Traveling with electronic devices? Here’s three steps to help you fly safely:

1. It is best to pack **lithium-powered devices** and accessories into your **carry-on bag**.

2. Electronic cigarettes, power banks and spare batteries **MUST be kept in your carry-on bag**.

3. If you must pack your tablet, mobile or laptop in your checked luggage, be sure they are **completely turned off** (not in “hibernate” or “sleep” modes).

If in doubt, contact your airline.
