

AUTOMATING THE PASSENGER TRAVEL DOCUMENT CHECKS ...WITH

timatic **AutoCheck** 

What is Timatic AutoCheck?

Timatic AutoCheck provides a **XML interface** into the Timatic database and can be integrated into airlines and other travel related systems.

Timatic AutoCheck enables Airlines and Ground handlers to automate the Passenger Travel Document Compliance process, so that 100% of International Passengers can have their document checked automatically.

When and how is Timatic AutoCheck done?

When passengers scan their travel document for their international flight, the document data is combined with the itinerary data (PNR) and submitted to Timatic AutoCheck.

AutoCheck then provides a **Yes/No** decision on whether the passenger has sufficient travel documents. If a **Yes** is returned, the check-in process can proceed seamlessly!

Timatic AutoCheck covers information on the following areas:

Passport regulations and recommendations

Visa regulations and recommendations

Health regulations and recommendations

Airport Tax to be paid by the traveller at either departure or arrival airport

Customs regulations relating to import/export of goods and small pets by a passenger

Currency regulations relating to import and export by a passenger

IATA continues to develop new solutions based on Timatic which are tailored to the needs of Airlines, Travel Agents, Ground handlers and other aviation related organizations.

Benefits for Timatic AutoCheck user

Timatic AutoCheck can **SAVE AIRLINES UP TO US\$0.59** per international passenger

Reduction in manually screening processes -

\$0.21

Immigration Fines including repatriation & hotel costs

\$0.14

Self Service Opportunity Cost

\$0.24

USP
