

eAWBLink
enabling eAWB for all

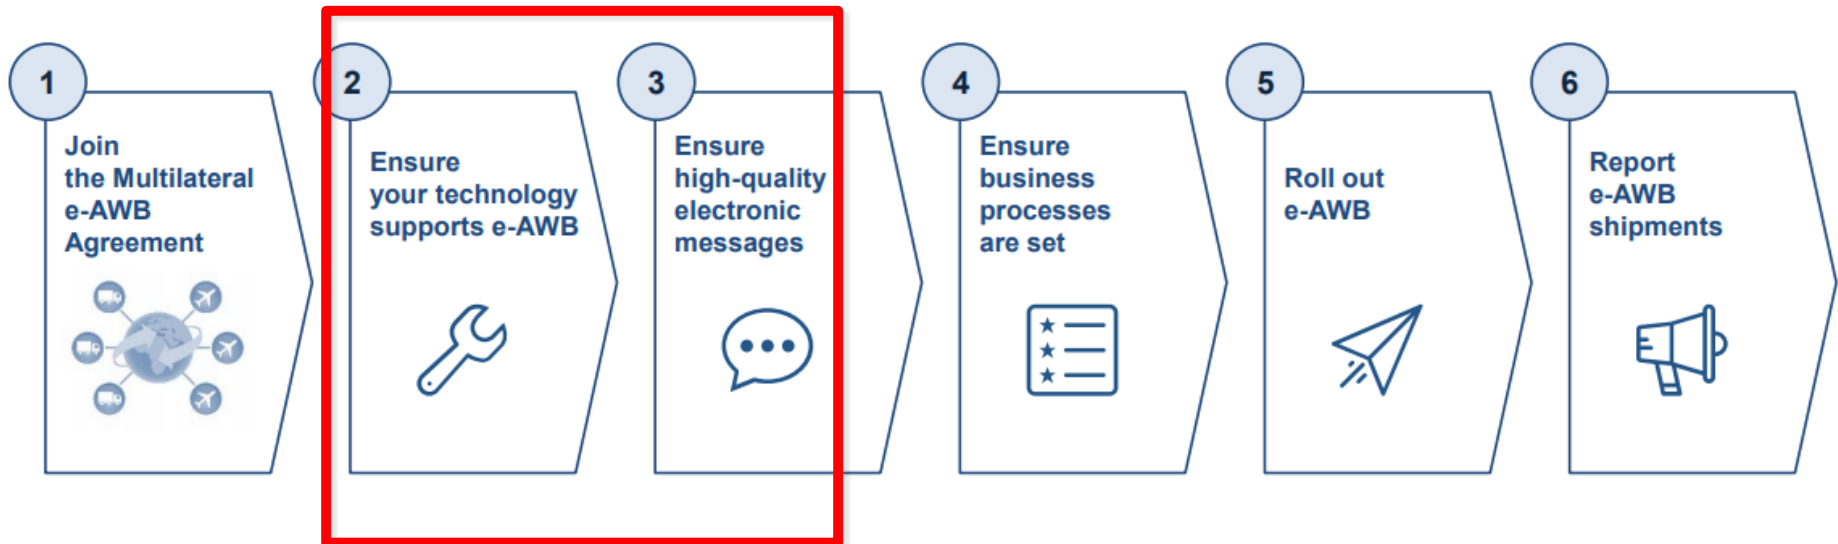

About e-AWB

- **e-Air Waybill (e-AWB)** is a cargo transportation contract between “shipper” (freight forwarder) and the “carrier” (airline) formed by electronic means
- Supported by International Air Treaties, such as Montreal Protocol 4 and Montreal Convention 1999
- IATA e-AWB initiative aims to replace paper AWB used currently with e-AWB
- Industry target of 68% by end of 2018

e-AWB Implementation

The following **6 steps** are key to ensure the success of an **e-AWB implementation**

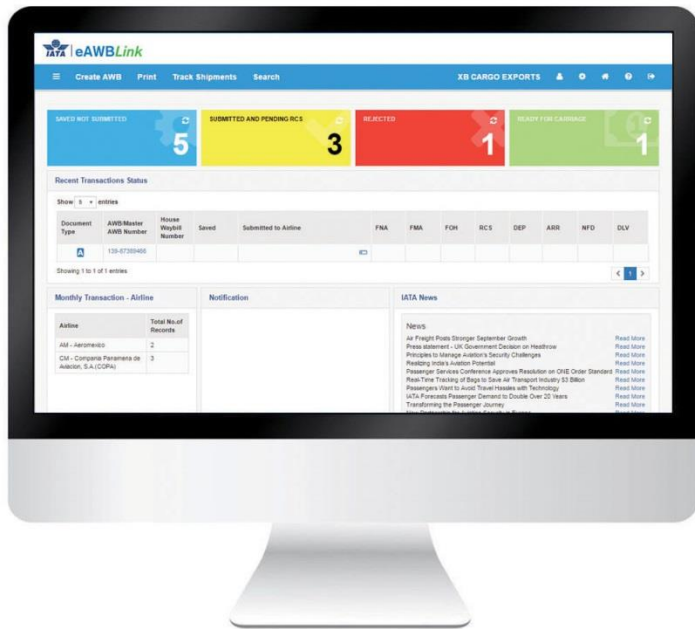

e-AWB messaging capability

Required capability	FF	AL	GHA
Send Air Waybill message	✓	✓	✓
Receive Air Waybill message		✓	✓
Send Status Update message		✓	✓
Receive Status Update message	✓ <i>recommended</i>		
Produce Cargo Receipts for FF		✓	✓
Archive electronic messages	✓	✓	✓
Print on-demand AWB information if need be	✓	✓	✓
