BY INSTALLING AND USING THE SOFTWARE, CUSTOMER ACCEPTS THE SOFTWARE AND AGREES TO THE TERMS OF THIS AGREEMENT. READ IT CAREFULLY BEFORE COMPLETING THE INSTALLATION PROCESS AND USING THE SOFTWARE. BY INSTALLING AND/OR USING THE SOFTWARE, YOU ARE CONFIRMING YOUR ACCEPTANCE OF THE SOFTWARE AND AGREEING TO BECOME BOUND BY THE TERMS OF THIS AGREEMENT. IF YOU DO NOT AGREE TO BE BOUND BY THESE TERMS, OR DO NOT HAVE AUTHORITY TO BIND THE CUSTOMER TO THESE TERMS, THEN DO NOT INSTALL AND/OR USE THE SOFTWARE AND RETURN THE SOFTWARE TO YOUR PLACE OF PURCHASE FOR A FULL REFUND IN ACCORDANCE WITH ITS REFUND POLICIES. THIS EULA SHALL APPLY ONLY TO THE SOFTWARE SUPPLIED BY IATA.

Definitions

"Software" means the IATA software program(s), web based applications, electronic publications, any and all data, text, standards, information, picture or video, developed, owned, or with rights held by IATA, presented on any and all media (collectively the "Content"), and third party software programs, in each case, supplied by IATA herewith, and corresponding documentation, associated media, printed materials, and online or electronic documentation. Any updates to such Software which you are entitled to receive and that has been provided to you by IATA shall also mean Software for purposes of this Agreement.

1. Grant of License

- 1.1 IATA grants to you a personal, limited, non-exclusive, non-transferable, single-user and per device license to use the Software, subject to the terms and conditions set forth in this EULA.
- 1.2 Subject to Section 1.3 below and this license remaining a single-user and per device license, You may install and use the Software on one device. You may not install and store the Software on a storage device, such as a network server. For greater certainty, a license for the Software may not be shared, installed or used concurrently on different computers as it is licensed on a per user and per device basis. Except solely for purposes of installing the Software on a computer, a license for the Software may not be accessed and used via a server or network storage device, including without limitation through Citrix and other application virtualization/application streaming environments. Subject to the terms and conditions set forth in this EULA, you shall not have more than one installation and activation of the Software on any single device. As a condition of activation of the Software, each user is required to unambiguously identify themselves with, without limitation, a valid e-mail address in order to register. Periodic validation of the activation code is performed automatically. Any registered user who is found to breach the terms of this Agreement will have their software deactivated.
- 1.3 License transfer to another device is permitted if that device is to be used by You; it is performed by deactivating the application on the current device and reactivation onto another device. However, license device transfer requests performed manually by IATA shall be limited to two transfers for each activation code. This limit is a security measure designed to prevent software piracy.
- 1.4 Subject to the terms and conditions of this Agreement, in the event the Software is distributed along with other IATA software products as part of a suite of products (collectively, the "Solution"), the license of the Solution is licensed as a single product and none of the products in the Solution, including the Software, may be separated for use.
- 1.5 You may make one copy of the Software in machine-readable form solely for backup purposes. You must reproduce on any such copy all copyright notices and any other proprietary legends on the original copy of the Software. You may not sell or transfer any copy of the Software made for backup purposes.
- 1.6 You agree that IATA may audit your use of the Software for compliance with these terms at any time, upon reasonable notice. In the event that such audit reveals any use of the Software by you other than in full compliance with the terms of this Agreement, you shall reimburse IATA for all reasonable expenses related to such audit in addition to any other liabilities you may incur as a result of such non-compliance.

2. License Restrictions

- 2.1 Other than as set forth in Section 1, you may not make or distribute copies of the Software, or electronically transfer the Software from one computer to another or over a network.
- 2.2 You may not alter, merge, modify, adapt or translate the Software, or decompile, reverse engineer, disassemble, or otherwise reduce the Software to a human-perceivable form.
- 2.3 You may not rent, lease, sublicense, distribute or disclose the Software.
- 2.4 You may not sell or transfer your rights under this EULA as this is a personal single-user and per device license.
- 2.5 You may not modify the Software or create derivative works based upon the Software.
- 2.6 You may not export the Software into any country to which export or transmission is restricted by any applicable regulation or statute without prior written consent of the competent governmental authority and having formally notified IATA.
- 2.7 You may receive the Software in more than one medium but you shall only install or use one medium. Regardless of the number of media you receive, you may use only the medium that is appropriate for the server or computer on which the Software is to be installed.
- 2.8 You may receive the Software in more than one platform but you shall only install or use one platform.
- 2.9 You shall not use the Software to develop any product having the same primary function as the Software.
- 2.10 In the event that you fail to comply with this EULA, IATA may terminate the license and you must destroy all copies of the Software (with all other rights of both parties and all other provisions of this EULA surviving any such termination).
- 2.11 Notwithstanding anything herein to the contrary, you may not install the Software on a server for multiple user access or use.
- 2.12 You may receive the Software in more than one language but you shall only install or use one language version.
- 2.13 IATA technical support is limited and conditional to submitting proof of purchase of a valid Software license and activation code. IATA technical support is intended for general purposes and guidance only during installation, activation and usage. It is duly stated that IATA technical support has no obligation to attempt to resolve configuration or environment issues which do not constitute a Software defect. IATA reserves the right to change the terms and conditions of its support offering any time, from time to time and without notice.

3. Upgrades

If this copy of the Software is an upgrade from an earlier version of the Software, you must possess a valid full license to a copy of an earlier version of the Software used to upgrade to this upgrade copy in order to install and/or use this upgrade copy. You may continue to use each earlier version copy of the Software to which this upgrade copy relates on your computer after you receive this upgrade copy, provided that, (i) the upgrade copy and the earlier version copy are installed and/or used on the same computer only and the earlier version copy is not installed and/or used on any other computer; (ii) you comply with the terms and conditions of the earlier version's end user license agreement with respect to the installation and/or use of such earlier version copy; (iii) the earlier version copy or any copies thereof on any computer are not transferred to another computer unless all copies of this upgrade copy on such computer are also transferred to such other computer; (iv) the earlier version copy or any copies thereof are not transferred to any other party unless you also transfer this upgrade copy and any copies thereof to such other party in accordance with Section 2; and (v) you acknowledge and agree that any obligation IATA may have to support and/or offer support for the earlier version of the Software may be ended upon availability of the upgrade.

4. Prior Same Version License and Exchanges

If this copy of the Software is licensed as part of a Solution (as defined above), and you have a prior license to the same version of the Software, and the Solution was licensed to you with a discount based, in whole or in part, on your prior license to the same version, the Software is provided to you on a license exchange basis. You agree by your installation and use of this copy of the Software to voluntarily terminate your EULA with respect to such prior license and that you will not continue to install or use such prior license of the Software or transfer it to another person or entity.

If this copy of the Software ("New License") has been acquired via a permitted exchange (other than in connection with an upgrade) with a different type of Software license previously acquired by you ("Old License"), you must possess a valid full license to a copy of such Old License in order to install and/or use this New License, and the New License is provided to you on a license exchange basis. You agree by your installation and/or use of such copy of the New License to voluntarily terminate your earlier EULA to the Old License and uninstall, destroy and cease using the Old License. You agree to not transfer the Old License to another person or entity.

5. Ownership

The foregoing license gives you limited license to use the Software. IATA and its suppliers retain all right, title and interest, including all copyright and intellectual property rights, in and to, the Software and its Content, which may be presented on any and all type of media, including without limitation, print material or electronic format (as an independent work and as an underlying work serving as a basis for any application you may develop), and all copies thereof. The Content may, as the case may be, constitute a work formed by the collection and compilation of pre-existing materials or of data, or derivatives thereof, which are selected, coordinated, or arranged, by IATA personnel in collaboration with personnel of IATA member airlines, in such a way that the resulting work as a whole constitutes an original work of authorship. All rights not specifically granted in this EULA, including Federal and International Copyrights, are reserved by IATA and its suppliers.

IATA shall have no responsibility if the Software has been altered in any way, if the media has been damaged by misuse, accident, abuse, modification or misapplication, or if the failure arises out of use of the Software with other than a recommended hardware configuration.
