinafter referred to as the ‘remittance period’. A Remittance Period shall not be shorter than a Billing Period but may cover more than one Billing Period.

2.3.6 ‘Remittance Date’ is the time and day when billed amounts must be paid to CASS. If the CASS is closed for business on the day on which the remittance is required to reach it, the remittance shall be made by the IFACP Forwarder so as to reach the CASS before its close of business on the first subsequent day when it is open for business;

2.3.6.1 The frequency of IFACP Forwarder remittances via CASS shall be as determined by the Cargo Agency Conference and notified by each CASS to all participants and published as the CASS calendar. It shall be at least once each month, but may be more frequent. Provided that, where feasible, IATA may also permit an individual IFACP Forwarder to voluntarily elect to remit at such greater frequency and for such length of time as deemed appropriate;

2.3.6.2 IFACP Forwarder remittance shall be made so that funds are cleared and reach the CASS by its close of business on a specified date, or specific number of days following the Billing Date under settlement, which shall be established in respect of each CASS and published for all participants. See Appendix ‘A’ for details;

2.3.6.3 The date and number of days shall reflect the remittance frequency which shall in not be later than the 30th day following the Billing Date; unless the Cargo Agency Conference exceptionally establishes a different date for a specific CASS or for a specific settlement method.

2.4 GRACE PERIOD

2.4.1 A ‘grace period’ is a number of additional days that may be established by Conference in respect of a CASS that will be allowed for IFACP Forwarders to settle any outstanding amounts, counting from and including the first day after the Remittance Date;

2.4.2 The Grace Period referred to in Paragraphs 3.1 below shall be ten calendar days, except where a specific shorter Grace Period has been established. The Grace Period that applies in CASS countries can be found in Appendix A.

2.5 CHANGES

2.5.1 Changes to the CASS Remittance Date and/or frequency referred to in this paragraph, and/or the Grace Period, shall be made by the Cargo Agency Conference in accordance with its due process, whenever possible, following consultation via an appropriate Local Customer Advisory Group Cargo (LCAGC) and Agent Liaison Working Group (ALWG);

2.5.2 Changes to the frequency or date of remittance taken by vote of the Cargo Agency Conference shall, take effect from a future date to be determined by Conference, on which date the result of such vote is declared effective.

3. IRREGULARITIES AND DEFAULT

The provisions of this Paragraph shall govern failures by IFACP Forwarders to adhere to the remittance procedures and/or dates set out above and in this Section.

3.1 IRREGULARITIES AND DEFAULT

The provisions of this Paragraph shall govern failures by IFACP Forwarders to adhere to the remittance procedures and/or dates set out above and in this Section.
3.1.1 Irregularities and Default

3.1.1.1 Circumstances which result in failure to adhere to the remittance procedures, for which the IFACP Forwarder will be served with a Notice of Irregularity and will accrue a specified number of penalty points, are:

| Overdue remittance/late payment | 1 penalty point |
| Dishonoured remittance/cheque   | 1 penalty point |
| Rejected debit/electronic transfer | 1 penalty point |
| Unauthorized short payment     | 1 penalty point |
| Failure to remit in correct Billing Currency | 1 penalty point |

3.1.1.2 A notice of irregularity shall be sent in writing to the IFACP Forwarder and set out the specific circumstances giving rise to the irregularity and will demand an immediate settlement if outstanding amounts are due by the Remittance Date. Only one irregularity notice and corresponding one penalty point shall be applied to an IFACP Forwarder in respect of the same billing or remittance period.

3.1.2 Extraneous Factors Affecting IFACP Forwarders, Bankruptcy, Cessations

3.1.2.1 IATA’s actions described in this Section, in respect of payment failures and non-receipt of remittances by CASS by the due date, shall not apply when it can be determined that the IFACP Forwarder had adequately undertaken all of the required remittance procedures, and that such non receipt had been caused by extraneous factors directly affecting the IFACP Forwarder, such as described in 3.5, 3.6 & 3.7 below;

3.1.2.2 An IFACP Forwarder shall be suspended from CASS and a notice of termination of its CASS participation shall be sent in the following circumstances:
   i. if there is a cessation in the operation or transfer of the IFACP Forwarder’s business to different entity than the one to which its IFACP Agreement relates;
   ii. in the event the IFACP Forwarder is declared bankrupt, placed in receivership or judicial administration, goes into liquidation or becomes subject to any other similar legal procedure affecting its normal operation, including actions affecting its license to trade (where this is officially required).

3.1.2.3 Concurrent with this suspension, a demand for payment and immediate settlement of all monies due shall be made when allowed by the provisions of applicable law in the IFACP Forwarder’s country of operation.

3.1.3 Demand for Payment

For the purpose of this paragraph, where IATA issues: a demand for immediate payment; or a demand for immediate accounting and settlement, the deadline for CASS’ receipt of such from the IFACP Forwarder shall be the close of business on the last day of the Grace Period.

Except in the circumstances described in 3.1.2.2 above, when immediate shall mean by the end of the next business day.

3.1.4 Overdue Remittance/Authorisation

3.1.4.1 If CASS has not received from a IFACP Forwarder by the Remittance Date either full remittance, or where required, an authorisation form as specified in Subparagraph 2.3.2 of this Section, in respect of its billings, IATA shall immediately send to the IFACP Forwarder a notice of irregularity and demand immediate payment from the IFACP Forwarder;

3.1.4.2 if the IFACP Forwarder does not comply with the currency of settlement as indicated in the billing statement, IATA shall issue a notice of irregularity to the IFACP Forwarder for non-compliance with payment procedures;

3.1.4.3 if subsequent to action taken pursuant to Subparagraph 3.1.4.1 above the IFACP Forwarder fails to make immediate and complete settlement of the amounts due or to submit the authorisation form, as applicable, by the last day of the Grace Period, IATA shall immediately take default action with respect to the IFACP Forwarder in accordance with the provisions of Paragraph 3.3 of this Section.

3.1.5 Dishonoured Cheque or Other Method of Payment

If a cheque, or debit, or any other method of payment in settlement of amounts due is dishonoured or rejected and results in non-payment by the drawee bank, IATA shall send to the IFACP Forwarder a notice of irregularity and demand immediate payment from the IFACP Forwarder of amounts due. Such notice shall count as one irregularity and penalty point for the purposes of the lists provided for in Subparagraph 3.1.6 of this Paragraph. If payment is not received by the last day of the Grace Period IATA shall immediately inform the IFACP Forwarder advising that default action is being taken, by reason of the dishonoured cheque, rejected direct debit or any other method of nonpayment. IATA shall simultaneously take default action with respect to the IFACP Forwarder in accordance with the provisions of Paragraph 3.3 of this Section.

3.1.6 Accumulated Irregularities

After each Remittance Date, IATA shall compile and publish to CASS Airlines a list containing the names of all the IFACP Forwarders that have been sent notices of irregularity and have accumulated a penalty points under any of the provisions of these Rules since the preceding Remittance Date. A notice of irregularity is provided for informational purposes and does not require any particular action by CASS Airlines.

3.1.6.1 When a Forwarder accumulates three instances of notices of irregularity during a 12 month period it shall be subject to a financial review by IATA to evaluate its financial standing. The financial review shall be based on a number of financial standing indicators which shall include an assessment of its most recent financial
3.1.6.2 If four instances and notices of irregularity, or any other number limit that has been agreed by the Cargo Agency Conference in respect of a CASS, are issued in respect of a IFACP Forwarder and are recorded on such lists during any 12 consecutive months, IATA shall immediately take default action with respect to the IFACP Forwarder in accordance with the provisions of Paragraph 3.3 of this Section.

3.1.7 IFACP Forwarder in Default as an IATA Approved Passenger Sales Agent

If the same legal entity that is an IFACP Forwarder in a specific country is also approved as a Passenger Sales Agent under the IATA Passenger Sales Agency Rules applicable in that country and such IATA Agent is declared in default in the Billing and Settlement Plan (BSP) and under those Rules has outstanding amounts due to Airlines, the IFACP Forwarder shall also be deemed in default under these CASS Rules and default action with respect to the IFACP Forwarder shall be taken in accordance with the provisions of Paragraph 3.3 of this Section.

3.1.8 Charges

3.1.8.1 notwithstanding the provisions of Subparagraphs 3.1.4 and 3.1.5 of this Paragraph, the Cargo Agency Conference may decide to sanction instances of failures to comply with procedures and instructions, which generate additional cost to CASS Airlines and instances of overdue remittances, by the levy of a general cost recovery or operational charge. The levels of such charge shall be determined from time to time by the Cargo Agency Conference and notified by IATA to FIATA and the local forwarders association (if any) and all IFACP Forwarders in the CASS area;

3.1.8.2 CASS operational charges shall be in the amount debited by IATA as a result of the IFACP Forwarder’s failure to remit as prescribed, increased, if applicable, by an amount to compensate for any extra costs incurred by IATA in relation to such failure;

3.1.8.3 when charges are to be levied, IATA shall instruct the CASS to debit an IFACP Forwarder for such charges, and then notify the IFACP Forwarder concerned;

3.1.8.4 charges debited to IFACP Forwarders pursuant to this Subparagraph shall, except as otherwise specified, be included by CASS in its first subsequent billing to the IFACP Forwarder concerned and shall be due and payable by the IFACP Forwarder by the Remittance Date applicable to such billing. Such charges shall, for the purpose of Subparagraph 3.3.1.1(b) of this Section, be deemed part of all amounts owing by the IFACP Forwarder;

3.1.8.5 Pursuant to Paragraphs 3.1.8.1 through 3.1.8.4 a standard administration fee to recover late remittance costs in the CASS operations governed under Resolution 851r is applicable for late remittances above USD 50 (or equivalent in local currency) based on the following formula: USD 128 (or equivalent in local currency) + (Bank base interest rate of unpaid amount + 2%) x (no. of days delayed)/365.

3.2 NOTIFICATION OF IRREGULARITY

When IATA is required under any of the provisions of Paragraph 3.1 of this Section to send to an IFACP Forwarder a notice of irregularity, it shall immediately send the IFACP Forwarder a written notification, by registered letter and/or e-mail, in the form prescribed from time to time advise all CASS Airlines in the area concerned; provided that where the CASS covers more than one country, the irregularity shall apply to the entire area of such CASS. A notice of irregularity is provided for informational purposes and does not require any particular action by CASS Airlines:

3.3 DEFAULT ACTION

3.3.1 If default action is required to be taken in accordance with any of the provisions of Paragraph 3.1 of this Section;

3.3.1.1 IATA shall immediately take the following action:

3.3.1.1(a) promptly advise the IFACP Forwarder that default action has been invoked, in respect of all of its Air Waybill issuing offices, with confirmatory written advice to be sent under registered cover;

3.3.1.1(b) demand an immediate full and complete accounting and settlement of all monies due and outstanding from the IFACP Forwarder whether or not the Remittance Date for payment thereof has arrived. The accounting obtained in respect of all its Air Waybill issuing office locations and any monies received shall be transmitted to the CASS;

3.3.1.1(c) notify all CASS Airlines in the area concerned of the default;

3.3.1.1(d) notify the IFACP Forwarder that it may initiate a review with the Commissioner pursuant to the provisions of Resolution 811e, Section 1.1.

3.3.1.2 IATA shall immediately advise the head offices of all Members that the IFACP Forwarder is in default as well as other CASS Airlines who do business with the IFACP Forwarder via CASS shall be notified;

3.3.1.3 CASS, on receiving notice that an IFACP Forwarder is in default, shall take the following action:

3.3.1.3(a) immediately suspend the IFACP Forwarder from CASS;

3.3.1.3(b) immediately establish from the Airline data submissions in its possession an up-to-date statement of indebtedness for the IFACP Forwarder concerned;

3.3.1.3(c) check any accounting and settlement obtained from the IFACP Forwarder and report any discrepancies;
3.3.1.3(d) distribute any monies obtained by the CASS from the IFACP Forwarder among the CASS Airlines concerned in accordance with the standing instructions of the Cargo Agency Conference;

3.3.1.4 CASS Airlines, on receiving notice that an IFACP Forwarder is in default and has been suspended from CASS shall individually determine how they will continue to conduct business with such IFACP Forwarder;

3.3.1.5 Billing Disputes
If it is identified, at any time, that a dispute exists with an individual item or individual airline, in respect of the CASS billing, an irregularity notice shall not be issued, or if already issued, it shall be withdrawn. IATA shall also withhold or withdraw any declaration of default resulting from such dispute. In the event that the CASS Airline does not admit the existence of a dispute, the Agency Administrator shall require the Forwarder either to supply documented evidence demonstrating existence of the dispute or, to pay the amount of the short payment into an ‘escrow account’. Provided that either of such conditions is met, the Agency Administrator shall withhold or withdraw the notice of irregularity. If still not resolved then the disputed item/issue shall be removed from CASS and shall be dealt with bilaterally between the parties concerned;

3.3.1.6 if a default is withdrawn, IATA shall so notify the IFACP Forwarder and all recipients of the declaration of default. The notice of irregularity giving rise to such default shall also be removed by IATA from the list maintained pursuant to the provisions of Subparagraph 3.1.6 of this Section;

3.3.1.7 thereafter, if the declaration of default is not withdrawn, the provisions of Section 3.3 of this Resolution shall apply.

3.4 SUBSEQUENT IRREGULARITIES
Notices of irregularity reported in accordance with Paragraph 3.1 of this Section in respect of sales effected between the end of the reporting period for which the IFACP Forwarder was declared in default and the date the IFACP Forwarder was declared in default shall not be entered on the list maintained by IATA.

3.5 REMITTANCE DELAYED BY OFFICIAL GOVERNMENT ACTION
Notwithstanding any other provision contained herein, an IFACP Forwarder shall not be sent a notice of irregularity or be declared in default with respect to all or any part of a remittance to the extent that the IFACP Forwarder is unable to make full settlement because of official Government action which directly prevents such settlement; provided that the IFACP Forwarder demonstrates that the amount due has been made available for remittance at a recognized bank but cannot be remitted owing to such official Government action.

3.6 FORCE MAJEUERE
The Forwarder or the Carrier shall not be liable for delay or failure to comply with the terms of the Forwarder Agreement to the extent that such delay or failure (i) is caused by any act of God, war, natural disaster, strike, lockout, labour dispute, work stoppage, fire, third-party criminal act, quarantine restriction, act of government, or any other cause, whether similar or dissimilar, beyond the reasonable control of the Forwarder or Carrier, and (ii) is not the result of the Forwarder’s or the Carrier’s lack of reasonable diligence.

3.7 BANK ERROR
3.7.1 A ‘Bank Error’ is one that is substantiated by evidence acceptable to IATA as provided for below, which resulted in the bank’s failure to honour a cheque or transfer, or otherwise make payment on behalf of the IFACP Forwarder, which consequently resulted in the IFACP Forwarder being issued with a notice of irregularity, or declared in default. If the bank error is substantiated the irregularity and/or default action shall be withheld or withdrawn and the same status of the IFACP Forwarder reinstated as prior to the incident.

3.7.2 Evidence of a Bank Error in all cases means an original bank letter provided to IATA, signed by a bank manager which must be sent to IATA within 10 working days of the incident by registered post or courier, stating that the delay in remittance was due to bank error and that the customer (IFACP Forwarder) had sufficient funds available at that time.

3.8 EXCEPTIONAL CHANGES TO REMITTING PROCEDURES
Notwithstanding any provision to the contrary in this Section, the frequencies of billing and remitting and/or the Remittance Date for any CASS country may be modified in response to exceptional changing economic or extraordinary circumstances by the Agency Administrator, using his autonomy to act in exceptional circumstances.

3.9 CASS IMPLEMENTATION—TRANSITIONAL RULES
Notwithstanding the provisions of Paragraphs 2.5 and 3.1 of this Section, the Cargo Agency Conference may establish different Billing or Remittance Dates, and Grace Periods for sales under the CASS concerned. Additionally, the Cargo Agency Conference may establish different accumulated irregularity provisions. These variations may apply for the first full year of CASS implementation only.

3.10 BILLING QUERIES
To ensure CASS billings are as accurate as possible the following procedures shall be implemented by all CASS participating airlines and GSSA’s.
3.10.1 Each CASS Participant will activate CASS-link online correction services, facilitating IFACP Forwarder billing adjustment requests via the automated web tool.

3.10.2 Each CASS shall implement a correction period within its processing calendar.

3.10.3 IATA shall enhance the CASS reporting calendar to include two additional deadlines;

3.10.3.1 A query notification deadline, by which date IFACP Forwarders must register billing queries through CASSlink. Such deadline shall be no less than 4 calendar days following the date of the CASS invoices for the billing period in question, where the CASS Remittance Period is 28–30 days, and no less than 2 calendar days following the date of the CASS invoices where the CASS Remittance Period is 15 days.

3.10.3.2 A query response deadline, by which date CASS Airlines must respond through CASSlink to all registered queries. Such deadline shall be no less than 4 calendar days prior to the Remittance date for the billing period in question. Responses may be one of the following;

3.10.3.2.1 Accept, meaning the Participant agrees with the registered query;

3.10.3.2.2 Reject, meaning the Participant does not agree with the registered query;

3.10.3.2.3 Airline handled, meaning the Participant agrees with the registered query and will be generating the appropriate credit within its own system for processing through CASS;

3.10.3.2.4 Amend, meaning the Participant wishes to process a credit for a different amount to that registered.

3.10.4 Prior to each CASS processing the correction period, established pursuant to paragraph 3.10.2 above, all registered queries in accordance with paragraph 3.10.3.1 that have not been responded to in accordance with paragraph 3.10.3.2 shall be automatically processed as approved.

3.10.5 Notwithstanding paragraph 3.10 above CASS Airlines may in subsequent billing periods re-invoice registered queries, which they subsequently determine should have been initially rejected.

4. CONSEQUENCES OF DEFAULT

4.1 DETERMINE IFACP FORWARDER’S INDEBTEDNESS TO CASS AIRLINES

4.1.1 When IATA has determined that an IFACP Forwarder, declared in default under any of the provisions of this Resolution, has failed to settle all amounts due, it shall give the IFACP Forwarder notice of termination of its participation in CASS and shall notify all CASS Airlines and the IFACP Program Secretariat of such action;

4.1.3 Upon receipt of a notice of termination the IFACP Forwarder shall have the right to request a review by the Cargo Commissioner;

4.1.4 The Cargo Commissioner, at his discretion, and depending upon the circumstances surrounding the default and/or actions following the default and/or following settlement of amounts due and actions described in 4.3 below, may uphold the decision to terminate or may retain the IFACP Forwarder, as described in 4.4 below.

4.2 SETTLEMENT OF AMOUNTS DUE

When a IFACP Forwarder declared in default is able to demonstrate to IATA prior to the termination date specified in the notice of termination that all outstanding amounts, if any, have been fully settled, IATA shall notify CASS Airlines accordingly. Thereafter, the provisions of Paragraphs 4.3 and 4.4, as appropriate of this Section shall apply.

4.3 ACTIONS FOLLOWING SETTLEMENT OF AMOUNTS

4.3.1 When IATA is satisfied that the IFACP Forwarder has effected settlement of all outstanding amounts, the IFACP Forwarder shall be required to furnish a financial security to allow a its reinstatement in CASS. The financial security shall be in a form prescribed by IATA, such as a bank guarantee, or other acceptable form of insurance or bond. It shall be in an amount equivalent to the IFACP Forwarder’s sales at risk, calculated on its CASS billings and remittance values for two latest periods, or the default amount, whichever is the greater.

4.3.2 Upon receipt of the required financial security, the Forwarder will be reinstated in CASS. Following reinstatement, the IFACP Forwarder may request a financial review in accordance with the Local Financial Criteria applicable in its country of operation and as described in the IFACP rules. Such review will only be conducted based on the financial position and audited accounts of the IFACP Forwarder dated no earlier than 6 months following the date of reinstatement.

4.3.3 If the IFACP Forwarder, having settled all outstanding amounts, is unable to furnish a financial security, or to demonstrate by a specified date that its financial and credit standing again satisfies the applicable Local Financial Criteria, IATA shall serve notice of termination to the IFACP Forwarder in respect of its participation in CASS.

4.3.4 Without prejudice to the notice of termination, if the IFACP Forwarder is able to furnish the required financial security, or to demonstrate a satisfactory financial standing meeting the Local Financial Criteria, the termination shall be waived and the provisions of 4.4 shall apply.
4.4 EFFECTS OF RETENTION AFTER SUSPENSION OR DEFAULT

4.4.1 If the IFACP Forwarder is reinstated and retained as a CASS participant after having complied with the provisions above, it shall be cleared of the default status and all irregularities recorded against it prior to the default. For the purposes of Subparagraph 3.1.6 of this Resolution, the commencement of the 12 months period shall be the date of IATA’s notice to CASS Airlines regarding the clearance of the Default status of the IFACP Forwarder, or the date of the decision by the Cargo Commissioner to retain the IFACP Forwarder as applicable.

RULES AND PROCEDURES LOCAL CUSTOMER ADVISORY GROUPS—CARGO (LCAGC)

1. Function
Local Customer Advisory Groups—Cargo (LCAGC) are established by the Cargo Agency Conference wherever a CASS is in operation. Each LCAGC provides advice to ISS Management on customer service issues and in particular, establishing and addressing local needs.

2. Membership
The LCAGC will normally consist of not more than 10 persons. The Cargo Agency Conference may authorise a larger number, following a request from an area. LCAGC members and their designated alternates shall be elected for a two-year term by all Participating Delivering Companies in that CASS, from nominations received from participating Delivering Companies. Ideally, LCAGC members should be suitably qualified representatives at a senior level, providing expertise in the different fields of the CASS activity. LCAGC members attend LCAGC meetings as local industry representatives.

3. Meetings, Quorum and Voting
The frequency of meetings is determined by ISS Management, in consultation with CPG or the LCAGC. A quorum shall be a simple majority (one half plus one) of the membership. Each LCAGC is a consultative body and therefore there will be no formal voting. LCAGC will act in the form of making recommendations. Each LCAGC will elect its Chairman from among its members. The local ISS Manager will act as Secretary of these meetings. Other Participating Airlines in the CASS may attend meetings as observers, subject to the prior consent of the CAGC Secretary. Representatives of non-airline entities participating in that CASS may attend certain parts of a CAGC meeting, at the invitation of its Chairman and ISS Management. Additionally, the local/regional ISS Manager may call a customer meeting, at least once per year.

4. Activities
ISS Management may typically consult a LCAGC for:
— advice, as a user forum, on all local matters presented to it by ISS Management, concerning the local operation of CASS.
— advice to the local ISS Manager on the establishment of local CASS business requirements and enhancements, especially where differences from worldwide policy and standards are sought.

guidance to the local ISS Manager, concerning:
— marketplace activities and development opportunities, and other local/area needs.
— other matters, as appropriate.

5. Agenda and Reports
The Agenda of each LCAGC shall consist of customer service issues on which ISS Management seeks the advice of the LCAGC, or proposals submitted by Participating Airlines. It shall be circulated by the LCAGC Secretary not later than 10 days before the start of the meeting. The report of LCAGC meetings shall be submitted to the CPG and circulated promptly by the Secretary to LCAGC Members, and all Participating Airlines. The Secretary of the LCAGC will provide a regular update on action taken pursuant to recommendations from the LCAGC.

CAC1(36)881 (except USA) Expiry: Indefinite
CAC2(36)881 (amended)
CAC3(36)881 (amended)

RESOLVED that, for the purpose of enhancing the professional ability and capacity of IATA Cargo Agents (hereinafter ‘Agents’) to generate, promote and sell international air cargo transportation, or to handle and prepare consignments ‘ready for carriage’ in accordance with applicable Resolutions, Members may, at their option, subject to the conditions contained in this Resolution, and subject to the issuing Member’s policy, procedures and priorities with regard to reduced fare transportation, grant such Agents international air passenger transportation at a discount.

1. AGENT ELIGIBILITY

An Agent may qualify for reduced fare transportation under this Resolution provided all the following minimum eligibility requirements are met:

1.1 At the time of application the Agent shall have been on the Agency List continuously for a period of not less than 12 months; and

1.2 At the time of application, through to the time of proposed travel, the Agent must not be under notice of default; or

1.3 At the time of application, through to the time of proposed travel, the Agent must not be under suspension.

2. ELIGIBILITY OF PERSON TRAVELLING

A reduced fare ticket may be issued under the provisions of this Resolution to the sole proprietor, partner, director and/or employee of an Agent when they meet all the following requirements; the person travelling must:

2.1 Have been in the service of the said Agent continuously and without interruption for not less than 12 months immediately prior to the date of the Application; provided that a period of not less than three months’ service with the Agent shall suffice where such person was in the service of another IATA Cargo Agent not more than 60 calendar days before commencing his/her present employment, was eligible under this Resolution and this is so certified in writing by the IATA Cargo Agent making the application; and

2.2 Devote in a full-time capacity all or substantially all of his/her time directly to the promotion and sale of air cargo transportation or arranging consignments ready for carriage, or the control, in a management capacity, of
accounting matters relating to air cargo transportation on behalf of the Agent; and
2.3 Be salaried and/or paid on a commission basis and be shown on appropriate disbursement records of the Agent; and
2.4 In the case where such person's full-time employment is not the Agent's country of registration, work hours not less than those normal for other eligible staff of such Agent, have no other gainful employment and be carried regularly and in good faith on the payroll or other relevant disbursement records of the Agent in its country of registration.

3. SUBORDINATES OF ELIGIBLE PERSONS

the eligibility of a person shall not in itself render eligible such person's subordinates who shall be eligible only if they meet all the applicable requirements of this Resolution.

4. FARE REDUCTION FOR SPOUSE

the spouse of a person travelling under the provisions of this Resolution may also be granted reduced fare transportation provided that:

4.1 The couple travel together from the point of origin to the point of destination in case of one way trips, or to the point of turnaround in case of round trips, or to the highest rated point in case of circle trips;
4.2 The discount granted is not greater than 50% of the applicable fare; provided that the discount shall only be applied to fares on which the discount for Agents provided for in this Resolution also applies;
4.3 Under this Paragraph no spouse shall receive more than one reduced fare ticket per calendar year from any one Member;
4.4 Such ticket shall not be deducted from the Agent's annual allotment described in Paragraph 5 of this Resolution;
4.5 Nothing herein shall preclude a spouse who is independently eligible for reduced fare transportation under the provisions of Paragraph 2 of this Resolution from applying and travelling in accordance with the provisions of this Paragraph.

5. ANNUAL ALLOTMENT AND DISCOUNT

the discounts specified in this Paragraph shall apply to the air fare for the class of service used but may not be applied to special inclusive tour basing fares, provided that when the charge for air transportation consists of a fare and a weekend surcharge, stopover surcharge or peak surcharge, the discount shall be based on the fare and such surcharge but shall not be applied to any other surcharge or charge such as a sleeper surcharge or excess baggage charge.

5.1 An allotment of not more than two tickets for one way, round or circle trip transportation in respect of each Agent registered for a specific country may be granted by each Member per calendar year at a discount not in excess of 75% of the applicable fare;
5.2 Where the total international sales eligible for commission of an IATA Cargo Agent exceed the average international sales eligible for remuneration for all Agents in the country of registration, pursuant to Subparagraph 6.1 of this Resolution, additional tickets for such Agent at a discount of 75% of the applicable fare as provided in Subparagraph 5.1 of this Paragraph may be issued per calendar year, up to a maximum of 40 tickets, as follows:

   for each 100% increment of sales eligible for commission or part thereof over and above the average—two additional tickets;
5.3 An allotment of not more than 20 discounted tickets for one way, round or circle trips, for each Agent registered for a specific country may be granted by each Member per calendar year, at a discount not in excess of 50% of the normal fare.

6. DETERMINATION OF AVERAGE SALES

6.1/6.1.1 The Agency Administrator shall determine the average sales eligible for commission for each country based on written reports submitted by the ISS Management in CASS countries, or by each Agent in other countries, of each Agent's total sales of international air cargo transportation eligible for commission. The ISS Management shall compile the sales reports taking into account the transactions processed through the CASS and reports solicited from Members not participating in the CASS setting out the total amounts of sales made by their Agents on their behalf. In so doing, the Agency Administrator shall use only written reports covering sales for a full calendar year,
6.1.2 If the average sales eligible for commission for a country exceed USD 1,500,000 for determining entitlement to additional tickets under Subparagraph 5.2 of this Resolution, USD 1,500,000 will be deemed to be the average,
6.1.3 Notwithstanding the fact the written report of an Agent registered in the course of a year shall not be used to determine the average sales for a country, the report shall be used to determine whether the Agent is entitled to additional tickets;
6.2 The Agency Administrator shall determine for each Agent any additional allocation to which it may be entitled under the provisions of Subparagraph 5.2 of this Resolution;
6.3 Each Agent's total sales, as reported by the CASS office of that country, and the number of such additional tickets, if any, shall be circulated to Members by the Agency Administrator not later than 1 December of each year for use during the following year. In case of non-CASS countries where the Agent's total sales are
reported individually by each Agent concerned, only the number of such additional tickets and not the Agent’s total sales figure shall be circulated to Members by the Agency Administrator not later than 1 December of each year for use during the following year, e.g. the written reports of Agents’ sales eligible for commission for 2005 shall be used as a basis for determining additional allocations during the calendar year 2007;

6.4 All information provided by the Agency Administration to a Member pursuant to the preceding paragraphs shall be treated by the Member as confidential information. Members shall not disclose such information to any third parties and such information shall be used by the Member solely for the purpose of determining the number of reduced fare tickets to which an Agent is entitled;

6.5 The Director General, the Agency Administrator, the Agency Commissioner and the ISS Management, in performing any action pursuant to Resolution 881 and to any other applicable Resolutions, act not as principals but as agents for the Members concerned. Members appointing Agents undertake to indemnify IATA, its officers, employees and other appointees against any liability (including liability for legal costs) for any action taken or omitted in good faith in the performance of their functions under Resolution 881. Any Member which fails to respect the provisions of Paragraph 6.4 shall indemnify and hold IATA and any other Members harmless from any and all claims or damages resulting from such action.

7. FAILURE TO SUBMIT SALES REPORTS

an Agent who fails to submit by 1 March the written report of his total sales of international air cargo transportation eligible for commission for the preceding calendar year shall not be entitled to any reduced fare international air passenger transportation under the provisions of this Resolution, for the following year.

8. TRIP AUTHORISATIONS

8.1 The Agency Administrator shall furnish each Agent registered in a specific country with numbered Trip Authorisations in the quantity required for reduced fare transportation pursuant to Subparagraph 5.2 of this Resolution, to be submitted by the Agent to the Member issuing the ticket. Such Trip Authorisations shall specify the calendar year within which they are valid, shall bear the name, address and numeric code of the Agent for which issued and subject to Paragraph 12 of this Resolution, may be used for interline transportation;

8.2 A lost Trip Authorisation will not be reissued or replaced by the Agency Administrator, except that a stolen or destroyed Trip Authorisation may be replaced by the Agency Administrator at the request of an Agent on receipt of evidence to the satisfaction of the Agency Administrator that a theft, fire or disaster which caused loss or destruction of the Trip Authorisation had occurred. Should any of the replaced Trip Authorisations be retrieved, these must be returned to the Agency Administrator by registered post;

8.3 The Agency Administrator shall notify all Members of the serial number of any Trip Authorisation(s) replaced in accordance with Subparagraph 8.2 of this Paragraph;

8.4 If usage of Trip Authorisations listed in Subparagraph 8.3 of this Paragraph is discovered by a Member, such Member shall report this fact to the Agency Administrator for appropriate action.

9. APPLICATION FORM AND PROCEDURE

when applying for reduced fare transportation as provided for in this Resolution the responsible official of the Agent shall fully complete and sign the Application Form prescribed in Attachment ‘A’ to this Resolution and submit it, in advance of the commencement of travel, to each air carrier participating in the itinerary. Where applicable, the application submitted to the first participating carrier in the itinerary shall be accompanied by the Trip Authorisation issued by the Agency Administrator. Each air carrier participating in the itinerary shall be responsible for granting approval and for the arrangements for issuance of their own Traffic Documents on their own services and on the services of another air carrier, if applicable. In the latter instance the Agent, if so required by the ticketing member shall obtain and submit to the ticketing Member the written concurrence of all other air carriers participating in the itinerary.

10. ACCEPTANCE PROCEDURE

10.1 The Member receiving the application need not accept it for processing;

10.2 The Member receiving the Application shall not grant the reduced fare transportation if it knows that the eligibility requirement or other requirements have not been met or if the Application is incomplete;

10.3 The reduced fare transportation may be granted whether or not there is an IATA Cargo Agency Agreement between each Member participating in the carriage and the Agent; provided that such an Agreement exists between the Member issuing the ticket or such Member’s General Sales Agent which is an IATA Member, and the Agent.

11. NON-ACCEPTANCE OR WITHDRAWAL OF APPLICATION

if the Member does not accept an Application or if the Agent withdraws the Application, or on its own volition cancels the travel covered by the ticket with no part having been used, the Trip Authorisation, if any, submitted in support of the Application shall be returned to the Agent. Where a Trip Authorisation to be returned has been mutilated or defaced by the Member in handling, it shall be forwarded by the Member to the Agency Administrator who shall replace it. Where the Agent returns a totally unused reduced fare ticket issued pursuant to Subparagraph 5.1 of this Resolution such ticket shall be reinstated to the Agent’s allotment with the Members concerned.
12. INTENTIONALLY OMITTED

13. TICKET VALIDITY
13.1 The ticket must be issued in the calendar year of the Application; and
13.2 In no case shall the ticket validity be more than three months from the date of issue.

14. TICKET ALLOTMENT DEDUCTIONS BY MEMBER
14.1 With respect to reduced fare transportation pursuant to Subparagraphs 5.1 and 5.3 of this Resolution, a charge shall be made against the Agent's total allotment of reduced fare tickets by each participating Member, provided that where a reduced fare ticket is issued in whole, or in part over a line which is operated in pool, the deduction pertaining to the pool sector shall be made by the pool partner Member issuing the ticket, whether or not that Member operates the actual pool services used; furthermore, where travel is on an interchange service under which the aircraft of one Member operate a through service from points on its routes to points on another Member's routes, under charter to such other Member, the deduction shall be made only by the Member operating the flight when the person travels exclusively on the interchange service;

14.2 An all-cargo active Member shall be entitled to arrange discounted tickets for travel between points served by such Member for each of its Agents as provided in Paragraphs 4 and 5 of this Resolution, over the lines of other Members, subject to all the provisions of this Resolution, except that:

14.2.1 Any such discounted tickets, shall not be deducted from the Agent's allotment with the carrying Member as provided in Subparagraph 14.1 of this Paragraph, but from the Agent's allotment with the all-cargo active Member;

14.2.2 Notwithstanding the provisions of Subparagraph 10.3 of this Resolution there need not exist an IATA Cargo Agency Agreement between the Member which issues the ticket and the Agent as long as such an Agreement exists between the all-cargo active Member and the Agent;

14.3 An Agent shall not be allowed to reimburse a Member for any reduced fare ticket issued and used for the purpose of reinstating any of its annual allotment for other reduced fare transportation;

14.4 Reduced fare transportation performed by a Member as a consequence of involuntary rerouting shall remain deducted from the Agent's allotment with Member(s) participating in the original routing and not be deducted from the Agent's allotment with the Member(s) over which the rerouting occurs;

14.5 No commission shall be paid on the reduced fare transportation provided under this Resolution.

15. BILLING
except as provided in Paragraph 16 of this Resolution, billing shall be effected not later than 30 days after the date of commencement of travel. The Agent must, within 15 days of billing, pay to the issuing Member the remittance due. If the Agent does not remit within such 15-day period, the delinquency and/or default procedures, otherwise applicable to the Agent under the provisions of Resolution 801r, Reporting and Remittance Procedures, shall apply.

16. BILLING WHERE ISSUANCE PRECEDES CONCURRENCE OF PARTICIPATING AIR CARRIERS
notwithstanding the provisions of Paragraph 12 of this Resolution, it shall be permissible for a Member, where one or more participating carriers' concurrences have been requested but have not been received prior to departure date, to issue the ticket, subject to the following conditions:

16.1 The ticket is issued not earlier than ten days after the Application for the reduced fare transportation has been received and the Agent gives a written guarantee he will pay, within 15 days of billing by the issuing Member, the full applicable fare for each sector for which a concurrence has been rejected; the Member must render such billing within 30 days of the date of receipt of any such rejection;

16.2 The Agent must, within 15 days of billing date, pay to the issuing Member the remittance due. If the Agent does not remit within such 15-day period the delinquency and/or default procedures, otherwise applicable to the Agent under the provisions of Resolution 801r, Reporting and Remittance Procedures, shall apply.

17. CHANGE IN ELIGIBILITY
if at any time prior to commencement of travel there is a change affecting the eligibility of the Agent or of the person on whose behalf the Application for reduced fare transportation is made (e.g. the Agent comes under notice of default, is suspended or the person leaves the employ of the Agent), the charge shall immediately so notify the Member whose ticket is issued and shall immediately return the ticket to that Member. The travel approval granted by the Member shall no longer be valid; provided that the Member shall be responsible for canceling the reduced fare transportation only if it knows or reasonably should have known of the changed eligibility. Whenever the provisions of this Paragraph are applied, the retrieved reduced fare ticket shall be reinstated to the Agent's allotment with the Member(s) concerned and where applicable the Trip Authorisation should be returned by the issuing Member to the Agency Administrator for replacement. The issuing Member shall notify concuring Members accordingly.
18. RETROACTIVE APPLICATION

Notwithstanding the application in advance requirement in Paragraph 9 of this Resolution it shall be permissible for a Member to accept an Agent’s retroactive Application where there were exceptional and compelling reasons why the Agent was unable to submit an Application in advance; such retroactive acceptance may be granted if an Application is submitted not later than three months after date of purchase of the full fare ticket, in which case it must be deducted from the annual allotment of the year when the full fare ticket was issued or be supported by a Trip Authorisation valid for the year in which the full fare ticket was issued provided that:

18.1 The Agent is in all other respects eligible for such reduction;

18.2 The Member accepting such retroactive Application shall obtain from the Agent a letter explaining the exceptional and compelling reasons for such retroactive Application.

19.4 Copies of all Applications accepted by the Member to which the Application was made.

20. LIABILITY FOR ACCURACY OF APPLICATIONS

the Agent shall be solely responsible for the accuracy of each and every Application. Notwithstanding any action taken pursuant to the provisions of the Cargo Agency Rules, in the event that an the Agency Administrator determines that the Agent, in an Application for reduced fare transportation under the provisions of this Resolution, has made a material misrepresentation, the Agent shall be deemed to have forfeited all reduced fare transportation privileges available under the provisions of this Resolution for a period of two years. The Agency Administrator shall notify the Agent and all Members of such forfeiture which shall commence 30 days after the date of the Agency Administrator’s notice. For purposes of this Paragraph, a material misrepresentation is any statement in or omission from an Application for reduced fare transportation which conveys or implies that the Agent, or the person on whose behalf the reduced fare transportation is requested, is eligible for the grant of such reduced fare transportation when in fact either the Agent or such person is not so eligible.

21. SURRENDER OF TRIP AUTHORISATIONS

Whenever reduced fare travel privileges available in accordance with this Resolution to an Agent are suspended or terminated pursuant to this Resolution or the Cargo Agency Rules, the Agent shall surrender to the Agency Administrator all unused Trip Authorisations and shall account for all used Trip Authorisations. The Agency Administrator may designate a Member to recover such Trip Authorisations and effectuate such accounting. The Agency Administrator shall return such Trip Authorisations to the Agent when the reduced fare transportation privileges of the Agent are reinstated.

### IATA MEMBER AIRLINES APPOINTING BY GENERAL CONCURRENCE

The following Members have deposited a Statement of General Concurrence with the Agency Administrator for the appointment of Agents pursuant to the provisions of Resolutions 801, 805 and 807, Section 2, Subparagraph 2.4.1.1(a), Resolution 803, Section 1, Subparagraph 1.4.1.1, and Resolutions 809 and 813, Section 3, Subparagraph 3.4.1.1.

The Chart shows three columns indicating by an ‘x’ whether such appointment by general concurrence applies to Agents situated in Area 1, 2 or 3 and the European Air Cargo Programme (EACP). Where such appointment for an area is limited to or excludes a certain geographical area a note is shown instead of an ‘x’.

In order to act as an appointed Agent for Members not listed below, or not listed for a particular area or in countries or geographical areas not covered by the general concurrence, an Agent must hold a valid Certificate of Appointment.

IATA PUBLICATIONS OF PARTICULAR INTEREST TO CARGO AGENTS

AIRLINE CODING DIRECTORY
Who could imagine running an airline without using codes? Codes are essential for airline operations...and they have to be the correct ones. This publication is the official industry source for airline designators, location identifiers and three-digit airline numeric codes. The manual also includes ISO/IATA currency codes and lists contacts for: reservations department heads, control office addresses, emergency notification, ticketing time limits, minimum connecting time coordinators and airlines applying reconfirmation procedures. Published in English and available by annual subscription. Computer tapes are also available for Location Identifiers and Airline Codes.

AIR WAYBILL HANDBOOK
This is the official guide for the issuance of the air waybill. Prepared by an international group of airline experts, it explains in detail how each entry should be recorded on the air waybill. The examples contained in the Handbook assist the reader in understanding the most complicated rating and routing conditions and illustrate how the requirements are entered on the air waybill. Published annually in English only.

CARGO AGENT'S HANDBOOK
Sets out the Resolutions and other provisions which are of interest to IATA Cargo Agents in the exercise of their rights and obligations as registered Agents, and contains information of practical value in their day-to-day work. The Handbooks are published in English, French and Spanish.

CARGO CLAIMS AND LOSS PREVENTION HANDBOOK
For the Airlines as well as Cargo Agents/Intermediaries Cargo claims normally result in upset customers, additional costs and wastage of resources. Although Cargo Claims can not be totally eliminated, with proper handling of Claims the resultant loss and inconvenience can be substantially reduced. Packed with practical information, this new Handbook is a complete resource for Airlines, Forwarders and others who share an interest in cost-effective claims handling and loss prevention. The 2nd edition of this popular handbook will be published in October 2007.

CARGO INTERCHANGE MESSAGE PROCEDURES MANUAL (CARGO-IMP)
Cargo automation between airlines and with customs can only work efficiently if it is based on universally agreed formats and message procedures. Cargo-IMP is the official source for message specifications covering space allocation, air waybill information, flight manifest, accounting, status, discrepancy, embargo and proposed airline-custom systems. It also includes an encoding and decoding list of all approved codes and abbreviations including the location identifiers. Published annually in English only.

DANGEROUS GOODS REGULATIONS
Shipping dangerous goods by air has become a very important part of the air freight business. Because of the nature of these goods, however, special care must be taken not to harm passengers, staff and equipment. The IATA Dangerous Goods Regulations contain all provisions mandated by ICAO and all rules universally agreed by airlines to correctly package and safely transport dangerous goods by air. Published annually in English, French, German, Spanish, Japanese, Russian and Chinese.

LIVE ANIMALS REGULATIONS
The public at large is concerned about animal welfare. Airlines, shippers and intermediaries involved in the air transport of live animals have a vital interest in the animals reaching their final destination in good health. The IATA Live Animals Regulations describe the container to be used for carriage for each kind of animal and the precautionary measures to be taken during ground and air transportation. The Regulations also contain a comprehensive list of animals including those which are considered endangered species. The Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES) and the Office International des Epizooties (OIE) have endorsed the IATA Regulations as guidelines for air transportation of animals. Published annually in English, French and Spanish.
PERISHABLE CARGO MANUAL

The IATA Perishable Cargo Manual is a reference guide for all parties involved in the packaging and handling of perishables for air transportation. It provides the producers and shippers with an insight of the packaging and preparation requirements that will help minimise damages and losses, and most important maintain the quality of products throughout the transportation chain. Published every two years in English only.
