- Once logged in, you will see a summary of your courses and exams.

The screenshot shows the IATA Training user interface. At the top, there is a navigation bar with the IATA logo and links for Product Search, My Bookings, My Profile, and Logout. Below this, the page is titled "IATA Training My Bookings" and includes links for Awards and History. The main content is divided into three sections: "Paused Exams and Courses" with two items: "Air Transport Fundamentals - Ebook - ..." (started March 22, 2017 at 09:46:09) and "Aviation Security Awareness - Ebook - ..." (started March 22, 2017 at 10:21:51), both with "Open course" buttons; "Available Exams and Courses" with one item: "Tutorial" (unlimited uses, anytime) with a "Write exam" button; and "Book with an Enrolment Key" which includes a text input field and a "Submit" button. The footer contains copyright information and links for Contact Us and FAQ.

- To familiarize yourself with the online exam environment, you may access the **Tutorial** as often as you like. Simply click on the **Write exam** button next to the Tutorial title.

This screenshot is identical to the one above, but the "Write exam" button next to the "Tutorial" item in the "Available Exams and Courses" section is highlighted with a red rectangular box to draw attention to it.

The screenshot shows the welcome screen for the "Practice Exam - Air Transport Fundamentals". The page title is "Exam: Practice Exam - Air Transport Fundamentals". The main heading is "Welcome to the Air Transport Fundamentals Online Practice Exam." Below this, there is a paragraph explaining the purpose of the exam: "This exam is meant to simulate an actual IATA examination in preparation for an official exam session. The practice exam is **optional**. It does not replace the official IATA course examination and your grade on the practice exam will not affect your final course grade earned in the official examination. There is no IATA qualification earned on passing the practice exam. By including this practice exam as part of your study and preparation process, you will improve your chances for a successful result." A section titled "Read the following instructions carefully before starting the exam." lists seven instructions:

- The practice exam is accessible anytime and for an unlimited number of attempts during the validity period of the course and until its completion.
- We recommend that you study well before taking the practice exam. It should be completed in one sitting. However you may pause it and return to it later.
- The practice exam is only available online. It cannot be copied or printed.
- If you don't know how to solve a question on the practice exam, please refer to your course textbook or ask your IATA Authorized Training Center (ATC) instructor.
- Several practice exam questions will display images or extracts which are too small to read. You can click on the image embedded in the question to enlarge it. We recommend that you try the tutorial before accessing the practice exam. The tutorial can be accessed from your profile under "My Bookings".
- If you experience a power outage during your exam, the exam will automatically pause. Please try again to access the exam once power is back. In case you have any issues, please contact the support center at examstraining@iata.org.
- Upon completion of the online practice exam, your answers will be automatically graded and you will see which questions were answered correctly or incorrectly. Identify the questions answered incorrectly and review the corresponding material in your textbook.

Below the instructions, there is a "Good luck!" message and a checkbox labeled "I agree to the above statements" which is checked. A paragraph states: "You're about to begin the **Practice Exam - Air Transport Fundamentals**. Clicking the button below starts the exam." Below this, there is a clock icon and the text: "Exam Time limit: 1 hour and 30 minutes. The timer begins as soon as you click the button below. Your exam will automatically be submitted when the timer expires." At the bottom, there is a "Start exam >>" button (highlighted with a red box).
