About and Definition of Terms

The IATA TTBS Reporting Form is the online form used to file any amendment to existing taxes, fees and charges or for filing new codes for taxes, fees or charges.

Amendments to existing taxes, fees and charges could be one of 2 forms: (1) amendment to an **official amount** or (2) **carrier specific amount**.

To be considered an **official amount**, the following conditions must exist:

1. Minimum amount for all; fixed, not variable amount
2. Unavoidable; charges are imposed on everyone that uses a given facility.
3. Levied on all carriers with the same terms and conditions and NOT prohibited from collection or where legislation specifically requires individual carriers to obtain permission to apply a fee or charge these will be considered as official amounts however they will be considered as applicable to carrier XX only.
4. Levied on a per passenger basis.
5. Mandated based on law or regulation in legislation or published by airport authority in schedule of charges.
6. Excludes individual agreements between airports and airlines.

If an amendment does not satisfy all the criteria above, it may be considered a carrier specific amount. An amendment filing is a **carrier specific amount** if:

- It is supported by an official document with a specific mention that it is for a specific carrier only; and/or
- If at least one of the conditions to qualify for an official amount is not met.

All other carrier specific filings not covered by an official document should be filed directly with ATPCO as a **carrier exemption**.

New Tax, Fee, Charge (TFC) filing can be one of 2 forms: (1) **Creation of a new TFC** or a (2) **Conversion of non-ticketable to ticketable TFC**.
Form for New Taxes, Fees and Charges

This form is used to file for new codes for taxes, fees and charges

New Tax, Fee, Charge (TFC) filing can be one of 2 forms: (1) Creation of a new TFC or a (2) Conversion of non-ticketable to ticketable TFC.

Determine if the filing falls into any of the following.

(a) TFC rate same for all airports
   Choose this option when one (1) new tax, fee or charge (TFC) amount applies to all airports.

(b) TFC rate different per airport: one (1) to three (3) airports
   Choose this option when the new tax, fee or charge (TFC) amount applies to either one (1) up to three (3) airports. Example: one rate is applied to airport MNL, another rate is applied to CEB, another rate is applied to CLK.

For (a) and (b) scenarios above, follow the steps:

Step 1 - Access the TTBS Database: https://ttbs-ratd.iata.org

Note 1: If you have not filed an IATA Reporting Form with TTBS before, kindly register here: https://ttbs-ratd.iata.org/TTBS-RATD/Register.aspx

Note 2: Those who have access to the old Form 3 are automatically given access to the new version and there is no need to re-register.

Step 2 - Set the page to 100% for optimum viewing

Step 3 - Start filling up the fields.

There are hover-over definitions per field which provide more information on what is required.

In case you do not see the applicable taxes, fees or charge code you need under the TAXES, FEES, CHARGES dropdown, populate the TAXES, FEES, CHARGES NOTES
APPLICATION DESCRIPTION FIELDS are used to describe how the taxes, fees or charge will be applied;

For PERCENTAGE TAX, MINIMUM and MAXIMUM TAX may apply. If it does not apply, leave them blank;

SPECIAL NOTES FIELDS are used for any filing carrier instructions not captured in the form;
