Focus on Freighters Track Summary:

The focus of this track is to highlight the new technologies, expectations and new economics of freighter capacity strategy happening in the near future!

09:00 – 09:20	Welcome address and Opening Remarks
09:20 – 09:40	Keynote speech
09:40 – 10:00	Freighter Technology <i>Freighters are critical to compete in air cargo markets, what can we do to stay ahead of the game? What are the new innovations happening in both new built as well as converted freighter</i>
10:00 – 10:30	Economics of freighter capacity strategy <i>In 2020 the IMO (International Maritime Organization) have set a deadline for more stringent regulations on vessel emissions. Less than 3% of the current vessels can meet these standards. This could cause a shift from traditional ocean transport to air transport. What impact will this have on freighters?</i>
10:30 - 11:15	Networking Break
11:15 - 11:55	Panel: Airline expectations - In 2019 are freighters still necessary? <i>This interactive panel of high level airline executives will challenge the pros and cons of freighter operation in this changing world.</i>
11:55 – 12:20	<i>What can be done in the freighter world without having to wait on the passenger side...</i>
12:20 – 12:30	Closing Remarks
