e-Invoicing update

Bruno Roussel
Senior Manager, Industry e-Invoicing, GDC
IATA
SAI Project update

The project has been transferred to Airline Partners Payment Solution (APPS) and SIS Operation Team

- 40 airlines part of the co – Sign letter (compare to 33 2017)
- 2 Suppliers works shop per year (May 2018 Singapore / Madrid 2018 WFS)
- 2018 Transitional year- More action planned in 2019 with new resource in APPS
Airlines engagement 1/2

This is an industry initiative requiring engagement of all industry suppliers (DOC)

With the help and coordination of airlines and cost control providers we should be able to increase growth

This need to be a strategic project within airlines as this require resources

We need to speak one voice towards adoption of SIS and IS-XML (HQ and LO)
Airlines engagement 2/2

With new release in November we will address last set of requirements:

• Operational data transmission to airport for PSC
• Operational data for Lessors
• Purchase Order transmission
• IATA Fuel XML transmission
• IATA Fuel transaction standard transmission
• Any other operational data need will be addressed

So from now on you can use SIS for all your direct operating costs!

SIS Survey will be done to know where you like to be involved and who is the contact in your airline per segment
