

STEP 1: Download and install the IATA Reader

- 1- You need the IATA Reader application to access the IATA publications. If you don't have it installed already, you can download it from the link below:

<https://cargo-download.iata.org/Default.aspx?desktopreader=download>

- 2- When downloading the file, you may get a security warning. If this is the case, select Keep.

- 3- Double-click the file and the IATA Reader will begin installing. This may take a few minutes depending on your system.
- 4- Choose **Next** to continue the installation, then read and accept the terms of the license agreement:

- 5- Continue the installation by clicking on **Next** when needed, until you can click the **Finish** button.
- 6- Click the IATA Reader shortcut on your desktop. You may get a quick message while it downloads the Library File, which contains the list of publications.

- 7- The IATA Reader should open in “My Library”. The publications you see here are not installed initially, but they can be added if you have a valid product key. The publications added to the library will have a checkmark in the top right corner.

- 8- To add your purchased publication, see the next section: **“Step 2: Add your IATA Publication”**.

STEP 2: Add your IATA Publication

****Please note that you need to install the IATA Reader first. If you haven't already, follow the previous instructions: "[Step 1: Download and install the IATA Reader](#)".**

- 1- To download your IATA Reader publication, select "**Add Publications**" on the left, then "**Download...**"

- 2- Enter your product key then click "Download". This will download and add the publication to My Library:

If you get an error message at this step, your local security (firewall / proxy server) may be blocking the download and it may be easier download and add the publication module manually. Please refer to the next section [Manual download](#).

- 3- In My Library, enable the option to "View only available" at the top. Only your added publications will appear:

- 4- Double-click the publication tile to open it. This will start the activation process. You will need to read and accept the End User License Agreement to continue.
