### Section 1—Introduction
1

1.1 IATA—Who We Are; What We Do 1

1.2 IATA’s Airport Activities 1

1.2.1 Airport Consultative Committees (ACCs) 2

1.2.2 IATA Consulting Services for Airports 2

1.2.3 International Industry Working Group 3

1.3 Other IATA Airport Activities 4

1.4 Airports Council International (ACI) Collaboration 4

1.4.1 Introduction to Airports Council International (ACI) 4

1.5 Purpose of the Airport Development Reference Manual 5

1.6 Emerging Trends 6

1.7 How to Use the ADRM 6

1.8 Reference Marks 7

## Section 2—Forecasting
9

2.1 Introduction and Definition 10

2.2 Economic Base for Air Travel 12

2.2.1 Airport Catchment Area 12

2.2.2 Socioeconomic Base 13

2.2.3 Transfer Traffic 14

2.2.4 Airline Yields 15

2.2.5 Tourism 15

2.2.6 Trade 17

2.2.7 Intermodal Transportation 17

2.2.8 Economic Base Data Analysis 18

2.3 Historical Aviation Activity 18

2.3.1 Data Collection 19

2.3.2 Airport Role 23

2.3.3 Historical Passenger Volumes 24

2.3.4 Top Domestic and International Destinations 24

2.3.5 Historical Market Share by Airline 24

2.3.6 Historical Air Cargo Tonnage 25

2.3.7 Historical Movements by Segment 25

2.3.8 Forecast Impact Factors 26

11TH EDITION, MARCH 2019
2.4 Competitive Analysis ................................................................. 26
2.5 Review of Existing Forecasts ...................................................... 27
2.6 Common Forecasting Techniques ............................................... 27
  2.6.1 Trend/Time Series ................................................................. 28
  2.6.2 Consensus Forecasts ............................................................ 28
  2.6.3 Market Share Forecasts ......................................................... 29
  2.6.4 Econometric/Regression Model ........................................... 29
2.7 Passenger Activity Forecast ....................................................... 34
  2.7.1 Passenger Activity Segments ............................................... 34
  2.7.2 Passenger Activity Benchmarking ....................................... 35
  2.7.3 Passenger Activity Alternative Scenarios ............................. 35
2.8 Baggage Forecast ...................................................................... 36
2.9 Air Cargo Activity Forecast ....................................................... 37
  2.9.1 Air Cargo Supply and Demand ............................................ 37
  2.9.2 Cargo Data Analysis ............................................................. 39
  2.9.3 Cargo Market Forecast Benchmarking ................................. 40
  2.9.4 Cargo Activity Forecast ....................................................... 41
2.10 Air Transport Movement Forecast .......................................... 42
  2.10.1 ATM Segments ................................................................. 42
  2.10.2 Passenger ATMs ............................................................... 42
  2.10.3 Freighter ATM Forecast .................................................... 46
  2.10.4 General Aviation ATM Forecast ........................................ 47
  2.10.5 Military/Government ATM Forecast ................................. 49
  2.10.6 Total ATM Forecast .......................................................... 49
2.11 Peak Period Forecast ............................................................... 49
  2.11.1 Peak Period Traffic Measure .............................................. 49
  2.11.2 Incorporating Directionality into Peak Hour Analysis .......... 51
  2.11.3 Peak Period Forecasts ....................................................... 51
  2.11.4 Conclusions Regarding Peak Period Analysis .................. 53

Section 3—Planning ........................................................................ 55
3.1 Introduction .................................................................................. 55
3.2 Master Planning ........................................................................ 55
  3.2.1 Introduction ........................................................................ 56
  3.2.2 Consultation ....................................................................... 60
  3.2.3 The Master Planning Process ............................................. 65
  3.2.4 Preplanning ........................................................................ 68
  3.2.5 Traffic Forecasts ................................................................. 72
  3.2.6 Data Collection, Site Evaluation and Facility Potential .......... 73
  3.2.7 Requirements Analysis ....................................................... 79

3.5 Cargo Terminal

3.5.1 Introduction

3.5.2 Cargo Operations

3.5.3 Digital Cargo

3.5.4 Air/Rail Cargo

3.5.5 The Cargo Apron

3.5.6 The Cargo Facility

3.5.7 Forecasting and Sizing

3.5.8 Sizing Parameters

3.5.9 Cargo Design Considerations: Scope of Evaluation

3.5.10 Typical Cargo Flows

3.5.11 Cargo Communication Controls

3.5.12 Cargo Control Regulations

3.5.13 Cargo Security Controls

3.5.14 Cargo Safety Controls

3.5.15 Cargo Government Controls

3.5.16 Cargo Facilitation

3.5.17 Express Cargo Processing

3.5.18 Perishable Cargo

3.5.19 Mail Facilities

3.6 Airport Support Elements

3.6.1 Aircraft Maintenance

3.6.2 Airline Administration Buildings

3.6.3 Airport Authority Administration

3.6.4 Airport Maintenance and Logistics

3.6.5 Aircraft Deicing/Anti-Icing Facilities

3.6.6 General Aviation

3.6.7 Ground Service Equipment Maintenance

3.6.8 Aircraft In-Flight Catering Facilities

3.6.9 Airport Security/Controlled Access

3.6.10 Vehicle Refueling and Recharging Stations

3.6.11 Airport Fire Services

3.6.12 Utilities

3.6.13 Airport Collaborative Decision-Making
